To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

1 Accounting policies

St James Holdings Limited ('the Company') is a company incorporated in the United Kingdom

Group financial statements are not prepared as permitted under Section 401 of the Companies Act 2006. Therefore, these financial statements present information about the Company as a separate entity and not about its Group.

The company has taken advantage of the exemption in FRS 1 *Cash Flow Statements* from the requirement to produce a consolidated cash flow statement dealing with flows for the group as the company's cash flows are included within those of its ultimate parent undertaking.

The financial statements are prepared under the historical cost convention, and in accordance with accounting principles generally accepted in the United Kingdom.

The Group financial statements are presented in sterling and all values are rounded to the nearest thousand pounds (£000) except where otherwise stated.

a) Fundamental accounting concept

At 30 June 2011 the company had net liabilities of £397,000, which includes loans from Mr M J W Ashley totalling £132,144. Net current liabilities were £142,202,000. The Director has received a commitment from the ultimate controlling party, Mr M J W Ashley, that he will continue to provide the Group with financial support so that it can meet its debts as they fall due for a period of at least 12 months from the date of approval of these financial statements or up until the date of any change in control. On this basis, the Director has prepared the financial statements on a going concern basis.

b) Turnover

Turnover represents income arising from sales of management services to group undertakings to group undertakings, third parties, and excludes value added tax.

c) Taxation

The charge for taxation is based upon the result for the period and takes comprises current taxation and taxation deferred through timing differences between the treatment of certain items for taxation and accounting purposes.

Current tax is the expected tax payable on the taxable income for the period, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous periods.

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exceptions:

- provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of those assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more than likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold.
- provision is made for deferred tax that would arise on remittance of the retained earnings of overseas subsidiaries, associates and joint ventures to the extent that, at the balance sheet date, dividends have been accrued as receivable, and
- deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

d) Investments

Interest in subsidiary undertakings is carried at cost less any impairment identified by the Director.

e) Dividends

Dividends are recognised as a liability in the period in which they are declared.
