## NOTES ON ABBREVIATED FINANCIAL STATEMENTS

## 1 Accounting policies

**Basis of accounting**

The financial statements have been prepared under the historical cost accounting rules and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

**Turnover**

Turnover represents the amount derived from the provision of goods and services falling within the company's activities after deduction of trade discounts and value added tax

**Depreciation**

Depreciation of fixed assets is calculated to write off their cost or valuation less any residual value on a reducing balance basis over their estimated useful lives as follows

Furniture fittings and equipment - 20% on reducing balance basis  
Lease - no depreciation, only residual value remaining

**Amortisation**

Amortisation of goodwill is calculated to write off their cost on a straight line basis over 10 years

**Stocks**

Stocks are valued at the lower of cost and net realisable value. Cost is computed on a first in first out basis. Net realisable value is based on estimated selling price less the estimated cost of disposal

**Deferred taxation**

Deferred tax arises as a result of including items of income and expenditure in taxation computations in periods different from those in which they are included in the company's accounts. Deferred tax is provided in full on timing differences which result in an obligation to pay more (or less) tax at a future date, at the average tax rates that are expected to apply when the timing differences reverse, based on current tax rates and laws

No liability to deferred tax is expected to arise from these accounts
