## STRATEGIC REPORT

5 APRIL 2014

The directors present the Annual Report and Financial Statements of Ingenious Media Holdings plc ("the Company") and the Ingenious Media Holdings plc group of companies ("the Group") for the year ended 5 April 2014.

### Principal activity and review of the business

The principal activity of the Group continued to be the provision of investment and advisory services to the media and entertainment, real estate and clean energy sectors. The Group also provides discretionary management services to individuals, trusts, pension funds, charities, partnerships and corporates. The primary subsidiaries and other undertakings included within the Group results are those listed in note 10 to the financial statements.

The directors consider the results for the year and the financial position at the end of it to be satisfactory and believe the Group is well positioned for the future.

The directors believe that further key performance indicators for the Group are not necessary or appropriate for an understanding of the development, performance or position of the business.

### Principal risks and uncertainties

The Group actively manages risks and uncertainties facing its business by undertaking regular strategic reviews. The principal risks identified are those relating to the national and global economy and changes to the regulatory environment governing investment business. Damage to reputation and competitive pressure are also continuing risks for the Group. The Group seeks to mitigate these risks through the rigorous selection and training of its people, and building and maintaining of strong relationships with clients and other key stakeholders.

### Dividends

The results for the year are set out on page 7.

During the year the Company paid a dividend of £0.5m (year ended 5 April 2013 - £7.0m) to the 'A' Shareholder. No dividend became payable on the 'B' preferred ordinary shares (year ended 5 April 2013 - £nil). The directors do not propose to pay a final dividend (year ended 5 April 2013 - £nil).

### Financial instruments and risk management

The Group operates a treasury function which is responsible for managing the liquidity, interest rate and credit risks associated with the Group's activities.

The Group's principal financial instruments include cash and loans, the main purpose of which are to raise finance for the Group's operations. The most important components of financial risk are:

#### (a) Liquidity risk

The Group manages its cash and borrowing requirements in order to maximise returns, whilst ensuring the Group has sufficient liquid resources to meet the operating needs of the business as well as the regulatory capital requirements as laid down by the Financial Conduct Authority.

#### (b) Interest rate risk

The Group is exposed to movements in interest rates in respect of its borrowings and deposit balances as well as on the loans it provides. Where appropriate, the Group negotiates a fixed margin of interest payable on borrowings and on loans.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and the Group, and of the profit or loss of the Company and the Group for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable United Kingdom Accounting Standards have been followed; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company and the Group will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's and the Group's transactions and disclose with reasonable accuracy at any time the financial position of the Company and the Group to enable them to ensure that the financial statements comply with the Companies Act 2006. This confirmation is given and should be interpreted in accordance with the provisions of section 418 of the Companies Act 2006.

Deloitte LLP has indicated its willingness to remain in office and in accordance with section 489 of the Companies Act 2006, a resolution proposing that they be reappointed will be put to the 2014 Annual General Meeting.

To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

### **Respective responsibilities of directors and auditor**

Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

### **Scope of the audit of the financial statements**

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the Group's and the Company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Annual Report to identify material inconsistencies with the audited financial statements and to identify information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we became aware of any apparent material misstatements or inconsistencies we consider implications for our report.

### **Opinion on financial statements**

In our opinion the financial statements:

**STATEMENT OF ACCOUNTING POLICIES**  
**5 APRIL 2014**

The principal accounting policies are summarised below. They have been applied consistently throughout the current and prior year.

**Basis of accounting**

The financial statements have been prepared under the historical cost convention and in accordance with applicable United Kingdom Accounting Standards.

**Going concern**

The Group's business activities, together with the factors likely to affect its future development, performance and position are set out in the Strategic Report. The Strategic Report on pages 1 and 2 describes the Group's objectives, policies, its financial risk management objectives, and its exposure to credit risk, liquidity risk and interest rate risk.

Having assessed the risks facing the business as set out in the Strategic Report and in note 7, its financial position and profit and cash flow forecasts the directors believe that the Group is well placed to manage its business successfully despite the current uncertain economic outlook. The directors have a reasonable expectation that the Company and the Group have adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the Annual Report and Financial Statements.

**Basis of consolidation**

The financial statements represent the consolidated accounts of the Company and of each of its subsidiary and associated undertakings. The results of subsidiary undertakings acquired during the financial year are included from the date on which control passes and are accounted for under the acquisition method unless otherwise noted.

The Profit and Loss Account of the Company is not included in the financial statements as permitted by section 408 of the Companies Act 2006. The Company's loss for the financial year amounted to £0.02m (year ended 5 April 2013 - profit of £120.0m).

**Turnover**

Turnover represents amounts receivable for services net of VAT and is derived from the Group's principal activity. Turnover from the supply of services represents the value of services provided under contracts to the extent that there is a right to consideration and is recorded at the value of the consideration.

**Production sale and leaseback**

The producer fees receivable for entering into sale and leaseback transactions are credited to the Profit and Loss Account in the year during which the contracts are fulfilled. The balance of sale proceeds and the corresponding lease obligations are not brought into the financial statements, as explained in note 21.

**STATEMENT OF ACCOUNTING POLICIES (Continued)**  
**5 APRIL 2014**

**Leased assets**

Rentals payable under operating leases are charged against income on a straight-line basis over the lease term.

**Taxation**

Current tax, including United Kingdom corporation tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted at the Balance Sheet date.

Deferred tax is provided in full on timing differences which result in an obligation at the Balance Sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the financial statements.

Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are discounted.

**Pension**

The pension costs charged in the financial statements represent the defined contributions payable by the Group during the year on an accruals basis.

**Foreign currencies**

Transactions denominated in foreign currencies are translated into Pound Sterling at the rate of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into sterling at the rate of exchange ruling at the Balance Sheet date. Exchange differences are taken to the Profit and Loss Account.

**Intangible assets - acquired clients**

The acquisition of clients is recorded at cost less accumulated amortisation. Acquisition costs are amortised to the Profit and Loss Account over a 3 year period.

**Intangible assets - acquired rights**

Where the rights to future film receipts are acquired from ordinary members in film partnerships, an intangible asset arises representing the value of payments owing to those members. The intangible asset is amortised to the Profit and Loss Account on a systematic basis to match against the income generated by the acquisition.

**Intangible assets - goodwill**

Goodwill arising on the acquisition of subsidiary undertakings and businesses, representing any excess of the fair value of the consideration given over the fair value of the identifiable assets and liabilities acquired, is capitalised and written off on a straight line basis over its useful economic life, which is 5 years. Provision is made for any impairment.

**Tangible fixed assets**

Tangible fixed assets are stated at cost or valuation, net of depreciation and any provision for impairment.

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life:

Short leasehold land and buildings	In equal instalments over the remaining period of the lease
Fixtures, fittings and equipment	10% - 33% of cost

**STATEMENT OF ACCOUNTING POLICIES (Continued)**  
**5 APRIL 2014**

**Investments**

*Interest in partnerships*

Fixed asset investments in partnerships are held at cost adjusted for allocated profit and drawings. The allocated partnership's profit or loss is included within the Group Profit and Loss Account.

*Other investments and loans*

Other investments and loans are stated at cost less impairment.

*Current asset investments*

Current asset investments are stated at cost less impairment. The aggregate market value of the listed investments at the year end was £2,259k (year ended 5 April 2013 - £33,866k). No tax would be payable or recoverable if the assets were sold at this value (year ended 5 April 2013 - £nil).

**Long-term contracts**

Amounts recoverable on long-term contracts, which are included in debtors, are stated at the net sales value of the work performed less amounts received as progress payments on account. Excess progress payments are included in creditors as payments on account.

Profit is recognised on long-term contracts, if the final outcome can be assessed with reasonable certainty, by including in the Profit and Loss Account turnover and related costs as contract activity progresses. Turnover is calculated by reference to the value of work performed to date as a proportion of the total contract value. Provision is made for the full amount of foreseeable losses on contracts.

**Trade loans**

Trade loans entered into are recorded at the full extent of their legal liability at the date that the loan agreement was signed, less any repayments to date.

**Bank borrowings**

Interest-bearing bank loans and overdrafts are recorded at the proceeds received, net of direct issue costs. Finance charges are accounted for on an accruals basis in the Profit and Loss Account using the effective interest method and are added to the carrying amount of the instrument to the extent that they are not settled in the period in which they arise.

**Financial liabilities and equity**

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into.

**Joint Arrangement Not an Entity ("JANE")**

Ingenious Media Services Limited, a wholly owned subsidiary of Ingenious Media Limited, has entered into a series of agreements with various Limited Liability Partnerships ("the LLPs"), to source and undertake various activities on the LLPs' behalf. The LLPs maintain a right of approval over any such activities and also over the use of such funds advanced until suitable opportunities arise. The risks and rewards of the activities conducted rest with the LLPs.

In the opinion of the directors each of the above arrangements constitutes a JANE, as defined by FRS 9 *Associates and Joint Ventures*. Accordingly all transactions entered into by Ingenious Media Services Limited under these agreements are not recorded within the Group's financial statements but in the LLPs' accounts to reflect the substance of those transactions.

**STATEMENT OF ACCOUNTING POLICIES (Continued)**  
**5 APRIL 2014****Film finance leases**

In accordance with SSAP 21 *Leases and Hire Purchase Contracts*, the amount due from the lessee under finance leases is recorded in the Balance Sheet as a debtor at the amount of the net investment in the lease, less provision for any items such as bad and doubtful rentals receivable.

**Share-based payment**

The Group has applied the requirements of FRS 20 *Share-based Payment*.

The Group issues equity-settled share-based payments to certain employees. Equity-settled share-based payments are measured at fair value (excluding the effect of non market-based vesting conditions) at the date of grant. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of shares that will eventually vest and adjusted for the effect of non market-based vesting conditions.

**Merger reserve**

The merger reserve was created due to a reorganisation of the Group in a previous period. The Group reorganisation was accounted for using merger accounting principles in order to meet the overriding requirement under section 277(6) of the Companies Act 1985 for financial statements to present a true and fair view.

A potential deferred tax asset of £4.3m (year ended 5 April 2013: £5.1m) in respect of tax losses carried forward has not been recognised due to uncertainty over the availability of taxable profits in future accounting periods.

On 17 July 2014 the Finance Bill 2014 received the Royal Assent. Under Chapter 3 of Part 4 of the Act, HMRC is empowered to issue accelerated payment notices requiring taxpayers to make immediate payments in some circumstances where tax is in dispute, in advance of any resolution of that dispute. We anticipate that the outcome of the Tax Tribunal should be known in 2015. In the meantime, certain companies within the Group might receive accelerated payment notices. To date, no such notices have been received but the directors consider that it is possible that in the future, certain companies within the Group may receive accelerated payment notices in respect of some or all of the tax years not yet agreed with HMRC.

The exact amount of any accelerated payment cannot be known until received (if indeed any are received at all). However, the directors have estimated the possible financial effect of this issue and do not consider that it will have a significant impact on the future prospects of the Group.

The bank loans relating to sale and leaseback are secured by the Group's share of lease rental income receivable by partnerships in which the Group has made investments (note 10), and are repayable within seven years. An average interest rate of 4.81% per annum (year ended 5 April 2013 - 4.81% per annum) is payable on these loans. Bank loans including a loan from Coutts & Company attracts interest at a rate of 1% over the bank base rate and is repayable 37 months after the date of drawdown. This loan is secured against funds held by Auburn Entertainment LLP.

Trade loans represent amounts loaned by film and video games distributors. Repayment is on a limited recourse basis from contracted proportions of the Group's share of drawings from various limited liability partnerships of which certain Group companies are members. Any such drawings are from income generated by the films produced and games developed by each partnership and are therefore dependent on the revenue cycle of those films and games.

During a prior year, the Group undertook a reorganisation of its Asset Management business which involved creating a new holding company called Ingenious Asset Management Holdings Limited ("IAMHL"). Immediately following the internal reorganisation, IAMHL's share capital consisted of 7,500 1p 'A' Ordinary Shares all held by Ingenious Media Limited and 2,500 'B' Ordinary Shares of 1p each issued to certain members of the Asset Management management team.

**21. Production sale and leaseback transactions**

The Group enters into arrangements with other producers whereby it acts as a co-producer and incurs film production costs in the UK in return for certain rights.

The Group acquires full title and interest from the co-producer in return for a right to receive a sub-license of this title and interest. The Group subsequently sells its rights to the film and enters into leaseback arrangements with the purchaser and sub-licenses these acquired rights to the co-producer.

The Group's fee for entering into these transactions is credited to the Profit and Loss Account and the balance of the sale proceeds is held on a bank deposit account and accrues interest over the lease period. The lease obligations, together with lease rental charges, equate to the bank deposit funds over the full term of the lease.

The Group has no access to the bank deposit funds and these funds exist solely to meet the lease obligations. The funds do not confer any economic benefits to the Group and therefore do not represent assets of the Group. The lease obligations are guaranteed by the bank and therefore do not represent liabilities of the Group.

As a result of applying FRS 5 *Reporting the Substance of Transactions*, both the bank deposit funds and interest earned, together with the corresponding lease obligations and lease rental charges, are excluded from the financial statements.

In accordance with FRS 5, the acquisition of the film rights from the co-producer and the subsequent sub-license are also not reflected in the financial statements because the series of transactions do not result in the Group having rights to the principal future economic benefits, nor principal risks, associated with the ownership of the film.
