Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Stocks

Deferred tax

Full provision is made in respect of timing differences that have originated but not reversed at the balance sheet date. Timing differences are differences between the company's taxable profits and its results as stated in the accounts. Deferred tax is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantially enacted at the balance sheet date. Deferred tax assets are only recognised where their recoverability in the short term is regarded as more likely than not. Deferred tax is not provided on revalued assets unless a binding agreement to sell has been entered into before the year
