NOTES TO THE BALANCE SHEET  
YEAR ENDED 28TH FEBRUARY 2010

**1 ACCOUNTING POLICIES**

The financial statements are prepared in accordance with applicable accounting standards. The particular accounting policies adopted are as follows:

(a) Accounting Convention

The financial statements are prepared under the historical cost convention.

(b) Stocks

Stocks are stated at the lower of cost and net realisable value. Cost includes all direct costs incurred in bringing the stocks to their present location and condition, including where appropriate, a proportion of manufacturing overheads.

(c) Foreign Currency Transactions

Assets and liabilities denominated in a foreign currency are translated into sterling at the rate of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated at the average exchange rate for the year. All exchange differences are dealt with through the profit and loss account.

(d) Deferred Taxation

Deferred taxation is recognised in respect of all timing differences, between the treatment of certain items for accounts purposes and their treatment for tax purposes, that have originated but not reversed by the balance sheet date.

Deferred taxation is not recognised when assets are revalued unless, by the balance sheet date, the company has entered into a binding agreement to sell the assets and recognised the gains and losses expected to arise on sale or where assets have been sold and it is expected that the taxable gain will be rolled over into a replacement asset.

(e) Cash Flow Statement

The company qualifies as a small company under the Companies Act 2006. The directors have elected to take advantage of the exemptions under FRS 1 not to prepare a cash flow statement.
