1.2. Turnover

Turnover represents the total invoice value, excluding value added tax, of sales made during the year

1.3. Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows

Plant and machinery	-	20% per annum on cost
Fixtures, fittings and equipment	-	20% per annum on cost

1.4. Leasing

Rentals payable under operating leases are charged against income on a straight line basis over the lease term

1.7. Deferred taxation

Deferred tax is provided in full on all material timing differences that have originated but not reversed at the balance sheet date. A deferred tax asset is regarded as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. Deferred tax assets and liabilities are not discounted.

1.8. Going concern

The accounts have been prepared on a going concern basis, although the company had net liabilities of £20,089. Included in creditors is a loan from the director of £18,125.

The director has indicated that he will not seek repayment of his loan to the company until the company has adequate resources to do so. The company continues to have the ongoing support of its shareholder and director. Accordingly the director considers it appropriate to prepare the accounts on the going concern basis.
