Strategic Report for the year ended 31 December 2017

The Directors present their strategic report for the Company for the year ended 31 December 2017.

The Directors, in preparing this strategic report, have complied with s414C of the Companies Act 2006.

Atlantic Inertial Systems Limited is involved in the development, manufacture, marketing and selling of gyroscopes and inertial navigation systems mainly for military applications.

Business review

The Company predominantly trades within the defence market which remains subject to uncertainty where national defence budgets are under constant scrutiny and possible cutbacks.

The company has been successful in achieving a 4.1% rise in total revenue from 2016.

Sales for Original Equipment and Spares Manufacture - the main component of revenue - increased by 6.7%; whilst those for Aftermarket reduced. Due to an improvement in overall margin percentage from 49.4% to 54.0% Gross Profits increased by 13.8% year over year.

The Company continues to maintain tight cost control on both overhead and programme costs which have enabled an increase in Profit before tax of 18.9% year over year.

The key performance indicators below show that the operating profit has increased in 2017; this has been due to the growth in revenue together with continuing strong cost control.

Key performance indicators

The key financial and other performance indicators during the year were as follows;

	2017	2016	Change
	£'000	£'000	%
Revenue	56,383	54,155	4.1%
Operating profit	22,591	19,223	17.5%
Profit for the financial year	19,052	21,503	(11.4)%
Total shareholders' funds	128,771	109,715	17.4%
Current assets as % of current liabilities	638%	624%	
Average number of employees	247	246	•

Achieving Competitive Excellence

The business continues to deploy an operational framework which drives continuous improvement in all areas across the business to ensure that financial and growth targets are met. The business has a good line of sight in terms of order book coverage to deliver a further 18% increase in sales in 2018.

The business continues its focus on delivering the highest level of Quality throughout all its Operational and Support activities and has maintained Quality Cardinal Rules to reinforce its commitment to this important area and offering the best value to its customers.

Strategic Report for the year ended 31 December 2017

Employee Involvement

It is the policy of the Company to maintain and develop employee involvement. Local managers provide information on a regular basis on matters of concern to employees, using various means such as business review meetings, briefing meetings, video presentations, Company newspapers and training sessions. A wide range of procedures exists for consultation with employees and their representatives, including suggestion schemes, employee communication meetings and employee surveys.

Environmental Matters

The Company is convinced of the importance of health, safety and the environment to the success of its business and is committed to be an industry leader in demonstrating its responsibility.

The Company will, on a continuing basis: develop and maintain a culture which recognises the importance of health, safety and the environment to its success and exercise its responsibilities in a manner that reflects this; provide a healthy and safe place of work for all its employees; develop products and operate facilities in a manner that strives to eliminate risk to employees, customers, the environment and the community at large; and improve its performance in health, safety and environmental matters by encouraging the participation, commitment and support of all its employees.

During 2017 the business continued to integrate into the UTC Environment, Health & Safety (EH&S) framework achieving all the milestones targets set within the integration plan.

Principal risks and uncertainties

The principal non-financial risks and uncertainties facing the Company are broadly grouped as competitive and legislative. The financial risks are discussed in the financial risk management section of the Directors' report.

Competitive Risks

The Company is dependent on the performance of its large contracts. The Company, through a continued commitment to excellence, seeks to achieve and exceed customer expectation and therefore mitigate and reduce the risk of non-renewal and contract termination. The Company carefully manages and directs its business development team to identify and win new business opportunities via the development of customer relations and by continually improving its products.

There is significant competition from multinational firms with substantial resources and capital. The Company achieves competitive advantage through the effectiveness and innovation of its products, and its success in securing volume production contracts to achieve the necessary throughput efficiencies.

Legislative Risks

A small proportion (less than 10%) of the business carried out is subject to standards set by the Civil Aviation Authority (CAA), the European Aviation Safety Agency (EASA) and in some cases the Federal Aviation Authority (FAA). All of these bodies issue regulations which need to be complied with in order to be authorised to carry out maintenance work in the aerospace industry. Compliance imposes costs and failure to comply with the standards could materially affect the Company's ability to operate. To mitigate against these risks the business operates a robust business management system which ensures adherence to the regulatory standards through procedures, standard work and policies. This is supported by a strong audit program through self-assessment and within the UTC group internal audit function.

Strategic Report for the year ended 31 December 2017

Future developments

The directors are forecasting an increase in sales and profitability in 2018, this expectation stems from a high proportion of confirmed orders for the coming year and provides a sound basis to reach targets set.

Approval

S Barnes

Director

Date: 18th June 2018

Clittaford Road Southway Plymouth Devon PL6 6DE

Directors' Report for the year ended 31 December 2017

The directors present their report and audited financial statements of the company for the year ended 31 December 2017.

Future developments

Details of future developments can be found in the Strategic Report on page 3 and form part of this report by cross-reference.

Research and development

During 2017 the Company invested £2,905,000 (2016: £3,258,000) in research and development of new gyroscopes and navigation products. Of the total investment, £1,928,000 (2016: £577,478) was capitalised as qualifying development costs.

Going concern

The directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis in preparing the annual financial statements.

Further details regarding the adoption of the going concern basis can be found in note 1 to in the financial statements.

Financial risk management objectives and policies

Foreign Currency Risks

The Company buys and sells goods and services denominated in currencies other than sterling. As a result, the value of the business's non-sterling denominated revenues, purchases, financial assets and liabilities and cash flows can be affected significantly by movements in exchange rates in general and in US Dollar rates in particular.

The Company holds monetary assets and liabilities in which the underlying currency is a currency other than the Company's functional currency. In line with Generally Accepted Accounting Principles these monetary assets and liabilities are revalued at each month end to the closing balance sheet rate. These revaluations give rise to foreign exchange gains or losses which are taken through the profit and loss account in the month in which they arise.

Liquidity Risk

The Company aims to mitigate liquidity risk by managing cash generation in its operations and applying cash collection targets. Investment is carefully controlled, with authorisation limits operating at different levels up to UTC board level and with hurdle rates of return and cash payback periods applied as part of the investment appraisal process.

The Company participates in the overall world-wide UTC funding strategy managed at corporate treasury level.

The Company participates in a UK cash pool. The objective is to maintain a balance between continuity of funding and flexibility.

Directors' Report for the year ended 31 December 2017

Dividends

The profit for the financial year amounted to £19,052,000 (2016: £21,503,000).

There were no ordinary dividends proposed, declared or paid in the year or post year end to the date of signing the financial statements (2016: nil).

Directors

The directors who held office during the year and up to the date of signing the financial statements are given below:

S Barnes

K Pindard

J Keppy

Directors' indemnities

The Company has made qualifying third party indemnity provisions for the benefit of its directors which were made during the year and remains in force at the date of this report.

Disabled employees

Applications for employment by disabled persons are always fully considered, bearing in mind the abilities of the applicant concerned. In the event of members of staff becoming disabled every reasonable effort is made to ensure that their employment with the Company continues and that appropriate training is arranged. It is the policy of the Company that the training, career development and promotion of disabled persons should, as far as possible, be identical to that of other employees.

Modern Slavery Act

The Company is committed to ensuring slavery and human trafficking are not taking place in its business or supply chains. To this end the Company has published a statement for the Reporting Period at www.utcaerospacesystems.com.

Employee consultation

The Company places considerable value on the involvement of its employees and has continued to keep them informed on matters affecting them as employees and on the various factors affecting the performance of the Company. This is achieved through monthly all staff briefings, formal and informal meetings, the Company magazine and a special edition for employees of the annual financial statements. Employee representatives are consulted regularly on a wide range of matters affecting their current and future interests.

Statement of directors' responsibilities in respect of the financial statements

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 101 "Reduced Disclosure Framework", and applicable law).

Directors' Report for the year ended 31 December 2017

Statement of directors' responsibilities in respect of the financial statements (continued)

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 101, have been followed, subject to any material departures disclosed and explained in the financial statements;
- · make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006.

The directors are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Disclosure of information to auditors

In the case of each director in office at the date the Directors' Report is approved:

- so far as the director is aware, there is no relevant audit information of which the company's auditors are unaware; and
- they have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information.

Independent Auditors

PricewaterhouseCoopers LLP have indicated their willingness to be reappointed for another term and appropriate arrangements have been put in place for them to be deemed reappointed as independent auditors in the absence of an Annual General Meeting.

Approved by the Board and signed on its behalf by:

S Barnes
Director

Date: 18th June 2013

Clittaford Road Southway Plymouth Devon PL6 6DE

Independent auditors' report to the members of Atlantic Inertial Systems Limited Report on the audit of the financial statements

Opinion

In our opinion, Atlantic Inertial Systems Limited's financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2017 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 101 "Reduced Disclosure Framework", and applicable law); and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual Report, which comprise: the Balance Sheet as at 31 December 2017; the Profit and Loss Account, the Statement of changes in equity for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (UK) require us to report to you when:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material
 uncertainties that may cast significant doubt about the company's ability to continue to adopt
 the going concern basis of accounting for a period of at least twelve months from the date
 when the financial statements are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

Independent auditors' report to the members of Atlantic Inertial Systems Limited

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic Report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (UK) require us also to report certain opinions and matters as described below.

Strategic Report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic Report and Directors' Report for the year ended 31 December 2017 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic Report and Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of directors' responsibilities set out on pages 5-6, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Independent auditors' report to the members of Atlantic Inertial Systems Limited

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- · we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- · certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Stephen Patey (Senior Statutory Auditor) for and on behalf of PricewaterhouseCoopers LLP Chartered Accountants and Statutory Auditors Bristol

Notes to the financial statements For the year ended 31 December 2017

1. Accounting policies

Atlantic Inertial Systems Limited is involved in the development, manufacture, marketing and selling of gyroscopes and inertial navigation systems mainly for military applications.

The company is a private company, limited by shares, and is incorporated and domiciled in England, United Kingdom. The address of its registered office is Clittaford Road, Southway, Plymouth, Devon PL6 6DE.

The principal accounting policies are summarised below. They have all been applied consistently throughout the year and all the years presented, unless otherwise stated.

Basis of accounting

The company meets the definition of a qualifying entity under FRS 100 (Financial Reporting Standard 100) issued by the Financial Reporting Council.

These financial statements have been prepared in accordance with Financial Reporting Standard 101 'Reduced Disclosure Framework.' The financial statements are therefore prepared in accordance with the Companies Act 2006 as applicable to companies using FRS 101.

The financial statements have been prepared on a going concern basis and under the historical cost convention, except for financial instruments that are measured at revalued amounts or fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for the goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of IFRS 2, leasing transactions that are within the scope of IAS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 or value in use in IAS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Notes to the financial statements For the year ended 31 December 2017

1. Accounting policies (continued)

The financial statements contain information about Atlantic Inertial Systems Limited as an individual company and do not contain consolidated financial information as the parent of a group. The company is exempt under section 401 of the Companies Act 2006 from the requirement to prepare consolidated financial statements as they are included by full consolidation in the consolidated financial statements of its ultimate parent, United Technologies Corporation, a company incorporated in the United States of America.

As permitted by FRS 101, the company has taken advantage of some of the disclosure exemptions available under that standard. The key exemptions taken are as follows:

IFRS 3 - not to restate business combinations before the date of transition

IFRS 7 - financial instrument disclosures

IFRS 13 - disclosure of valuation techniques and inputs used for fair value measurement of assets and liabilities

IAS 1 – Information on management of capital

IAS 7 - statement of cash flows

IAS 8 - disclosures in respect of new standards and interpretations that have been issued but are not yet effective

IAS 24 - disclosure of key management compensation and for related party disclosures entered into between two or more members of a group

IAS 1 - the requirement to present roll forward reconciliations in respect of share capital and

IFRS 2 paragraphs 45b and 46-52 - share based payments

Where required, equivalent disclosures are given in the group financial statements of United Technologies Corporation. The group financial statements of United Technologies Corporation are available to the public and can be obtained as set out in note 24.

Adoption of new and revised Standards

No new accounting standards, or amendments to accounting standards, or IFRIC interpretations that are effective for the year ended 31 December 2017 have had a material impact on the company.

Going concern

The Company's business activities, together with the factors likely to affect its future development, performance and position are set out in the strategic report. The directors' report describes the financial position of the Company; its cash flows, liquidity position and borrowing facilities; the Company's objectives, policies and processes for managing its capital; its financial risk management objectives; details of its financial instruments; and its exposure to credit risk and liquidity risk.

The Company meets its day to day working capital requirements through a cash pooling arrangement which is centrally managed by its ultimate parent undertaking.

The directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

Notes to the financial statements For the year ended 31 December 2017

1. Accounting policies (continued)

Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Intangible assets - Development costs

Development costs are capitalised only after technical and commercial feasibility of the asset for sale or use have been established. All development costs are capitalised where the Company has the intention to complete the project and it can demonstrate that the asset will generate future economic benefits. Development costs are amortised on straight line basis over 5 years.

Intangible assets - Goodwill

Goodwill arises on a business combination and represents the excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired. If the total of consideration transferred, non-controlling interest recognised and previously held interest measured at fair value is less than the fair value of the net assets of the subsidiary acquired, in the case of a bargain purchase, the difference is recognised directly in the profit and loss account.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units (CGUs), or groups of CGUs, that is expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes.

Goodwill impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of the CGU containing the goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs of disposal. Any impairment is recognised immediately as an expense and is not subsequently reversed.

Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost. Depreciation on buildings is charged to income.

Properties in the course of construction for production, supply or administrative purposes, or for purposes not yet determined, are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the company's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use. Freehold land is not depreciated.

Fixtures and equipment are stated at cost less accumulated depreciation and any recognised impairment loss.

Notes to the financial statements For the year ended 31 December 2017

1. Accounting policies (continued)

Property, plant and equipment (continued)

Depreciation is provided on all tangible fixed assets, other than freehold land, at rates calculated to write off the cost of each asset, less any residual value, on a straight-line basis over its expected useful life, as follows:

Freehold property Plant and machinery - 10 years - 5-12 years

Software

- Up to 5 years

Payments on account and assets in the course of construction

No depreciation charged until transferred to appropriate class of asset upon completion

Useful lives are reviewed, and adjusted if appropriate, at the end of every reporting period.

Impairment of tangible and intangible assets

At each balance sheet date, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. An intangible asset with an indefinite useful life is tested for impairment at least annually and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

Investments

Except as stated below, investments, including investments in joint ventures, are shown at cost less provision for impairment. Current asset investments are stated at the lower of cost and net realisable value.

The Company has taken advantage of the exemption available to it under IAS 28 from applying the equity method to its investment in a joint venture.

Notes to the financial statements For the year ended 31 December 2017

1. Accounting policies (continued)

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost includes materials, direct labour and an attributable proportion of manufacturing overheads based on normal levels of activity. Net realisable value is based on estimated selling price, less further costs expected to be incurred to completion and costs to be incurred in marketing, selling and distribution. Provision is made for obsolete, slow-moving or defective items where appropriate.

Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date. The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on tax laws and rates that have been enacted or substantively enacted at the balance sheet date. Deferred tax is charged or credited in the profit and loss account, except when it relates to items charged or credited in other comprehensive income, in which case the deferred tax is also dealt with in other comprehensive income.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Current tax and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Notes to the financial statements For the year ended 31 December 2017

1. Accounting policies (continued)

Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and that the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, net of sales taxes, trade discounts and rebates and estimated customer returns. Revenue is only discounted where the impact of discounting is material.

The business derives revenue from a number of streams and therefore uses a variety of methods for revenue recognition.

Sale of goods

Revenue from the sale of goods is recognised when the risks and rewards of ownership have been transferred to the customer, the amount of revenue can be measured reliably and the recovery of the consideration is considered probable. For product sales with no installation requirements, revenue is recognised when the product is delivered to the customer in accordance with the agreed delivery terms. Where installation is also required, revenue on both the product and installation is recognised once the customer has confirmed its acceptance procedures.

Long-term contract accounting

Revenue from long-term contracts is recognised by reference to the stage of completion of the contract in accordance with IAS 18 'Revenue' and IAS 11 'Construction contracts'. The stage of completion is determined according to the nature of the specific contract concerned. Methods used to assess the stage of completion include incurred costs as a proportion of total costs, labour hours incurred or earned value of work performed.

The profit element of the revenue attributable to a contract is recognised if the final outcome can be reliably assessed. In order to assess the likely outcome of a contract a full estimated cost of completion is produced which will assess risks and opportunities including cost rates, time, volume and performance for the contract and apply a probability to these being realised. As time elapses these risks and opportunities will become more predictable. Risks and opportunities will vary dependent on the terms of each contract and the commercial environment of each market.

On-going service contracts

Revenue is recognised in equal instalments over the period that services are provided to the customer. Where amounts are received in advance of services being provided, the amounts are recorded as deferred income and included as part of creditors due within one year.

Specific activity service contracts

Where service contracts require the performance of a specific activity, revenue is recognised once this specific activity has been completed to the performance required by the customer.

Notes to the financial statements For the year ended 31 December 2017

1. Accounting policies (continued)

Revenue (continued)

Royalties

Royalty revenue is recognised on an accrual basis in accordance with the substance of the relevant agreement (provided that it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably). Royalties determined on a time basis are recognised on a straight-line basis over the period of the agreement. Royalty arrangements that are based on production, sales and other measures are recognised by reference to the underlying arrangement.

Interest income

Interest income is recognised when it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Pension costs

For defined contribution schemes the amount charged to the profit and loss account in respect of pension costs and other post-retirement benefits is the contributions payable in the year. Differences between contributions payable in the year and contributions actually paid are shown as either accruals or prepayments in the balance sheet.

The Company participates in a group defined benefit scheme, 'UTC (UK) Pension Scheme' for qualifying employees. There is no contractual agreement or stated policy for charging the net defined benefit cost. In accordance with IAS 19 (Revised 2011), the Company recognises a cost equal to its contribution payable for the period, which is presented within other operating expenses in the profit and loss account.

Foreign currency

The financial statements are presented in pounds sterling, which is the currency of the primary economic environment in which the Company operates (its functional currency).

Transactions in currencies other than the functional currency are recorded at the rate of exchange at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are reported at the rates of exchange prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences are recognised in profit and loss account in the period in which they arise except for:

- exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings; and
- exchange differences on transactions entered into to hedge certain foreign currency risks (see below under financial instruments).

Notes to the financial statements For the year ended 31 December 2017

1. Accounting policies (continued)

Leases

Rentals under operating leases are charged on a straight-line basis over the lease term, even if the payments are not made on such a basis. Benefits received and receivable as an incentive to sign an operating lease are similarly spread on a straight-line basis over the lease term.

Financial assets and liabilities

As explained below, where financial liabilities are measured at amortised cost using the effective interest method, interest expense is recognised on an effective yield basis in the profit and loss account within finance costs.

Finance costs which are directly attributable to the construction of property, plant and equipment are capitalised as part of the cost of those assets. The commencement of capitalisation begins when both finance costs and expenditures for the asset are being incurred and activities that are necessary to get the asset ready for use are in progress. Capitalisation ceases when substantially all the activities that are necessary to get the asset ready for use are complete.

All other borrowing costs are recognised in the profit and loss account in the period in which they are incurred.

Loans and receivables

Trade receivables, loans, and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and receivables'. Loans and receivables are measured at amortised cost using the effective interest method, less any impairment. Interest income is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial.

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at each balance sheet date. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

For all other financial assets objective evidence of impairment could include:

- · significant financial difficulty of the issuer or counterparty; or
- · default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

For certain categories of financial asset, such as trade receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables includes the Company's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period of 60 days, as well as observable changes in national or local economic conditions that correlate with default on receivables.

Notes to the financial statements For the year ended 31 December 2017

1. Accounting policies (continued)

Impairment of financial assets (continued)

For financial assets carried at amortised cost, the amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate. The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

If in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the financial asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Derecognition of financial assets.

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either held for trading or it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Company's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or

Notes to the financial statements For the year ended 31 December 2017

1. Accounting policies (continued)

Financial liabilities at FVTPL (continued)

• it forms part of a contract containing one or more embedded derivatives, and IAS 39 Financial Instruments: Recognition and Measurement permits the entire combined contract (asset or liability) to be designated as at FVTPL.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on re-measurement recognised in the profit and loss account. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability and is included in the 'other gains and losses' line item in the profit and loss account.

Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire.

Government grants

Government grants are not recognised until there is reasonable assurance that the company will comply with the conditions attaching to them and that the grants will be received. Government grants are accounted for on an accruals, rather than performance basis.

Government grants are recognised in the profit and loss account on a systematic basis over the periods in which the company recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognised as deferred revenue in the balance sheet and transferred to the profit and loss account on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the company with no future related costs are recognised in the profit and loss account in the period in which they become receivable.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

Government grants relating to tangible fixed assets are treated as deferred income and released to the profit and loss account over the expected useful lives of the assets concerned. Other grants are credited as 'other operating income' to the profit and loss account as the related expenditure is incurred.

Share based payments

Incentives in the form of shares are provided to one or more Directors under share award schemes that are established by the previous ultimate parent company, Goodrich Corporation. The fair value of these options and awards at the date of the grant is determined by a valuation as described in Note 23 and is charged to the profit and loss account over the relevant vesting periods. An amount equivalent to that charged to profit in any period is credited to shareholders funds as a reserve movement reflecting the fact that there is no cash cost to the Company of these share based payments.

Notes to the financial statements For the year ended 31 December 2017

1. Accounting policies (continued)

Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle that obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the balance sheet date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions are discounted where the impact of discounting is material.

Restructuring

A restructuring provision is recognised when the Company has developed a detailed formal plan for the restructuring and has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement the plan or announcing its main features to those affected by it. The measurement of a restructuring provision includes only the direct expenditures arising from the restructuring, which are those amounts that are both necessarily entailed by the restructuring and not associated with the ongoing activities of the entity.

Warranties

Provisions for the expected cost of warranty obligations are recognised at the date of sale of the relevant products, at the directors' best estimate of the expenditure required to settle the Company's obligation.

Loss making contracts

The loss making contract provision relates to long term contracts where the estimated total costs are forecast to exceed contract values. In accordance with FRS 101 the entire loss is recognised as soon as the loss is identified by management.

2. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 1 above, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Notes to the financial statements For the year ended 31 December 2017

2. Critical accounting judgements and key sources of estimation uncertainty (continued)

Critical judgements in applying the company's accounting policies

The following are the critical judgements, apart from those involving estimations (which are dealt with separately below), that the directors have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in financial statements.

Revenue recognition - sale of goods

In making its judgement, management considered the detailed criteria for the recognition of revenue from the sale of goods set out in IAS 18 Revenue and, in particular, whether the Company had transferred to the buyer the significant risks and rewards of ownership of the goods. Following the detailed quantification of the Company's liability in respect of rectification work, and the agreed limitation on the customer's ability to require further work or to require replacement of the goods, the directors are satisfied that the significant risks and rewards have been transferred and that recognition of the revenue in the current year is appropriate, in conjunction with recognition of an appropriate provision for the rectification costs.

Revenue recognition - long term contracts

Revenue is recognised on long term contracts where the outcome of the contract can be reliably estimated. Revenue and costs are recognised based on the work performed at the date of the balance sheet. This is measured looking at the actual costs incurred to date as a percentage of the total estimated costs of the project. The estimated costs of a contract are based on detailed models of expected costs, which are regularly reviewed as the project progresses.

Adjustments to total expected costs are updated as required. Revenue is based on contracted amounts, and variations to the extent that they are considered reliably and receipt can be considered probable. Management assesses the likelihood that variations will be recovered considering: the contractual position, success rate of similar claims and the ability of the customer to accept the variation.

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

Recoverability of goodwill

Under the new accounting standards management have assessed the recoverability of goodwill, with reference to the estimated future cash flows of the Company. The Company has followed a UTC wide calculation and its future revenues do not indicate that goodwill requires impairment. The most significant assumptions used in the impairment review is the discount rate applied to forecast cash flows.

Recoverability of internally-generated intangible asset

During the year, management reconsidered the recoverability of its internally-generated intangible asset which is included in its balance sheet at £4,485,000 (2016: £2,760,000). The project continues to progress in a very satisfactory manner, and customer reaction has reconfirmed management's previous estimates of anticipated revenues from the project.

Notes to the financial statements For the year ended 31 December 2017

2. Critical accounting judgements and key sources of estimation uncertainty (continued)

Useful economic lives of properties, plant and equipment

The annual depreciation charge for property, plant and equipment is sensitive to changes in estimated useful economic lives of the assets. The useful lives of the assets are assessed on an annual basis and are amended when necessary to reflect current estimates. See note 12 for the carrying amount for the property, plant and equipment, and note 1 for the useful economic lives for each class of assets.

Inventory provisioning

The Company is involved in the development, manufacture, marketing and selling of gyroscopes and inertial navigation systems mainly for military applications. These are subject to changing customer demands and technological change. As a result it is necessary to consider the recoverability of the cost of the inventory and the associated provisioning required. Management considers the nature and condition of inventory, as well as applies assumptions around expected future demand for the inventory, when calculating the level of inventory provisioning. See note 14 for the net carrying value of inventory and associated provision.

Impairment of Trade Receivables

The company makes an estimate of the recoverable value of trade and other debtors. When assessing impairment of trade and other receivables, management considers factors including the credit rating of the receivable, the age profile of the receivable and historic experience. See note 15 for the net carrying amount of the receivables and the associated impairment provision.

Defined Benefit Pension Scheme

The Company participates in a group defined benefit scheme for qualifying employees (the UTC (UK) Pension Scheme). Under the scheme, the employees are entitled to retirement benefits varying between 1% and 67% per cent of final salary on attainment of a retirement age of 65.

In the judgement of the directors, the company does not have sufficient information on the plan assets and liabilities to be able to reliably account for its share of the defined benefit obligation and plan assets. Therefore the scheme is accounted for a defined contribution scheme, see note 21 for details.

Notes to the financial statements For the year ended 31 December 2017

3. Revenue

The tax credit in future years may be affected by:

Depreciation is running in advance of claims for capital allowances. Whether this continues to be the case depends on the level of capital allowance claims in the future and the level of future investment in fixed assets.

Notes to the financial statements For the year ended 31 December 2017

10. Tax on profit (continued)

Reductions to the UK corporation tax rates were announced in the Chancellor's Budget on 8 July 2015 and were substantively enacted on 26 October 2015. These include reductions to the main rate to reduce the rate to 19% from 1 April 2017 and to 18% from 1 April 2020. An additional reduction to 17% (effective from 1 April 2020) was substantively enacted on 6 September 2016. The closing deferred tax liability at 31 December 2017 has therefore been calculated using these rates. The reductions will also reduce the company's future current tax charge accordingly.

11. Intangible assets

	Development costs £'000	Goodwill £'000	Total £'000

In 2015, 2016 and 2017 Development costs relating to High Performance sensors and associated Inertial Measurement Units (IMU's) were capitalised in accordance with the measurement and recognition bases of IAS 38 Intangible Assets. The IMU's went into production in 2016 and the costs are being written off over 5 years.

At 1 January 2017 and 31 December 2017	6,549

The Company's investment in Silicon Sensing Systems Limited is treated as a joint venture because the Company exercises joint control through its 50% holding of the voting rights.

Details of the Company's investments at 31 December 2017 are as follows. Unless otherwise indicated, all ownership interests are in the ordinary share capital of the investee.

Name & Registered Address	Place of incorporation (and operation)	Proportion of ownership interest %	Proportion of voting power held %
Silicon Sensing Systems Limited Clittaford Road, Southway, Plymouth, Devon, PL6 6DE, England	England	50%	50%

The investment in the joint venture is stated at cost less provision for impairment.

14. Inventories

	2017 £'000	2016 £'000
Raw materials and consumables	1,987	1,637
Work in progress	2,607	146
Finished goods and goods for resale	681	176
	5,275	1,959

In the opinion of the Directors the difference between the carrying value of inventory and its replacement value is not material. There is no provision (2016: £81,000) over stock held.

Notes to the financial statements For the year ended 31 December 2017

15. Debtors

	2017 £'000	2016 £'000
Trade receivables	10,828	12,277
Amounts owed by group undertakings	95,829	81,277
VAT	1,942	500
Other receivables	82	12
Prepayments and accrued income	444	436
Deferred tax asset (note 18)	230	320
	109,355	94,822

Loans to other group companies mature on a monthly basis and are renewable at a variable interest rate. No interest is charged on inter-company trading balances.

There are no provisions for impairment included in trade receivables (2016: £nil).

16. Creditors: amounts falling due within one year

	2017 £'000	2016 £'000
·		
Trade creditors	5,538	3,150

Arising during the year	-	116	-	116
Unused amounts reversed to the profit and loss account	(408)	-	-	(408)
At 31 December 2017	-	84		. 84

Product warranties

The provision for product warranties relates to expected warranty claims on products sold in the last three years. It is expected that the majority of this expenditure will be incurred in the next financial year and that all will be incurred within three years of the balance sheet date

Loss Making

The loss making contract provision relates to long term contracts where the estimated total costs are forecast to exceed contract values. In accordance with FRS 101 the entire loss is recognised as soon as the loss is identified by management

Notes to the financial statements For the year ended 31 December 2017

18. Deferred tax

The Company recognises deferred tax assets as follows:

depreciation £'000		
	£'000	Total £'000
373	<u>-</u>	373
(90)	37	(53)
283	37	320
(130)	40	(90)
153	77	230
	(90) 283 (130)	373 - (90) 37 283 37 (130) 40

The provision for deferred tax consists of the following deferred tax assets:

	2017 £'000	2016 £'000
Deferred tax assets due within 12 months	77	-
Net asset due within 12 months	77	-
Deferred tax assets due after more than 12 months	153	320
Net asset due after more than 12 months	153	320
Total deferred tax provision	230	320

Notes to the financial statements For the year ended 31 December 2017

19. Called up Share capital

Ordinary shares

2017 £'000	2016 £'000
10	10
2017 £'000	2016 £'000
00	90
	£'000 10 2017

As the preference shares carry no right to dividends and are not redeemable, they are considered to constitute equity rather than debt and have therefore been recognised as such.

20. Financial Commitments

Operating Leases

	2017 £'000	2016 £'000
Within one year	. 8	5
Between two and five years	232	217
	240	222

Operating lease payments represent rentals payable by the Company for the lease of cars and office equipment. Car leases are negotiated for an average terms of four years and rentals are fixed for an average of four years.

Notes to the financial statements For the year ended 31 December 2017

21. Retirement benefit schemes

Defined contribution schemes

The Company operates defined contribution retirement benefit schemes for all qualifying employees. The assets of the schemes are held separately from those of the Company in funds under the control of trustees. Where there are employees who leave the schemes prior to vesting fully in the contributions, the contributions payable by the Company are reduced by the amount of forfeited contributions.

The total cost charged to income of £886,000 (2016: £846,000) represents contributions payable to these schemes by the Company at rates specified in the rules of the plans. There were no contributions outstanding at the year end.

Defined benefit schemes

The Company participates in a group defined benefit scheme for qualifying employees (the UTC (UK) Pension Scheme). Under the schemes, the employees are entitled to retirement benefits varying between 1% and 67% per cent of final salary on attainment of a retirement age of 65.

There is no contractual agreement or stated policy for charging the net defined benefit cost. In accordance with IAS 19 (Revised 2011), the Company recognises a cost equal to its contribution payable for the year, which in the year ended 31 December 2017 was £10,000 (2016: £27,000).

Further details of the Group defined benefit scheme are disclosed in note 21 of the financial statements of Goodrich Controls Systems for the year-ended 31 December 2017.

22. Share based payments

Cash-settled share-based payments

The company issues to certain employees share appreciation rights (SARs), determined by reference to the company's parent's shares, that require the company to pay the intrinsic value of the SAR to the employee at the date of exercise. The company recorded total expenses of £4,000 and £8,317 in 2017 and 2016, respectively. The total intrinsic value at 31 December 2017 was £2,000 (2016: £8,260).

Notes to the financial statements For the year ended 31 December 2017

23. Related party transactions

	2017	2016
	£,000	£'000
Product Sales	240	33
Product Purchases	367	661
Service charges to related parties	1,823	2,043
Royalty charges to related parties	128	74
Amounts owed to related parties	53	194
Amounts owed by related parties	30	591

The Company's ultimate parent is United Technologies Corporation, whose group financial statements are publicly available. Accordingly, the Company has taken advantage of the exemption in FRS101 from disclosing transactions with fellow wholly owned members or investees of United Technologies Corporation Group, with the exception of related party transactions with the Company's joint venture partner, Silicon Sensing Systems Limited. The above balances all relate to Silicon Sensing Systems Limited.

24. Controlling party

The company's immediate parent undertaking is Goodrich Limited, a company registered in England & Wales.

The company's ultimate parent undertaking and controlling party is United Technologies Corporation, a company incorporated in the United States of America.

United Technologies Corporation is the smallest and largest group to consolidate these financial statements.

Copies of the United Technologies Corporation group financial statements are publicly available and can be obtained from www.utc.com or by writing to Investor Relations, United Technologies Corporation, 10 Farm Springs Road, Farmington, CT 06032, Connecticut, USA.
