NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 31ST JULY 2015

1. ACCOUNTING POLICIES

Basis of preparing the financial statements

The financial statements have been prepared on a going concern basis as, in the opinion of the director, adequate funds will be made available to the company to enable it to meet its liabilities as they fall due.

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of goods, excluding value added tax.

Research and development costs

Research expenditure is recognised as an expense as incurred. Costs incurred on development projects (relating to the design and testing of new or improved products) are recognised as intangible assets when it is probable that the project will be a success considering its commercial and technological feasibility and only if the cost can be measured reliably.

Other development expenditure is recognised as an expense as incurred.

Development costs previously recognised as an expense are not recognised as an asset in a subsequent period. Development costs that have been capitalised are amortised from the date the product is available for use on a straight-line basis over five years.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.
