1. An overview of the Administration

FRP

The Proposals

The Administrators identified that the objective of the Administration, as set out in the Proposals approved on 8 March 2023, was to achieve a better result for the Company's creditors as a whole than would be likely if the Company had been wound up (without first being in Administration).

The objective was to be achieved by a sale of the business and certain assets as a going concern immediately following the appointment of the Administrators. This will generate sufficient funds to enable a dividend to be paid to unsecured creditors.

Further, in accordance with the Proposals, it was anticipated that a dividend would become available to the unsecured creditors. As such, it is now appropriate for the Company to move from Administration to CVL pursuant to Paragraph 83 of Schedule B1 to the Insolvency Act 1986.

Implementation of the Proposals

The aforementioned sale of the Company's business and certain assets was concluded immediately following the Administrators' appointment. Full details of that sale were provided to creditors shortly after completion of the sale.

Further details of the Company's assets and realisations during the Administration are set out in the previous progress report dated 22 August 2023 as well as Section 2 of this report.

Extension of the Administration

No extension of the Administration is required.

2. Progress of the administration in the Period

Work undertaken during the Administration

This report should be read in conjunction with the Proposals and my progress report dated 22 August 2023.

I attach at **Appendix C** a schedule of work undertaken during the Period together with a summary of work still to be completed during the Administration and the subsequent Liquidation.

Key aspects of the work undertaken during the Period are summarised below:

- Preparing and circulating the Administrators' six-month progress report and relevant notices as required by statute;
- Liaising extensively with Barclaycard to facilitate the return of the remaining deposit funds totalling £46,957 (less chargebacks);
- · Continuing to address creditor correspondence and queries;
- Continuing with the collection of book debts (£172 was received during the Period);
- Liaising with the purchaser of the Company's business and assets to recharge
 costs in relation to the novation of an agreement. £1,050 plus VAT has been
 recharged during the Period in this regard;
- Dealing with the post-appointment tax matters including de-registering the Company from VAT in all relevant countries with the assistance of Sovos; and
- Preparing and circulating the Administrators' final progress report and relevant notices as required by statute.

Bank interest of £11,553 has also been received in the Period.

Suspense account

Funds have been received into the Administration from the Company's pre-Administration bank accounts totalling £22,205 in which further enquiries and reconciliations are being carried out. This will be concluded in the subsequent CVL.

Sub-contractors

I can confirm that no work has been subcontracted to third parties.

Receipts and payments account

Attached at **Appendix E** is a receipts and payments account detailing both transactions for the Period of this report and also cumulatively for the whole period of the Administration.

Payments made from the estate are fair, reasonable, proportionate to the insolvency appointment, and are directly attributable to this insolvency. No payments have been made to associates without the prior approval of creditors as required by SIP9.

Investigations

Part of my duties included carrying out proportionate investigations into what assets the Company has, including any potential claims against the Director or other parties, and what recoveries could be made. I reviewed the Company's books and records and accounting information, requested further information from the Director, and invited creditors to provide information on any concerns they had regarding the way in which the Company's business had been conducted.

Further details of the conduct of my investigations are set out in the schedule of work attached. I can confirm that no further investigations or actions were required.

Exiting the administration

In accordance with the Proposals, the Administration will be exited by the Company moving to CVL. The date the Administration ceases and the CVL commences will be

2. Progress of the administration in the Period the date that the requisite notice is filed with the Registrar of Companies. The attached schedule at **Appendix C** also indicates the work that the Liquidators expect to carry out in the subsequent Liquidation.

3. Outcome for creditors

Initial estimated outcome for creditors

The Proposals anticipated that there would be sufficient funds to settle the secured and preferential creditors in full and pay a dividend to unsecured creditors.

Outcome for secured creditor

As previously advised, Barclays had security over a deposit account which held funds to settle any chargebacks from consumer creditors. The final level of chargeback claims (£3,042) has been agreed and paid in full from the deposit they held.

This is in line with the Administrators' Proposals.

Outcome for preferential creditors

Employee preferential claims comprise of arrears of pay, unpaid pension contributions, and holiday pay as calculated in accordance with legislation.

As previously reported, and pursuant to the SPA, 50 employees of the Company were transferred to the Purchaser(s) under TUPE provisions. Nine employees were made redundant on 1 February 2023 following the Company entering Administration.

It is currently estimated that preferential creditors will total approximately £58,000, being the employees' preferential element for arrears of pay, unpaid pension contributions, and holiday pay as calculated in accordance with legislation. We are awaiting the Insolvency Service's claim in this regard. It is anticipated that preferential creditors will be paid in full, in line with the Administrators' Proposals.

Any preferential distribution will be done by the subsequently appointed Liquidators.

Outcome for secondary preferential creditors

From 1 December 2020, HMRC ranks as a secondary preferential creditor in respect of the following:

Kokoba Limited - in Administration The Administrators' final report

- VAT:
- PAYE (including student loan repayments);
- · Construction Industry Scheme deductions; and
- Employees' NI contributions

As previously advised, based on the Company's records, HMRC's secondary preferential claim is currently estimated at £277,000. We are still awaiting HMRC's claim.

It is still anticipated that any agreed secondary preferential creditor claim will be paid in full, in line with the Proposals.

Any secondary preferential distribution will be done in the subsequent Liquidation.

Outcome for unsecured creditors

It is still anticipated that there will be sufficient funds available to enable a distribution to unsecured creditors. This distribution will be made by a subsequently appointed Liquidator; the costs of the Liquidation cannot at this stage be estimated and therefore it is not possible to estimate the level of distribution that may be made. This outcome is in line with the Proposals.

If you have not submitted a proof of debt form, please do so as soon as possible together with the relevant supporting documentation.

Prescribed part

The prescribed part is a carve out of funds available to the holder of a floating charge which is set aside for the unsecured creditors in accordance with Section 176A of the Insolvency Act 1986. The prescribed part only applies where the floating charge was created after 15 September 2003 and the net property available to the floating charge holder exceeds £10,000 and the cost of making a distribution to unsecured creditors would not be disproportionate to the benefits.

3. Outcome for creditors	EDD
	FRP

4. Administrators' remuneration, disbursements and expenses

Administrators' remuneration

Following circulation of the Proposals, unsecured creditors passed a resolution that the Administrators' remuneration should be calculated on a time cost basis. Details of remuneration charged during the Period are set out in the statement of expenses attached at **Appendix F**. To date, fees of £99,880.00 plus VAT have been drawn from the funds available.

The remuneration recovered by the Administrators based on time costs has not exceeded the sum provided in the fee estimate circulated to creditors with the Proposals, of £99,880 plus VAT. A breakdown of our time costs incurred during the Period is attached at **Appendix D**.

Administrators' disbursements

The Administrators' disbursements are a recharge of actual costs incurred by the Administrators on behalf of the Company. Mileage payments made for expenses relating to the use of private vehicles for business travel, which is directly attributable to the insolvency estate, are paid by FRP at the HMRC approved mileage rate prevailing at the time the mileage was incurred. Details of disbursements incurred during the Period are set out in **Appendix D**.

The expenses of the administration

I attach at $\mbox{\bf Appendix}~\mbox{\bf F},$ a statement of expenses that have been incurred during the Period.

An estimate of the Administrators' expenses was set out in the Proposals and was further updated in my last progress report sent to creditors. The total expenses incurred by the Administrators are included in the cumulative figures in the receipts and payments account attached at **Appendix E.**

In addition to the general advice provided throughout the Administration, HCR incurred additional costs in relation to a number of complex matters that were

Kokoba Limited - in Administration

The Administrators' final report

not originally envisaged at the outset of the Administration, this included but is not limited to:

- Advice in relation to a number of employees that objected to the TUPE transfer to the Purchaser(s); and
- Advice in relation to potential GDPR issues arising following the sale.

Aside from HCR, expenses incurred have not exceeded the estimates previously provided in the Proposals. When instructing third parties to provide specialist advice and services, or having the specialist services provided by the firm, the Joint Administrator is obligated to ensure that such advice or work is warranted and that the advice or work contracted reflects the best value and service for the work being undertaken. This is reviewed by the Joint Administrator periodically throughout the duration of the assignment. The specialists chosen may regularly be used by the Joint Administrator and usually have knowledge specific to the insolvency industry and, where relevant, to matters specific to this insolvency appointment.

Creditors' rights

Creditors have a right to request further information from the Administrators and further have a right to challenge the Administrators' remuneration and other expenses, which are first disclosed in this report, under the Insolvency Rules. (For ease of reference these are the expenses incurred in the reporting period as set out in **Appendix F** only). Further details of these rights can be found in the Creditors' Guide to Fees which you can access using the following link https://creditors.frpadvisory.com/info.aspx and select the one for Administrations. Alternatively, a hard copy of the relevant guide will be sent to you on request. Please note there is a time limit for requesting information being 21 days following the receipt of this progress report. There is a time limit of eight weeks following the receipt of this report for a Court application that the remuneration or expenses are excessive.

Kokoba Limited - in Administration The Administrators' final report **FRP**

Schedule of work

The table below sets out a detailed summary of the work undertaken by the office holders during the reporting period together with an outline of work still to complete. Where work undertaken results in the realisation of funds (from the sale of assets; recoveries from successful actions taken against third parties), there may be a financial benefit to creditors should there be sufficient funds available to make a distribution to one or more class of creditor. In this case work undertaken will include the scrutiny and agreement of creditor claims.

A proportion of the work undertaken by an Insolvency Practitioner is required by statute, including ensuring the appointment is valid, notifications of the appointment to third parties, regular reporting on the progress, notifying statutory bodies where required in relation to the conduct of the Directors, complying with relevant legislation and regulatory matters. This may not have a direct financial benefit to creditors but is substantially there to protect creditors and other stakeholders and ensuring they are kept informed of developments.
