**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 30 APRIL 2020**

**1. STATUTORY INFORMATION**

Southdown Investments Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

**2. ACCOUNTING POLICIES**

**Basis of preparing the financial statements**

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standards applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006 as applicable to companies subject to the small companies' regime.

The disclosure requirements of section 1A of FRS 102 have been applied other than where additional disclosure is required to show a true and fair view.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £1.

The financial statements have been prepared under the historical cost convention, modified to include certain financial instruments at fair value. The principal accounting policies adopted are set out below.

The directors have considered the impact and risk on the company of COVID-19 and the company's prospects, recognising the high degree of uncertainty. The directors have concluded that with the right management actions the company is a going concern for at least 12 months following the signature of the financial statements. Accordingly the directors have prepared the financial statements on this basis.

**Taxation**

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

**Deferred tax**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

**2. ACCOUNTING POLICIES - continued**

**Financial assets**

The company has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial assets are recognised in the company's statement of financial position when the company becomes party to the contractual provisions of the instrument.

Basic financial assets, which include trade and other receivables and cash and bank balances are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method, unless the arrangement constitutes a financial transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest.

**Financial liabilities**

Basic financial liabilities, which include trade and other payables, are initially measured at transaction price and subsequently measured at amortised cost, unless the arrangement constitutes a financing transaction where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest.

**Equity instruments**

Equity instruments issued by the company are recorded at the fair value of the proceeds received net of direct issue costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company.

**3. EMPLOYEES AND DIRECTORS**

The average number of employees during the year was NIL (2019 - NIL).

**6. POST BALANCE SHEET EVENTS**

The long term impact on the company as a result of the steps taken by the Government in March 2020 to control the coronavirus pandemic is uncertain. This is also the case for the majority of businesses in the UK and Europe.

The Directors do not consider that there will be a material impact on the balance sheet at the year end arising from this post balance sheet event and thus no adjustments have been made to any of the assets and liabilities at 30 April 2020.
