The financial statements have been prepared under the historical cost convention.

The accounts have been prepared on a going concern basis. This basis may not be appropriate because the company has, at 31 March 2022, net liabilities of £2,016 (2021 £2,522). The validity of the going concern basis is dependent upon the continued support of its director.

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

The assets' residual values, useful lives and depreciation methods are reviewed and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying value amount and are recognised in the Income Statement.

Government grants

Government grants received in support of the coronavirus pandemic are recognize only when there is reasonable assurance that the entity will comply with any conditions attached to the grant and that the grant will be achieved.

The grant is recognised as income over the period necessary to match them with the related costs, for which they are intended to compensate.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.
