STRATEGIC REPORT FOR THE YEAR ENDED 31 MARCH 2015

BUSINESS REVIEW

The directors present their report and financial statements for the year ended 31 March 2015.

The principal activity of the company is that of a residential care home providing specialist dementia care services.

Turnover for the year ended 31st March 2015 was higher than the previous year, which was reflective of improved occupancy and the continued strategy to improve the resident fee rate mix and build on an upward trend on average fee rates.

Improvements in operating profit for the period was a reflection of improvements in turnover as well operational enhancements, however cost pressures remained with increased staff costs and property related expenditure.

The company continues to follow its philosophy of investing in its Land & Buildings and Fixtures & Fittings, with new investment into chattels of a significantly higher quality, to further enhance the overall service experience offered to our service users. The company invested close to £38k in tangible fixed assets during the year.

PRINCIPAL RISKS AND UNCERTAINTIES

The directors have a well-established process of identifying business risks, evaluating controls and establishing and executing action plans. In the directors' opinion the key risks are:

- Human Resources: It is essential the company continues to recruit, train, retain and motivate high calibre personnel, particularly those appointed to senior positions. Recruitment remains an ongoing priority of the Company.
- Management of Operations: The addition of a Deputy Manager in June 2014 provided a strong foundation to build on the challenging operational environment for the sector, and the company has continued to make strides in managing its clinical and other services consistently to meet and exceed the expectations of all beneficiaries and stakeholders.
- Regulatory Environment: The new inspection regime adopted by the Care Quality Commission (CQC) over the trading period has resulted in greater focus on outcomes in particular around four keys areas of Safe, Effective, Caring, Responsive, Well-led. The Company maintains good relationships with CQC and has made excellent strides in continuing to redevelop policies and procedures to maintain best practices and ensure full compliance.
- Fiscal Policy: Social Services' budgetary pressures continue to challenge the ability to push any increases in fee rates to be more reflective of the cost of care, though continued demand for good dementia services maintains the company's position and its objective to be a provider of choice.

Royal Bank of Scotland

Following the review conducted by the FCA into the possible mis-selling of interest rate hedging products, discussions are continuing with the Royal Bank of Scotland. The Directors have continued to remain fully supportive of the discussions and have engaged legal support to assist in promoting the companies interests. We look forward to reporting the outcome in the next Director's Report.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2015

1. ACCOUNTING POLICIES

1.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards.

1.2 Going concern

The nature of the business is such that the company receives regular cash flows and in turn can fund the day to day working capital requirements of the company. The directors have projected cash flow information for the period ending 12 months from the date of their approval of these financial statements. On the basis of this cash flow information and the financial security provided to the company by its parent, the directors consider it appropriate to prepare the financial statements on the going concern basis.

The directors and shareholders of SweetTree SPL Limited, the parent company, will also continue to financially support the company for the foreseeable future.

1.3 Turnover

Turnover represents amounts receivable from residents for care related services. Turnover is recognised when earned.

1.4 Intangible fixed assets and amortisation

Freehold property
Plant and machinery
Motor vehicles

Buildings - 125 years straight line basis

Motor vehicles
Fixtures and fittings
Computer equipment

7 years straight line basis
4 years straight line basis

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.
