Westbridge Food Group Limited

Group Strategic Report

For the Year Ended 31 December 2016

Principal activities

The principal activity of the company during the year was a holding company of a group whose principal activity is trading poultry.

Business review

The recurring trading result for the year was in line with expectations. The Group continued to develop new and innovative food products for existing and new customers. The Group's core business continues to be poultry trading. In addition it offers a range of fish, dessert and party food lines to provide the customer with enhanced retail and food service solutions.

Group net assets at 31 December 2016 were £32.5 million (2015 - £33.4 million). Net debt at 31 December 2016 was £6.7 million (2015 - £10.5 million). Operating cash inflow for the year ended 31 December 2016 was £11.2 million (2015 - £13.7 million).

Principal risks and uncertainties

The Group's principal risks and uncertainties relate to foreign exchange exposure and commodity price risk.

The Group uses various financial instruments including bank borrowings and cash together with various items such as trade debtors and trade creditors that arise directly from its operations. The main purpose of these financial instruments is to raise finance for the Group's operations.

The existence of these financial instruments expose the Group to a number of financial risks. The directors review and agree policies for managing financial instrument risks and they are summaries below.

Market risk

Market risk encompasses three types of risk, being currency risk, fair value interest rate risk and credit risk. The Group's policy for managing fair value interest rate risk is considered along with those for managing cash flow interest rate risk and are set out in the subsection entitled "interest rate risk" below.

Currency risk

The Group is exposed to translation and transaction foreign exchange risk. In relation to translation risk, as far as possible the assets held in the foreign currency are matched to an appropriate level of borrowings in the same currency. Transactional foreign exchange risk is mitigated by entering into forward foreign exchange contracts which are matched, as far as possible to forecast supplier purchases and customer deliveries. Whilst the aim is to achieve a minimum cost from currency exposures by the use of derivatives the Group does not adopt an accounting policy of hedge accounting for these financial statements.

Interest rate risk

The Group is exposed to interest rate fluctuations on its borrowings as the majority of its bank facilities are at floating rates.

Credit risk

The Group's principal financial assets are cash and trade debtors. The credit risk associated with the cash is limited as the counterparties have high credit ratings assigned by international credit rating agencies. The principal credit risk arises therefore from its trade debtors. In order to manage credit risk the directors have credit insurance in place and frequently monitor and review customer credit rates.

Liquidity risk

The Group seeks to manage financial risk by ensuring sufficient liquidity is available to meet foreseeable needs through forecasting and to invest cash assets safely and profitably.

Group Strategic Report

For the Year Ended 31 December 2016

Financial key performance indicators

	2016 £'000	2015 £'000
Turnover	305,446	340,043
Operating profit (before share of joint venture)	5,970	7,117
Operating profit (before share of joint venture)	2.0%	2.1%

Turnover for the year ended 31 December 2016 decreased by £34.6m from the year ended 31 December 2015 which was mainly due to reduction in commodity prices, less trading of commodity meat products and continued focus on value-added product ranges. Operating profit for the same period decreased by 16.1% in absolute terms.

Future developments

The outlook for the company year is positive against a competitive marketplace especially in the retail sector. The Group however operates in a range of markets and channels and the Directors expect to achieve satisfactory earnings.

This report was approved by the board and signed on its behalf.

Directors' responsibilities statement

The directors are responsible for preparing the Group strategic report, the Directors' report and the consolidated financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'. Under Company law the directors must not approve the financial statements unless they are satisfied that they a true and fair view of the state of affairs of the Company and the Group and of the profit or loss of the Group for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies for the Group's financial statements and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Group will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and the Group and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and the Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Disclosure of information to auditor

Each of the persons who are directors at the time when this Directors' report is approved has confirmed that:

- so far as the director is aware, there is no relevant audit information of which the Company and the Group's auditor is unaware, and
- the director has taken all the steps that ought to have been taken as a director in order to be aware of any relevant audit information and to establish that the Company and the Group's auditor is aware of that information.

Post balance sheet events

Westbridge Food Group Ltd sold 100% of its issued share capital on 2 April 2017 to CPF Investments Ltd which is a wholly owned subsidiary of Chareon Pokphand Foods Public Company Limited, a company incorporated in Thailand.

Independent Auditor's Report to the Members of Westbridge Food Group Limited

We have audited the financial statements of Westbridge Food Group Limited for the year ended 31 December 2016, which comprise the consolidated statement of comprehensive income, the consolidated and company statements of financial position, the consolidated and company statements of changes in equity, the consolidated statement of cash flows and the related notes. The financial reporting framework that has been applied in their preparation is the applicable law and the United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an Auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of Directors and Auditor

As explained more fully in the Directors' responsibilities statement on page 4, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

A description of the scope of an audit of financial statements is provided on the Financial Reporting Council's website at www.frc.org.uk/auditscopeukprivate.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2016 and of the group's profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Independent Auditor's Report to the Members of Westbridge Food Group Limited (continued)

Opinion on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Group strategic report and the Directors' report for the financial year for which the financial statements are prepared is consistent with those financial statements; and
- the Group strategic report and the Directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report under the Companies Act 2006

In the light of the knowledge and understanding of the parent Company and its environment obtained in the course of the audit, we have not identified material misstatements in the Group strategic report and the Directors' report.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Notes to the Financial Statements

For the Year Ended 31 December 2016

1. General information

Westbridge Food Group Limited is a private limited company, limited by shares and incorporated in the United Kingdom. Its registered office is Polonia House Enigma Commercial Centre, Sandy's Road, Malvern, Worcestershire, WR14 1JJ.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention, except for certain financial instruments at fair value, and in accordance with Financial Reporting Standard 102, the Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires group management to exercise judgement in applying the company's accounting policies (see note 3).

The following principal accounting policies have been applied:

2.2 Basis of consolidation

The consolidated financial statements present the results of the group and its own subsidiaries ("the group") as they formed a single entity. Intercompany transactions and balances between group companies are therefore eliminated in full.

The consolidated financial statements incorporate the results of business combinations using the purchase method. In the statement of financial position, the acquiree's identifiable assets, liabilities and contingent liabilities are initially recognised at their fair values at the acquisition date. The results of acquired operations are included in the consolidated statement of comprehensive income from the date on which control is obtained. They are deconsolidated from the date control ceases.

Investments in subsidiaries are accounted for at cost less impairment in the individual financial statements.

2.3 Investments in joint ventures

An entity is treated as a joint venture where the group is a party to a contractual agreement with one or more parties from outside the group to undertake an economic activity that is subject to joint control.

In the consolidated accounts, interests in joint ventures are accounted for using the equity method of accounting. Under this method an equity investment is initially recognised at the transaction price (including transaction costs) and is subsequently adjusted to reflect the investors share of the profit or loss, other comprehensive income and equity of the entity. The consolidated statement of comprehensive income includes the group's share of the operating results, interest, pre-tax results and attributable taxation of such undertakings applying accounting policies consistent with those of the group. In the consolidated statement of financial position, the interests in joint ventures are shown as the group's share of the identifiable net assets, including any unamortised premium paid on acquisition.

Notes to the Financial Statements

For the Year Ended 31 December 2016

2. Accounting policies (continued)

2.4 Going concern

At 31 December 2016 the Group had net borrowings of £6.7m (2015: £11.6m). The directors of the Group have reviewed forecasts, prepared for 31 December 2017 based on prudent assumptions and the set repayment terms of the current banking facilities and have considered the trading period beyond the forecast period to cover at least 12 months beyond the date of approval of the financial statements. Based on this review, the directors consider that there is adequate headroom in the current facilities and hence the accounts have appropriately been prepared on a Going Concern basis.

2.5 Revenue

Revenue includes sale of goods to customers and third party licence holders and is recognised to the extent that it is probable that the economic benefits will flow to the group and the revenue can be reliably measured. Revenue is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes.

2.6 Intangible assets

Goodwill

Goodwill represents the difference between amounts paid on the cost of a business combination and the acquirer's interest in the fair value of the group's share of its identifiable assets and liabilities of the acquiree at the date of acquisition. Subsequent to initial recognition, goodwill is measured at cost less accumulated amortisation and accumulated impairment losses. Goodwill is amortised on a straight line basis to the income statement over its useful economic life.

Software

Software is initially recognised at cost. After recognition, under the cost model, software is measured at cost less any accumulated amortisation and any accumulated impairment losses.

Notes to the Financial Statements

For the Year Ended 31 December 2016

2. Accounting policies (continued)

2.7 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

At each reporting date the company assesses whether there is any indication of impairment. If such indication exists, the recoverable amount of the asset is determined which is the higher of its fair value less costs to sell and its value in use. An impairment loss is recognised where the carrying amount exceeds the recoverable amount.

The group adds to the carrying amount of an item of fixed assets the cost of replacing part of such an item when that cost is incurred, if the replacement part is expected to provide incremental future benefits to the group. The carrying amount of the replaced part is derecognised. Repairs and maintenance are charged to profit or loss during the period in which they are incurred.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method. The estimated useful lives range as follows:

Depreciation is provided on the following basis:

L./Term Leasehold Property	-	6% straight line
Plant & machinery	-	20% - 50% straight line
Motor vehicles	-	33% straight line
Fixtures & fittings	-	20% straight line

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in the consolidated statement of comprehensive income.

2.8 Operating leases: Lessee

Rentals paid under operating leases are charged to the profit or loss on a straight line basis over the lease term.

2.9 Impairment of fixed assets and goodwill

Assets that are subject to depreciation or amortisation are assessed at each reporting date to determine whether there is any indication that the assets are impaired. Where there is any indication that an asset may be impaired, the carrying value of the asset (or cash-generating unit to which the asset has been allocated) is tested for impairment. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's (or CGU's) fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (CGUs). Non-financial assets that have been previously impaired are reviewed at each reporting date to assess whether there is any indication that the impairment losses recognised in prior periods may no longer exist or may have decreased.

Notes to the Financial Statements

For the Year Ended 31 December 2016

2. Accounting policies (continued)

2.10 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

2.11 Stocks

Stocks are stated at the lower of cost and net realisable value, being the estimated selling price less costs to complete and sell. Cost includes all direct costs and an appropriate proportion of fixed and variable overheads.

At each reporting date, stocks are assessed for impairment. If stock is impaired, the carrying amount is reduced to its selling price less costs to complete and sell. The impairment loss is recognised immediately in profit or loss.

2.12 Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

2.13 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the consolidated statement of cash flows, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the company's cash management.

2. Accounting policies (continued)

2.14 Financial instruments

Debt instruments (other than those wholly repayable or receivable within one year), including loans and other accounts receivable and payable, are initially measured at present value of the future cash flows and subsequently at amortised cost using the effective interest method. Debt instruments that are payable or receivable within one year, typically trade payables or receivables, are measured, initially and subsequently, at the undiscounted amount of the cash or other consideration, expected to be paid or received. However if the arrangements of a short-term instrument constitute a financing transaction, like the payment of a trade debt deferred beyond normal business terms or financed at a rate of interest that is not a market rate or in case of an out-right short-term loan not at market rate, the financial asset or liability is measured, initially, at the present value of the future cash flow discounted at a market rate of interest for a similar debt instrument and subsequently at amortised cost.

Financial assets that are measured at cost and amortised cost are assessed at the end of each reporting period for objective evidence of impairment. If objective evidence of impairment is found, an impairment loss is recognised in profit and loss.

For financial assets measured at amortised cost, the impairment loss is measured as the difference between an asset's carrying amount and the present value of estimated cash flows discounted at the asset's original effective interest rate. If a financial asset has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract.

For financial assets measured at cost less impairment, the impairment loss is measured as the difference between an asset's carrying amount and best estimate, which is an approximation of the amount that the Group would receive for the asset if it were to be sold at the reporting date.

Derivative financial instruments are recognised at fair value using the valuation technique described in note 21 with any gains or losses being reported in profit or loss.

Financial assets and liabilities are offset and the net amount reported in the Statement of financial position when there is an enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

2.15 Creditors

Short term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

2. Accounting policies (continued)

2.16 Foreign currency translation

Functional and presentation currency

The Company's functional and presentational currency is GBP.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement.

On consolidation, the results of overseas operations are translated into sterling at rates approximating to those ruling when the transactions took place. All assets and liabilities of overseas operations are translated at the rate ruling at the reporting date. Exchange differences arising on translating the opening net assets at opening rate and the results of overseas operations at actual rate are recognised in other comprehensive income.

2.17 Finance costs

Finance costs are charged to the income statement over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

2.18 Dividends

Equity dividends are recognised when they become legally payable. Interim equity dividends are recognised when paid. Final equity dividends are recognised when approved by the shareholders at an annual general meeting.

2.19 Pensions

Defined contribution plan

The group operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the group pays fixed contributions into a separate entity. Once the contributions have been paid the group has no further payments obligations.

The contributions are recognised as an expense in the income statement when they fall due. Amounts not paid are shown in accruals as a liability in the statement of financial position. The assets of the plan are held separately from the group in independently administered funds.

Notes to the Financial Statements

For the Year Ended 31 December 2016

2. Accounting policies (continued)

2.20 Interest income

Interest income is recognised in the income statement using the effective interest method.

2.21 Provisions for liabilities

Provisions are made where an event has taken place that gives the group a legal or constructive obligation that probably requires settlement by transfer of economic benefit, and a reliable estimate can be made of the amount of the obligation.

Provisions are charged as an expense to the income statement in the year that the group becomes aware of the obligation, and are measured at the best estimate at the statement of financial position date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the statement of financial position.

2.22 Current and deferred taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in the income statement, except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company and the group operate and generate income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the statement of financial position date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

2.23 Exceptional items

Exceptional items are transactions that fall within the ordinary activities of the group but are presented separately due to their size or incidence.

Notes to the Financial Statements

For the Year Ended 31 December 2016

3. Judgments in applying accounting policies and key sources of estimation uncertainty

Preparation of the financial statements requires management to make significant judgements and estimates. The items in the financial statements where these judgements and estimates have been made include:

Provision for bad debt and doubtful debts - a specific provision is made for debtors significantly in arrears and a general provision is made against other amounts outstanding.

4. Turnover

The whole of the turnover is principally attributable to the trade of poultry.

Valuation method

All derivative financial instruments are measured using the "mark to market" value of the financial instruments at the reporting date. This technique calculates the present value of the future cash flows relating to the instrument based on the foreign exchange rates and interest rates prevailing at the reporting date.

Financial assets measured at amortised cost comprise cash balances, loans receivable and trade and other debtors.

Financial liabilities measured at amortised cost comprise loans and overdrafts and trade and other payables.
