Notes to the Abbreviated Accounts  
for the Year Ended 30 September 2015

1. **ACCOUNTING POLICIES**

**Accounting convention**

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

These financial statements are prepared on a going concern basis. The use of the going concern basis of accounting is appropriate because there are no material uncertainties related to events or conditions that may cast significant doubt about the ability of the company to continue as a going concern.

**Turnover**

Turnover represents the net amounts invoiced to customers during the period less work in progress and net of value added tax.

**Tangible fixed assets**

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Audiology Equipment	- 14-25% on cost
Fixtures and fittings	- 14-25% on cost
Computer Equipment	- 33% on cost

**Stocks**

Stock is valued at the lower of cost and net realisable value. Cost is determined on an average cost basis. Net realisable value is based on estimated selling price allowing for all further costs of completion and disposal.

**Deferred tax**

Deferred tax is provided in full on timing differences which result in an obligation at the balance sheet date to pay more tax or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in tax computations in periods different from those in which they are included in the financial statements. Deferred tax assets and liabilities are not discounted.

**Dividends**

Equity dividends are recognised when they become legally payable. Interim dividends are recognised when paid. Final equity dividends are recognised when approved by the shareholders.

**Hire purchase and leasing commitments**

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.

Reverse premiums and similar incentives received to enter into operating lease agreements are released to the profit and loss account on a straight line basis until the first rent review date.

**Work in progress**

Included with the accounts is a balance relating to Work in Progress for Private Sales. The Private WIP relates to customer orders received prior to the year end and where the fitting and balance is completed/paid post year end.
