#### 1.1 Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

#### 1.2 Turnover

Turnover represents the total invoice value, excluding value added tax, of sales made during the period

#### 13 Depreciation

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows

Office equipment - 25% reducing balance Plant and machinery - 25% reducing balance

#### 1.4 Deferred taxation

Deferred taxation is provided in full on timing differences, which result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the financial statements.

Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.

# 1.5 Going concern

However, the directors consider the company can continue to rely upon their own support to ensure that its liabilities can be settled when they fall due. Accordingly, these financial statements have been prepared on a going concern basis and do not include any provision for adjustments that may become necessary if the support referred to above were withdrawn.

#### 2 TURNOVER

The total turnover of the company for the year has been derived from its principal activity wholly undertaken in the UK
