NOTES TO THE ABBREVIATED ACCOUNTS

YEAR ENDED 28 FEBRUARY 2011

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

After making enquiries, the director has a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. For this reason, he continues to adopt the going concern basis in preparing the accounts. The company is dependent upon the continuing support of the director, who has confirmed his willingness to provide this. The director considers that no additional disclosures in respect of going concern are necessary for the accounts to give a true and fair view.

Turnover

The turnover shown in the profit and loss account represents amounts receivable for goods and services during the year net of Value Added Tax.

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
