NOTES TO THE 2015 FINANCIAL STATEMENTS

1) ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards.

Turnover

The turnover shown in the profit and loss account represents amounts invoiced during the year exclusive of Value Added Tax

Depreciation

Depreciation is calculated so as to write off the cost of an asset, net of anticipated disposal proceeds, over the useful economic file of that asset as follows:

Fixtures, Fittings and Equipment

20% reducing balance

Motor Vehicles

20% reducing balance

Work in progress

Work in progress is valued on the basis of direct costs plus attributable overheads based on normal level of activity. Provision is made for any foreseeable losses where appropriate. No element of profit is included in the valuation of work in progress.

Operating lease agreement

Rental applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lesser are charged against profits on a straight line basis over the period of the lease.

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax.

Deferred tax is calculated on an undiscounted basis at the tax rates that are expected to apply in the period in which the timing differences are expected to reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.
