Notes to the Abbreviated Accounts for the period ended 31 July 2013**1 Accounting Policies****Basis of measurement and preparation of accounts**

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy

Turnover represents the total invoice value, excluding value added tax, of sales made during the year and derives from the provision of goods falling within the company's ordinary activities.

Tangible assets depreciation policy

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Fixtures, fittings and equipment - 25% straight line

Other accounting policies**Going concern**

The financial statements have been prepared on a going concern basis which assumes that the company will continue in operational existence for the foreseeable future. The validity of this assumption depends on the company being able to trade profitably in the future and the continued support of the director. Were this basis to be inappropriate the accounts would need to be adjusted to reduce the value of assets to their recoverable amount, provide for further liabilities that may arise and to reclassify fixed assets and long term liabilities as current assets and liabilities. The director has expressed her willingness to continue supporting the company for the foreseeable future and hence it is appropriate for the financial statements to be prepared on a going concern basis.
