Director's report

The directors present their annual report on the affairs of the Company, together with the financial statements and auditors' report for the year ending 30 September 2009

Business review & principal activities

The directors consider that the financial position of the Company at the end of the period was satisfactory. The directors are not aware at the date of this report of any likely major changes in the Company's activities in the next year.

Principal risks and uncertainties

The principal area of risk or uncertainty for the Company relates to the carrying amount of the Company's loans receivable from fellow subsidiary undertakings which are dependant on the financial performance of those undertakings. The directors carry out an annual assessment of the carrying value of the investments by reference to the underlying net assets and the forecast future financial performance, including cash flows, of the subsidiary undertakings.

Key performance indicators

As the Company holds loans receivable from fellow subsidiaries and does not trade, the directors are of the opinion that an analysis using key performance indicators is not necessary for an understanding of the development, performance or position of the business.

As the Company is not actively trading and has no direct employees, the directors do not consider it necessary to report on environmental or employment policies.

Results and dividends

The results for the year are set out on page 6. The directors do not recommend the payment of an ordinary dividend for year ending 30 September 2009.

- make judgements and accounting estimates that are reasonable and prudent,

Sandbrook Overseas Investments Limited

Notes to the financial statements for the year ended 30 September 2009

1. General information

Sandbrook Overseas Investments Limited is a Company incorporated in England and Wales under the Companies Act 2006. The address of the registered office is The Thomas Cook Business Park, Comingsby Road, Peterborough, PE3 8SB. The nature of the Company's operations and its principal activities are set out in the Directors' report. These financial statements are presented in Euro because that is the currency of the primary economic environment in which the Company operates. The Company is a wholly-owned subsidiary company and is included within the audited consolidated financial statements of Thomas Cook Group plc, a Company incorporated in England and Wales, which have been prepared in accordance with International Financial Reporting Standards and filed with the Registrar of Companies. The Company is therefore exempt from the obligation to prepare consolidated financial statements in accordance with section 400 of the Companies Act 2006.

At the date of authorisation of these financial statements, the following standards and interpretations that are expected to impact the Company but which have not been applied in these financial statements were in issue but not yet effective:

- IAS 1 (Revised) '*Presentation of financial statements*', is effective for annual periods beginning on or after 1 January 2009. This requires the reconciliation of movements in equity to be presented as a primary financial statement and increased disclosures when there is a restatement of comparatives. Adopting this standard will not affect the recognition or measurement of any transactions or events.
- IAS 23 (Amendment) '*Borrowing costs*', revised version issued in March 2007, effective for annual periods beginning on or after 1 January 2009. This eliminates the option of expensing all borrowing costs when they are incurred and is not expected to have a material impact on the Company.
- IFRS 7 (Amendment) '*Financial Instruments- disclosures*', effective 1 January 2009. The amendment requires enhanced disclosures about fair value and measurement risk. As the change only results in disclosure changes there is no impact on the results of the Company.

2. Significant accounting policies

Basis of preparation

The financial statements are prepared in accordance with IFRS and IFRIC interpretations and with those parts of the Companies Act 2006 applicable to companies reporting under IFRS. The financial statements have also been prepared in accordance with IFRS adopted for use in the European Union.

The financial statements have been prepared under the historical cost convention, except for the revaluation of certain financial instruments where required. The principal accounting policies adopted are set out below and have been applied consistently to the periods presented.

Investments

Investments in subsidiaries/undertakings are shown at cost less provision for impairment.

Taxation

Current tax, including UK corporation tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Provision is made for deferred tax so as to recognise all temporary differences which have originated but not reversed at the balance sheet date that result in an obligation to pay more tax, or a right to pay less tax in the future.

Sandbrook Overseas Investments Limited

Notes to the financial statements for the year ended 30 September 2009

2. Significant accounting policies (continued)

Taxation (continued)

This is calculated on a non-discounted basis by reference to the average tax rates that are expected to apply in the relevant jurisdiction and for the year in which the temporary differences are expected to reverse. Deferred tax assets are assessed at each balance sheet date and are only recognised to the extent that their recovery against future taxable profits is probable.

Foreign currency

Transactions in currencies other than the functional currency of the Company are translated at the exchange rate on the date of the transaction. Foreign currency monetary assets and liabilities held at the period end are translated at period end exchange rates. The resulting exchange gain or loss is taken through the income statement.

Trade and other receivables

Trade receivables are recognised at their fair value and subsequently recorded at amortised cost using the effective interest method as reduced by allowances for estimated irrecoverable amounts. An allowance for irrecoverable amounts is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables. The amount of allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows.

Trade and other payables

Trade payables are recognised at their fair value and subsequently recorded at amortised cost using the effective interest method.

Cash flow statement

The Company had no cash flows in the current period, its cash flow obligations were settled by a fellow group undertaking. Accordingly, no separate cash flow statement has been presented with these financial statements.

3. Administrative expenses

The Company has no employees. Administrative expenses of the Company, including audit fees of €500 (2008 €500) and directors' remuneration, were borne by Thomas Cook Group plc, the Company's parent undertaking, during both accounting periods with no recharge made as the amounts were minimal.
