DREWTON CRANE LIMITED
NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED
30 JUNE 2009

1. Accounting Policies

a) Basis of Accounting

The accounts are prepared under the historical cost convention.

b) Turnover

Turnover represents the total invoice value of services rendered during the period.

c) Depreciation

Depreciation is provided using the following rates and bases to reduce by annual instalments the cost of tangible assets over their estimated useful lives.

Office equipment	25% Reducing balance
Fixtures and fittings	25% Reducing balance

d) Deferred Taxation

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the director considers that it is more likely than not that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred taxation is measured on a non-discounted basis at the average tax rates that would apply when the timing differences are expected to reverse, based on tax rates and laws that have been enacted by the balance sheet date.

e) Work in progress is valued at the lower of cost or net realisable value.
