Specsavers UK Holdings Limited

Strategic report for the year ended 29 February 2020

The directors present their strategic report for the year ended 29 February 2020.

For the purposes of this report and financial statements Specsavers shall mean the company's ultimate parent and its subsidiaries, the SIHL board shall mean the board of directors of the company's ultimate parent Specsavers International Healthcare Limited, the group board shall mean the board of directors of Specsavers UK Holdings Limited, and the group shall mean Specsavers UK Holdings Limited and its subsidiaries.

Principal activity

The principal activity of the group is to act as a retailer of optical and audiological products and services in the United Kingdom.

Review of the business

As shown in the group's consolidated profit and loss account on page 25, turnover has increased by 6.56% (2019: 5.48% increase). During the year operating profit increased to £102,129,431 from £80,275,979, achieving an operating margin of 6.68% (2019: 5.59%). Growth in turnover is in line with the group's ambitions to grow market share which continues to be an ambition of Specsavers despite the recent and continuing impact of COVID-19. The business has invested in a number of areas to deliver top line sales growth including but not limited to, improvements to our Framestylar application, investment in OCT and a number of highly successful marketing campaigns. All of the above have contributed to the group's success this financial year.

Whilst debtors have increased by 11.25% to £90m, the group has experienced no issues with recoverability following the COVID-19 outbreak. Creditors have increased by £17m, mainly driven by loans and borrowings, as well as deferred income. The loans are from the Group Treasury Company and no unusual repayment issues have been noted. Deferred income will be earned over the coming months as products are supplied to customers and Specsavers has successfully managed any supply chain impact arising from COVID-19.

The net cash inflow from operating activities was £119m (2019: £116m). Net cash used in investing activities increased to £57m from £48m in 2019 due to increased acquisitions of tangible assets, including OCT mentioned above. Net cash used for financing activities was £50m (2019: £60m) mainly due to reduced payments to increase shareholdings in subsidiaries.

The optical and audiology industries continue to be highly competitive environments and the directors believe that continuing to provide high quality products to its retail customers along with an unrivalled service is key to ensuring the continued success of the business as it seeks to rebuild and recover from the impact of COVID-19.

Section 172(1) statement

The Companies Act 2006 requires company directors to state how they have had regard to the matters set out in section 172(1)(a) to (f) of the Companies Act 2006 when performing their duties under section 172. These are as follows:

- (a) the likely consequences of any decision in the long term,
- (b) the interests of the company's employees,
- (c) the need to foster the company's business relationships with suppliers, customers and others,
- (d) the impact of the company's operations on the community and the environment,
- (e) the desirability of the company maintaining a reputation for high standards of business conduct, and
- (f) the need to act fairly as between members of the company.

The consideration given to each of these matters is set out below.

Specsavers UK Holdings Limited

Strategic report for the year ended 29 February 2020 (continued)

In the below discussion, Specsavers means the group's ultimate parent and all its subsidiaries. The board of the company is responsible for fulfilling the company's legal and fiduciary responsibilities. It is assisted by two other bodies: the Specsavers Executive Committee (SEC) which is the main decision-making body for Specsavers, the majority of whom are also board members of the group's ultimate parent; and the UK operating boards, of which there is one for each of the main services lines - optics, audiology and domiciliary. The latter are internal committees, not linked to any one specific company within the organisation, but are responsible for the delivery of the Specsavers strategy within the UK context. The SEC directs the overall strategic development of Specsavers globally; determines risk appetite and control measures; promotes professional standards, corporate responsibility and regulatory compliance; and upholds high customer service standards.

Long term decision making

The SEC had previously created the long term framework which underpinned all strategic decisions taken by the board and was used to deliver the success seen in the financial year under review. However, as a result of the impact of Covid-19 on the business and on the UK economy the SEC took the decision to stop the long term framework ambitions and focus on a short term framework to recover and rebuild with the ambition to emerge stronger by 2022 to provide a platform for long term growth. That pivot into a short term framework from a long term framework has not changed the overall vision of changing lives through better sight and hearing, making a positive difference to the lives of all and using our compassion and expertise to help people feel good; cared for; and smart.

Consideration of employee interests

Specsavers' ethos is to offer inspiring development and fantastic opportunities to our 35,000 store, support office and other colleagues.

Specsavers recognises the benefits of embracing a diverse and inclusive workforce, in terms of better business performance, more engaged employees, enhanced employer brand and greater innovation. The key focus has been to build a shared basic understanding around diversity and inclusion across the support offices and manufacturing and distribution sites - raising awareness of unconscious bias and encouraging everyone to challenge their own behaviours.

For store colleagues, recognising the importance of convenience and making learning easy to access, Specsavers consolidated our product training content and worked on ways to digitally improve our offering. The result was a mobile-friendly Product Learning Hub and proved that easily accessible, bite-size learning is key to helping our teams offer great service to customers.

Nurturing business relationships with suppliers, customers and partners

Customers

Specsavers is passionate about our customers, the lifeblood of our business. It is no secret that our success lies in our unrelenting passion to make a difference for our customers worldwide. Offering the best possible experience, value and choice in eyecare and hearing care ultimately enables us to help our customers live a better quality of life.

Our game-changing app - Frame Styler - enjoyed continued success in the UK, where customers use the exclusive virtual try-on technology. We continue to use the Specsavers Confidence Scale, which revealed that 20 million Brits wish they had a better sense of style. The research identified that customers often found the big choice of glasses on offer daunting.

Frame Styler can give specs-wearers the confidence to find the right pair of glasses by analysing face shape, examining purchase history and marrying the results with latest trends.

Our online appointment system in the UK and Republic of Ireland makes it easy for customers to find their nearest store and book an eye or hearing test at their convenience.

Specsavers UK Holdings Limited

Strategic report for the year ended 29 February 2020 (continued)

Our focus on enhanced optical services (EOS) - those that fall outside the standard eye test - has continued and in 2019/20 more than 760,000 customers across the UK (2018/19: more than 570,000) were able to benefit from the availability of this service: a 33% increase on the previous year (2018/19: 37%). Most were assessed and treated for minor eye conditions such as red eye or sticky eye, for which they would otherwise have had to go to their GP or to the local hospital A&E.

Our customer eye health is at the forefront of our priorities at Specsavers and our UK stores have invested over £16.4m in optical coherence tomography (OCT) hardware. An OCT scan allows an ophthalmologist to examine the eye in more detail than ever before: the OCT scan will help identify early signs of various eye conditions such as age related macular degeneration and glaucoma earlier than by traditional methods alone. In the year under review more than 1,370,000 scans have been performed.

Partners

Specsavers is passionate about partnership, which is at the heart of everything we do. The strength of the Specsavers partnership is paramount to our success. Supporting our partners (store director-owners) to lead their teams in making a difference to people's lives is what sets us apart.

Our global programme of partner events, which includes communication meetings, seminars, webcasts and forums, not only provides fantastic networking opportunities but also the chance to launch and obtain feedback on initiatives, provide updates on plans and priorities and tackle business challenges together.

As part of our ongoing support for newly-appointed partners, we offered a bespoke programme in the UK designed to upskill existing partners in mentoring techniques.

Specsavers also organises informal meetings between partners to share knowledge, experience and advice. This has helped to create more partner communities, providing valuable support networks to address common challenges and share successes across many of our markets. The group is now looking at new and different ways of continuing this engagement in places where travel restrictions are likely to be in place for a long period due to COVID-19.

Suppliers

Wherever possible, we develop strong, long-term relationships with our suppliers so that we can work together towards our mission of passionately providing best value optometry, audiology and other healthcare services to everybody, simply, clearly and consistently - exceeding expectations every time.

Community and environmental impact

At Specsavers, we are passionate about giving back to and working with our local communities, wherever in the world we operate. We support many local, national and international causes, and are committed to supporting eyecare and hearing care projects in developing countries. In the financial year 2019/20, we have donated more than £2.6m to charities and good causes globally.

Some of the UK highlights of our charitable activity were:

- Our stores and support offices raised more than £1.4m for various good causes, including Vision Aid Overseas, Guide Dogs for the Blind, Blind Veterans UK, Hearing Dogs for Deaf People, and Sound Seekers.
- Our Spectacle Wearer of the Year Awards campaign supported anti-bullying charity, Kidscape, with donations, ticket sales and a raffle raising £100,000 for their helpline.
- We supported Red Nose Day for the third year by selling jester-themed novelty glasses in our stores, resulting in a donation of more than £334,000 to Comic Relief, which aims to tackle poverty and social injustice.

Specsavers UK Holdings Limited

Strategic report for the year ended 29 February 2020 (continued)

Environment

Specsavers is committed to taking responsibility for the impact our business has on the environment and has adopted a risk-based approach to understanding, minimising and mitigating this impact. This is conducted in line with our values and the responsibilities we have to our customers and our people, as well as our obligations in the countries in which we operate.

Our environmental programme is an important element of our corporate responsibility approach. We understand that both global and local environmental issues can have a wide-reaching and long-term effect on our society, now and in the future.

We also require our suppliers to take the necessary steps to protect the environment.

We recognise that the consumption of energy, the use of non-renewable resources, water, plastics and packaging, and waste creation are all things we need to monitor and reduce in every part of our business:

- Our 1,900-plus stores account for the largest share of our carbon footprint through the direct and indirect emission of greenhouse gases related to energy use.
- Our manufacturing and distribution sites have a significant carbon impact through energy use, with the additional elements of water, packaging and waste.
- Our support offices also contribute to our carbon impact by using energy for administration and IT infrastructure.

In the current year we:

- Made substantial progress in the installation of improved water recycling and upgraded filtration for 80% of our UK in-store labs.
- Continued to review the installation of smart metering and brought in a new partner and platform for energy data collection and analysis, with the capability of push reporting and alarm reporting.
- Featured dedicated responsible and sustainable business issues in our annual store partner conference, to help us build a better understanding of the requirements of our partners as stakeholders in our environmental stewardship.

In 2020/21 Specsavers will, amongst other activities:

- Monitor legislative progress towards and continue to plan for the introduction of the proposed UK plastic packaging tax in 2022
- Finalise the data collection and reporting methodology required for compliance under Streamlined Energy & Carbon Reporting (SECR) mandatory greenhouse gas (GHG) reporting for 2020/21
- Monitor legislative progress towards the Extended Producer Responsibility (EPR) system for packaging due for introduction in the UK in 2023, and better understand the environmental impact of our packaging use, and impact of changes to the legislation

Trading ethically

Specsavers has had in place since 2008 a supplier ethical trading code of conduct, which enshrines the key requirements of: obeying all applicable laws, treating people with dignity and respect, protecting the environment and complying with anti-bribery and corruption policies.

Trading ethically is integral to the way we operate. We work to ensure the people who make our products have safe and healthy workplaces, where human and civil rights are protected.

Specsavers UK Holdings Limited

Strategic report for the year ended 29 February 2020 (continued)

We are committed to our global ethical trading policy and ensure regular, independent audits of all our major suppliers who do not operate in globally-recognised regulatory environments.

Primarily our products come from globally-recognised regulatory environments or factories situated in low and medium-risk countries. We continue to monitor activity in these countries to ensure that slavery and human trafficking does not exist in our supply chain.

Tax payments make a vital contribution to sustaining social welfare, enabling the UK government to fund policies that help people avoid economic hardship. We recognise our responsibility to pay the amount of tax legally due in the country in which that liability arises and to comply with the applicable rules and regulations in each of the countries in which we operate. Our tax strategy in relation to UK activities is published on our website at <https://www.specsavers.co.uk/news-and-information/uk-tax-strategy>.

Governments, regulators, and consumers have increasing expectations of brands to act in a socially and environmentally responsible manner. To respond to these expectations, and as a result of the ongoing COVID-19 pandemic, Specsavers is making a number of changes to the way it manages ethical trading risks.

In 2020/21, Specsavers will:

- Enhance the way we manage ethical trading compliance in our supply chain and across our global estate.
- Focus primarily on supply chain risks associated with employment standards, working environments, business practices, and environmental impacts.
- Deliver new policies, processes, and training to stakeholders to effectively manage these risks.
- Identify and address any key ethical trading risks in our current supply chain.

Treating all shareholders fairly

The company is 100% owned by Specsavers Optical Group, and Specsavers is jointly owned by DJD and ML Perkins.

The subsidiaries of the group have various classes of shares in issue as laid out in the Investments note. A proportion of shares is held by the store partners. In order that the respective rights and responsibilities of the group and partners are clearly and fairly established, a detailed written joint venture agreement is entered into by both parties.

Specsavers UK Holdings Limited

Strategic report for the year ended 29 February 2020 (continued)

Principal risks and uncertainties

The board of directors is responsible for the management of the risk profile of the group and has considered the requirements of section 417 of the Companies Act 2006. The below list is not a comprehensive list of all risks facing the group, nor are they positioned in order of importance. This summary is to illustrate only those significant risks and uncertainties facing the group.

Specsavers has established a risk and financial management framework, whose primary objectives are to protect Specsavers companies from events that hinder the achievement of their performance objectives. The SIHL board and the group board, in all respects, have a cautious appetite for risk; and as a result, the objectives of the risk management framework are to manage exposure to risk, ensure sufficient working capital exists to fund Specsavers UK Holdings Limited's continuing operations and to support the management of risk at a business unit level.

The principal risks and uncertainties facing the group are categorised as strategic, technology, operational, people and legal & regulatory risks.

COVID-19 pandemic risk

The COVID-19 pandemic and the actions taken by governments around the world have impacted and continue to impact all Specsavers' colleagues, operations, suppliers and customers. The extent of the impact varies by market and is dependent on factors including, but not limited to, length of lockdowns, levels of employee absence, virus recurrence, unemployment levels, nature and extent of any government interventions, severity of economic effects and the speed and nature of the recovery.

The group board monitors a variety of KPIs to ensure that the business continues to adapt to the changing environments in which we operate and is satisfied that the right measures are being taken to mitigate any further impacts of a recessionary environment. In addition, as at the time of this report, trading has returned closer to pre-virus levels, although this recovery remains fragile. There remains significant uncertainty in the macroeconomic environment and the actions taken by governments across the world have impacted supply chains and trading patterns, which in turn will impact the financial performance to February 2021. Specsavers is now having to deal with intermittent localised lockdowns and management's focus is therefore on ensuring that stores can be closed down quickly, safely and cost-effectively, and subsequently re-opened rapidly in accordance with government guidance. The ongoing health and safety of our in-store colleagues and customers continues to be management's primary concern.

Specsavers UK Holdings Limited

Strategic report for the year ended 29 February 2020 (continued)

Strategic risk (including competitive and reputational risks)

Market position eroded by competition

The markets in which the group operates are highly competitive, and as such, action taken by competitors could threaten the future market position of the group. This is mitigated by the constant and rigorous review of competitor activity as well as analysis of key threats and risk areas across all the group's markets. Benchmarking competitor performance allows the group to take strategic action to counteract the impact of competitor actions.

The group board considers the likelihood and impact of competitors taking action to challenge the group's market position to be high, however it believes the strategies it has in place to manage these risks will minimise the impact of any competitor action.

Uncertainties in the wider economy

The group is exposed to market risk in relation to the performance of the broader UK economy; consumer spending levels and habits; and competition from other market participants.

The group seeks to manage these risks by ensuring that its retail operations have a wide geographical spread and through leveraging the buying power of Specsavers' supply chain, which in turn enables the group to deliver a competitive pricing strategy to maintain its position in the market and deliver unmatched value to its customers.

Along with many UK businesses, uncertainty with regard to Brexit is being monitored by the group to ensure that appropriate mitigation plans are in place to deal with any impacts as a consequence of Brexit. Specsavers has established a team to monitor the situation across all of its markets and this team is monitoring the ongoing Brexit negotiations. It will work with the group to ensure the impact of any changes in legislation and regulation are addressed.

The group board considers the likelihood of changes in the wider UK economy to be moderate; however, it considers the impact of any such changes to be low.

Reputational damage to brand

Specsavers' reputation and brand are integral to its success and, as such, any major incident, whether related to service, product, third parties or internal matters, which is not effectively managed could have a significant impact on trading and profitability. The group operates in a complex and rapidly changing environment where the use of social media and access to information continues to rise and therefore the risk of a major incident occurring becomes more likely.

Specsavers continually monitors both incidents and the way that they are managed and reported.

The group board considers that the likelihood of an incident resulting in significant reputational damage is moderate.

Specsavers UK Holdings Limited

Strategic report for the year ended 29 February 2020 (continued)

Technology Risk

Delivery of technology improvement and change

As part of maintaining a leading market position the group must change and adapt by investing in new technologies, systems and infrastructure. Deployment of these various programmes for change is becoming increasingly important to the ongoing success of the business and failure to achieve the anticipated commercial, operational and financial benefits from such programmes could adversely affect the group. The likelihood of challenges materialising with respect to the above is high and the impact will become increasingly important over time.

Specsavers has established dedicated project management teams globally to manage the global development, deployment and ongoing implementation of projects, in order to bring the best service possible to customers and store partners. Projects are monitored by the SEC on an ongoing basis to ensure the successful completion of business-critical projects.

Data protection and information security

In the normal course of business, the group processes a significant volume of confidential personal data. The group has a robust data protection policy and system of control over personal and business data. Failure to protect such data is a risk to the group.

Specsavers faces compliance risk with the General Data Protection Regulation (GDPR) that came into effect from 25 May 2018. These regulations may result in an increase in regulatory risk in the short-term, as the regulator starts to review implementation. The SEC has taken steps to ensure compliance with the regulations, having undertaken a significant program of review to support the business with the impact from the regulations, including, but not limited to, process updates, control review and staff training.

Specsavers has deployed and maintains information governance, controls, processes and tools for management of information security and data protection.

The group board considers the likelihood of a failure to protect personal data to be low, but recognises that the impact of any such instance occurring could be high.

Specsavers UK Holdings Limited

Strategic report for the year ended 29 February 2020 (continued)

Operational risk

Failure of product supply chain

The group's position in the market is predicated on providing products to its customers in a timely and reliable manner through the Specsavers supply chain. Operationally the group has in place rigorous quality control and oversight processes and procedures to enable the group to deliver its products to its retail partners to drive revenue growth.

The group board considers the likelihood of an instance of such a failure in its supply chain to be moderate but recognises that the impact of any such instance occurring could be high.

People Risk

Inability to attract, develop and retain talent

In addition, the group faces challenges and risks in relation to the procurement and retention of staff. As a professional services provider the group is exposed to the risk that it does not have access to a workforce with the requisite skills and experience to support the group's operations.

In order to manage this risk the group has worked with Specsavers to create a dedicated recruitment function to attract the best talent. The group has also significantly invested in staff welfare and training programmes to ensure the core values at the heart of the Specsavers brand are instilled in the workplace in order to retain the best talent.

The group board considers the likelihood of being unable to recruit staff with the requisite skills and experience to be low and considers the impact of being unable to do so to be moderate.

Legal and regulatory risk

Non-compliance with laws and regulations

The group could be negatively impacted by changes to existing regulation, new regulations and/or non-compliance with laws and regulations. This risk is mitigated through the use of external experts where required; through the use of Specsavers' expertise; and through the education and training of staff to ensure compliance with regulations.

The group board considers the likelihood of an instance of non-compliance with professional and/or regulatory standards to be low, but recognises that the impact of any such instance occurring could be high.

Other risks

Further to the above significant risks, the group board has considered the exposure of the group to financial, price, credit, liquidity and cash flow risk.

The main financial risks faced by the group relate to fluctuations in interest and foreign exchange rates, the risk of default by counterparties to financial transactions and the availability of funds to meet business needs. The group's primary debtors are from the NHS and a very large number of small customer debtors, and due to the strong credit rating of the UK government and the diversification of other debtors, our credit risk is minimal. Cash is managed by Specsavers Finance (Guernsey) Limited which has an investment policy of only investing in secure and liquid investments or hold cash and therefore liquidity risk is minimal. We have £75m cash or cash equivalents at year end and are a cash based business and so cash flow risk is minimal.

The group board has determined that the exposure to the group relating to these risks is such that they are not considered principal risks for the purposes of this strategic report.

The risks and uncertainties listed above have not had a significant impact during the past financial year and the directors are satisfied with the current risk management system.

Specsavers UK Holdings Limited

Strategic report for the year ended 29 February 2020 (continued)

Key performance indicators

The board utilises a number of financial and non-financial key performance indicators to enable a consistent method of analysing performance. Performance has been assessed with reference to the continuing operations of the business. The key performance indicators utilised by the board are as follows:

Financial Key Performance Indicators

Retail sales

The directors consider turnover in relation to retail sales to be a key metric for reflecting for overall success of Specsavers' UK retail operations. This performance indicator has been previously discussed in the review of the business section above.

Operating profit margin

Operating profit measures the profit achieved on the group's profit generating activities after taking account of the total operating costs incurred, before finance costs and taxation. The margin is calculated by taking operating profit and dividing it by turnover on retail sales as disclosed in note 3 to the financial statements. The group achieved an operating profit margin of 6.6%, an increase from 5.5% in the prior year. This is discussed in the strategic report above.

Current ratio

Current ratio measures the liquidity of the group and is a key indicator of its ability to meet its ongoing commitments. It is calculated by dividing current assets by current liabilities.

The group achieved a current ratio of 0.69 (2019: 0.71). The group has in place parental support in order to ensure the group meets its ongoing commitments.

Approved by the board on 14 October 2020 and signed on its behalf by:

J.D. Perkins
Director

Specsavers UK Holdings Limited

Directors' report for the year ended 29 February 2020

The directors present their report and consolidated financial statements for the year ended 29 February 2020. Financial risk, price risk, credit risk, liquidity risk and cash flow risk are discussed in the strategic report.

Directors of the group

The directors who held office during the year were as follows:

J D Perkins

J P Marshall

T M Builer

S D Moore - Company secretary and director

Specsavers Optical Group Limited - Company secretary and director

Dividends and transfers to reserves

During the year the company paid an interim dividend for the year under review of £Nil (2019: £Nil). The profit for the financial year of £76,139,347 (2019: £60,281,415) has been transferred to retained earnings £5,864,912 (2019: £3,376,674) and non-controlling interests £70,274,435 (2019: £56,904,741). The directors do not recommend payment of a final dividend (2019: £Nil).

Staff employment

The group believes in a policy of equal opportunities. Recruitment and promotion are undertaken on the basis of merit, regardless of gender, race, age, marital status, sexual orientation, religion, nationality, colour and disability.

Employee involvement

One of the group's key strengths is engaged colleagues with great training. Engagement with, and feedback from, our colleagues across the business is vital to the group. The group has an established framework of colleague communications providing regular information on business performance and other important and relevant matters.

Directors' qualifying indemnity provision

Qualifying indemnity provision was in place for each of the directors during the year.

Future developments

The group is committed to providing high quality, affordable optical and audiological care in all the communities it serves. The group will continue to invest in its people and its products to deliver on its commitment.

Research and development

No significant research and development projects were undertaken by the group during the year.

Specsavers UK Holdings Limited

Directors' report for the year ended 29 February 2020 (continued)

Corporate governance

The group has voluntarily adopted the Wates principles which are designed for large private companies in the United Kingdom. No companies within the group are currently large enough to meet the thresholds requiring the disclosure of corporate governance arrangements. The Wates framework recommends that companies consider six key principles of corporate governance:

- purpose and leadership;
- board composition;
- director responsibilities;
- opportunity and risk;
- remuneration; and
- stakeholder relationships and engagement.

Their application to the group is explained in the following sections.

Specsavers UK Holdings Limited

Directors' report for the year ended 29 February 2020 (continued)

Purpose and leadership

The group's values describe the principles by which we stand and help guide the way in which we do business, and are set out below.

Our customers - the lifeblood of the business

This means developing meaningful and respectful relationships and putting our customers first. We go the extra mile because we believe we can make a difference to people's lives. By doing the right thing for our customers, looking after them and giving them excellent service, we are doing the right thing for Specsavers.

Our people - supporting our staff to be the best they can be

To make sure our stores have the best possible support, we continually invest in our people, our stores and our infrastructure. By setting our people up for success, giving them the scope to develop and make the right decisions, we can continue to grow.

Partnership - at the heart of everything we do

We are committed to providing our store partners with clear strategic direction and first-class business support so that they can deliver the very best service, value and professional care to our customers. The Specsavers joint venture partnership is based on mutual trust and understanding, values that also underpin the way we work with our colleagues and suppliers.

Communities - giving back to and working with our local communities

Specsavers is about more than just selling glasses, hearing aids and contact lenses. It is about changing lives – on our doorstep and further afield – for the better. We make sure we give something back to the communities we work in, wherever we are in the world. Our offices, stores and sites raise money as well as giving their time to support a huge variety of causes, charities and community initiatives.

Results - keep it simple, get it done, deliver on our promises

Ours is a fast-paced industry and we must anticipate challenges and act quickly to stay ahead of the competition. While we celebrate success, we don't dwell on it – and we never think we have got where we need to be. Whatever the job at hand, the same basic principles apply: keep it simple, get it done and deliver on our promises.

The key underlying ethic instilled by the founders of Specsavers for as long as it has existed is to treat others as we ourselves would like to be treated.

Our brand promise: To use our compassion and expertise to help people feel good, cared for and smart.

Our brand purpose: To make a positive difference to the lives of all.

The SEC has set out clear policies regarding ethical trading, as laid out in the Strategic Report.

Specsavers UK Holdings Limited

Directors' report for the year ended 29 February 2020 (continued)

Board composition

The board of the company is responsible for fulfilling the company's legal and fiduciary responsibilities. It is assisted by two other bodies: the Specsavers Executive Committee (SEC) which is the main decision-making body for Specsavers, the majority of whom are also board members of the group's ultimate parent; and the UK operating boards, of which there is one for each of the main service lines – optics, audiology and domiciliary. The latter are internal committees, not linked to any one specific company within the organisation, but are responsible for the delivery of the Specsavers strategy within the UK context. The SEC directs the overall strategic development of Specsavers globally; determines risk appetite and control measures; promotes professional standards, corporate responsibility and regulatory compliance; and upholds high customer service standards.

The board believes that its composition includes an appropriate combination of skills, backgrounds, experience and knowledge, in line with the size and complexity of the group. Its size is also proportionate to its responsibilities. The board takes advice from the SEC in respect of strategic and other matters and from the operating boards concerning execution within the group's markets.

The knowledge and insight which the group board members bring to bear from their activities on other boards within the organisation assists them in applying Specsavers' strategy and policies to the group's situation.

John Perkins is a member of the UK Optical Operating Board as well as the SEC. Tom Buller is a member of the SEC. Paul Marshall is a member of the UK Optical and Audiology Operating Boards, as well as the SEC. Stephen Moore is a member of the UK Optical Operating Board.

The company's immediate parent Specsavers Optical Group performs activities which include delivery of the Specsavers business model in the UK optical market. John Perkins, Tom Buller and Paul Marshall are all directors of this company as well.

SEC members come from a variety of backgrounds and are committed to promoting diversity and inclusion, at SEC level and throughout the whole organisation. The SEC acknowledges the importance of diversity among its members, and among other boards within the organisation, and the role this plays in helping the business achieve its long-term goals; ensuring we have the right people in the right place, at the right time. The SEC has approved a range of activities to promote diversity and inclusion at Specsavers, and progress in this area was recognised when Specsavers won the Diverse Company Award at the National Diversity Awards in 2019.

As noted above, much of the operating activity of the company is driven by the operating boards, and these are each at least 25% female and include representation from ethnic minorities.

The company board, Specsavers Executive Committee and operating board members are each committed to ongoing professional development and consider that they have sufficient time to discharge their duties.

Specsavers UK Holdings Limited

Directors' report for the year ended 29 February 2020 (continued)

Director responsibilities

Certain matters are reserved for the SEC for its approval. These include:

- the review and approval of annual operating plans;
- risk appetite;
- performance targets;
- credit or market risk limits;
- acquisitions;
- disposals;
- investments;
- capital expenditure or realisation or creation of a new venture that exceed certain thresholds;
- specified senior appointments; and
- any substantial change in balance sheet management policy.

The SEC is responsible for maintaining and reviewing the effectiveness of risk management and internal control systems, and for determining the level and types of risks Specsavers is willing to take in achieving its strategic objectives. It is also responsible for matters relating to finance, corporate governance, remuneration and effective succession planning. These matters are determined by the SEC as a whole, rather than being delegated to subcommittees.

To meet internal control requirements, procedures have been designed for safeguarding assets against unauthorised use or disposal; for maintaining proper accounting records; and for ensuring the reliability and usefulness of financial information used within the business or for publication.

These procedures provide reasonable assurance against material mis-statement, errors, losses or fraud. They are designed to provide effective internal control within Specsavers and accord with the Financial Reporting Council's guidance for directors issued in 2014, regarding internal control and related financial and business reporting.

The SEC confirms that the system of internal control operated effectively for the 2020 financial year.

The operating boards use an extensive range of information sources to guide their decision-making, including financial information, key performance indicators, retail data, and employee and consumer feedback. Comprehensive board packs are produced on a timely basis for each operating board meeting.

Specsavers UK Holdings Limited

Directors' report for the year ended 29 February 2020 (continued)

Opportunity and risk

The group creates value by striving to provide exceptional customer service; excellent professional care; and high-quality products, delivered efficiently and in a great retail environment.

The SEC has put in place a clear risk management framework, and determines policies and procedures in relation to internal controls through clear interactions with senior management across Specsavers.

The key risk management and internal control procedures include the following:

- **Adherence to the organisation's values:** The Specsavers values laid out earlier outline the core principles within which the organisation must operate wherever we conduct business. The values overlay all other policies and procedures throughout the organisation. These values are mandatory, apply to and must be observed by all businesses within Specsavers, regardless of the nature or location of their activities.
- **Delegation of authority within limits set by the SEC:** Subject to certain matters reserved for the SEC, the group directors have been delegated authority limits and powers within which to manage the day-to-day affairs of the group, including the right to sub-delegate those limits and powers to the relevant operating board for effective management of the group's day to day activities.
- **Risk identification and monitoring:** Systems and procedures are in place to identify, assess, control and monitor the material risk types facing Specsavers as set out in the organisation-wide risk framework. The organisation's risk measurement and reporting systems are designed to help ensure that material risks are captured with all the attributes necessary to support well-founded decisions, that those attributes are accurately assessed and that information is delivered in a timely manner for those risks to be successfully managed and mitigated.
- **Changes in market conditions/practices:** Processes are in place to identify new risks arising from changes in market conditions/practices or customer behaviours, which could expose Specsavers to heightened risk of loss or reputational damage. The organisation employs a top and emerging risks framework, which contains an aggregate of all current and forward-looking risks and enables it to take action that either prevents them materialising or limits their impact.
- **Responsibility for risk management:** All employees are responsible for identifying and managing risk within the scope of their role, with the ultimate accountability residing with the SEC.
- **Strategic plans:** Strategic plans are prepared for global businesses, global functions and geographical regions within the framework of the organisation's overall strategy. Annual operating plans, informed by detailed analysis of risk appetite describing the types and quantum of risk that Specsavers is prepared to take in executing its strategy, are prepared and adopted by all major organisation operating companies and set out the key business initiatives and the likely financial effects of those initiatives.

The effectiveness of the group's system of risk management and internal control is reviewed regularly by the SEC.

Remuneration

Remuneration for directors and senior managers is aligned with performance, behaviours, and the achievement of the group's purpose, values and strategy.

The company's directors are all paid by a parent company, whose accounts are not publicly available.

Specsavers UK Holdings Limited

Directors' report for the year ended 29 February 2020 (continued)

Stakeholder relationships and engagement

The board has given extensive consideration to the group's impact on stakeholders including employees, communities and the environment, as described earlier in the Strategic Report.

The group seeks regular and wide-ranging feedback from its customers and adapts its activities accordingly.

Employee feedback is obtained through regular surveys and interactions, which are generally provided on an ad hoc basis in relation to specific matters. The feedback received is then used to develop action plans to continue to strengthen the relationships between the business and its employees.

Speak up and whistleblowing policies

Specsavers is committed to maintaining an open culture with high standards of honesty and accountability. Every employee within the organisation has an important role to play to achieve this and Specsavers takes all unprofessional conduct very seriously, whoever commits it.

Specsavers through its written policy reassures its employees that issues they raise will be properly considered. Whistle-blower confidentiality is maintained wherever reasonably possible. In all cases, Specsavers will handle the matter fairly and properly.

The COVID-19 pandemic has had a significant impact on the group. The government-ordered lockdown has significantly impacted how the group can trade and operate. The easing of lockdown has seen increased sales volumes over recent weeks such that trading has returned closer to pre-virus levels.

It is difficult to estimate how the COVID-19 outbreak will impact the group's trading and for how long, and the directors consider this as a level of uncertainty over which they have no control.

The SEC, group board and operating boards are planning for potential changes in the economic environment and government guidance, and responding accordingly as the situation develops.

The financial statements are prepared on a going concern basis on the grounds that such support as is required to enable the company to continue to trade will be received from the company's ultimate parent undertaking, Specsavers International Healthcare Limited. Specsavers, headed by SIHL has access to sufficient cash resources and borrowing facilities alongside strong cashflow which support the group's liquidity and longer term viability, and provide the ability to withstand reasonably possible downside scenarios should they arise. Therefore, the expectation of the directors is that they will be able to meet liabilities as they fall due over a period of at least 12 months.

Specsavers UK Holdings Limited

Directors' report for the year ended 29 February 2020 (continued)

Post balance sheet events and going concern

Subsequent to the balance sheet date, the World Health Organisation declared a COVID-19 pandemic on 11 March. The COVID-19 pandemic has had a significant impact on the group. The UK government-ordered lockdown significantly impacted how the group could trade and operate. In the immediate aftermath of the lockdown Specsavers took various measures to enable the business to successfully mitigate the impact of COVID-19 to date and reduce variable costs and conserve cash. The steps taken include, but are not limited to:

- ♦ Accessing the various government support schemes that have been put in place in order to mitigate the financial impact of the pandemic on businesses
- ♦ Entering into a series of cost reduction measures to reduce cash outflows, including stopping the business's long-term strategic framework plan to focus activities on short term goals to help the business navigate through the crisis
- ♦ Leveraging Specsavers' multi-site global manufacturing and distribution base to ensure continuing supply of product to customers.

As at the time of this report, trading has returned to closer pre-virus levels, although this recovery remains fragile. The business is now having to deal with intermittent localised lockdowns and management's focus is therefore on ensuring that stores can be closed down quickly, safely and cost-effectively, and subsequently re-opened rapidly in accordance with government guidance. The ongoing health and safety of our in-store colleagues and customers continues to be management's primary concern.

It is difficult to estimate how the COVID-19 outbreak will impact the group's trading and for how long, and the directors consider this as a level of uncertainty over which they have no control. The SEC, group board and operating boards are planning for potential changes in the economic environment and government guidance, and responding accordingly as the situation develops. The financial statements are prepared on a going concern basis on the grounds that such support as is required to enable the company to continue to trade will be received from the company's ultimate parent undertaking, Specsavers International Healthcare Limited.

Specsavers, headed by SIHL has access to sufficient cash resources and borrowing facilities, which were formalised as part of Specsavers' response to the pandemic, alongside positive cashflow which support Specsavers' liquidity and longer term viability, and provide the ability to withstand reasonably possible downside scenarios should they arise, and provide the support required, if any, to Specsavers UK Holdings Limited. Therefore, the expectation of the directors is that they will be able to meet liabilities as they fall due over a period of at least 12 months.

Specsavers UK Holdings Limited

Directors' report for the year ended 29 February 2020 (continued)

Disclosure of information to the auditor

Each director has taken steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the group's auditors are aware of that information. The directors confirm that there is no relevant information that they know of and of which they know the auditors are unaware.

This confirmation is given and should be interpreted in accordance with the provisions of s418 of the Companies Act 2006, as amended.

Reappointment of auditors

BDO LLP have expressed their willingness to continue in office.

Approved by the board on 14 October 2020 and signed on its behalf by:

.....
J D Perkins
Director

Specsavers UK Holdings Limited

Statement of directors' responsibilities

The directors are responsible for preparing the strategic report, directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the group and the company financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and the company and of the profit or loss of the group for that period.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies and apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the group and the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the group's and company's transactions and disclose with reasonable accuracy at any time the financial position of the group and the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the group and the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Specsavers UK Holdings Limited

Independent auditor's report to the members of Specsavers UK Holdings Limited

Opinion

We have audited the financial statements of Specsavers UK Holdings Limited (the 'parent company') and its subsidiaries (the 'group') for the year ended 29 February 2020, which comprise the consolidated profit and loss account, consolidated statement of comprehensive income, consolidated balance sheet, company balance sheet, consolidated statement of changes in equity, company statement of changes in equity, consolidated statement of cash flows, and notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland* (United Kingdom Generally Accepted Accounting Practice).

In our opinion:

- the financial statements give a true and fair view of the state of the group's and the parent company's affairs as at 29 February 2020 and of the group's profit for the year then ended;
- the financial statements have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the group and of the parent company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the group's or the parent company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Specsavers UK Holdings Limited

Independent auditor's report to the members of Specsavers UK Holdings Limited (continued)

Other information

The directors are responsible for the other information. The other information comprises the information included in the report and consolidated financial statements, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and directors report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and directors report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of our knowledge and understanding of the group and the parent company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report and the directors report.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the statement of directors' responsibilities, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the group's and the parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the group or the parent company or to cease operations, or have no realistic alternative but to do so.

Specsavers UK Holdings Limited

**Independent auditor's report to the members of Specsavers UK Holdings Limited
(continued)**

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the parent company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the parent company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the parent company and the parent company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Specsavers UK Holdings Limited

Notes to the financial statements for the year ended 29 February 2020

1 General information

The company is a private limited company, limited by share capital, incorporated in England and Wales.

The address of its registered office is:

Forum 6, Parkway
Solent Business Park
Fareham
PO15 7PA
United Kingdom

2 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance

These financial statements are prepared in accordance with United Kingdom Accounting Standards, including FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' ("FRS 102") and the Companies Act 2006 (as amended).

Basis of preparation

The financial statements are prepared in sterling which is the functional currency of the company and are rounded to the nearest £'000.

Going concern

It is difficult to estimate how the COVID-19 outbreak will impact the group's trading and for how long, and the directors consider this as a level of uncertainty over which they have no control. The SEC, group board and operating boards are planning for potential changes in the economic environment and government guidance, and responding accordingly as the situation develops. The financial statements are prepared on a going concern basis on the grounds that such support as is required to enable the company to continue to trade will be received from the company's ultimate parent undertaking, Specsavers International Healthcare Limited.

Specsavers, headed by SIHL has access to sufficient cash resources and borrowing facilities, which were formalised as part of Specsavers' response to the pandemic, alongside positive cashflow which support Specsavers' liquidity and longer term viability, and provide the ability to withstand reasonably possible downside scenarios should they arise, and provide the support required, if any, to Specsavers UK Holdings Limited. Therefore, the expectation of the directors is that they will be able to meet liabilities as they fall due over a period of at least 12 months.

Specsavers UK Holdings Limited

Notes to the financial statements for the year ended 29 February 2020 (continued)

2 Accounting policies (continued)

Summary of exemptions

The company holds investments in the share capital of all UK-based optical and audiological retail companies as contained in note 13 of the accounts. As the immediate parent company, it has provided a guarantee under the provisions of the Companies Act 2006, s479C, for an audit exemption for these companies. The results of these companies and the parent company are included in the consolidated financial statements for the year ended 29 February 2020.

All the subsidiaries listed in note 13 have taken advantage of the exemption from having their accounts audited under the provisions of the Companies Act 2006, s479A.

No income statement or statement of comprehensive income has been presented for the company, as permitted by section 408 of the Companies Act 2006, and no cash flow statement has been presented, as permitted by FRS 102.

Specsavers UK Holdings Limited

Notes to the financial statements for the year ended 29 February 2020 (continued)

2 Accounting policies (continued)

Basis of consolidation

The group financial statements consolidate the financial statements of the company and its subsidiary undertakings drawn up to 29 February 2020.

A subsidiary is an entity controlled by the company. Control is achieved where the company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated profit and loss account from the effective date of acquisition or up to the effective date of disposal, as appropriate. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by the group.

The purchase method of accounting is used to account for business combinations that result in the acquisition of subsidiaries by the group. The cost of a business combination is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the business combination. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. Any excess of the cost of the business combination over the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities recognised is recorded as goodwill.

Where a business combination falls within the definition of a group reconstruction, merger accounting is used. In this instance the carrying values of the assets and liabilities of the parties to the combination are not required to be adjusted to fair value, although appropriate adjustments are made to achieve uniformity of accounting policies in the combining entities. The results and cash flows of all the combining entities are brought into the financial statements of the combined entity from the beginning of the financial year in which the combination occurred, adjusted so as to achieve uniformity of accounting policies. The comparative information is restated by including the total comprehensive income for all the combining entities for the previous reporting period and their balance sheets for the previous reporting date, adjusted as necessary to achieve uniformity of accounting policies.

Inter-company transactions, balances and unrealised gains on transactions between the company and its subsidiaries, which are related parties, are eliminated in full.

Intra-group losses are also eliminated but may indicate an impairment that requires recognition in the consolidated financial statements.

Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group. Non-controlling interests in the net assets of consolidated subsidiaries are identified separately from the group's equity therein. Non-controlling interests consist of the amount of those interests at the date of the original business combination and the non-controlling shareholder's share of changes in equity since the date of the combination. Total comprehensive income is attributed to non-controlling interests even if this results in the non-controlling interest having a deficit balance.

Specsavers UK Holdings Limited

Notes to the financial statements for the year ended 29 February 2020 (continued)

2 Accounting policies (continued)

Judgments

The following are the critical judgments made by management, apart from those involving estimations (see 'Key sources of estimation uncertainty' below), that have a significant effect on the amounts reported in the financial statements:

Impact of COVID-19

In light of the rapidly escalating COVID-19 pandemic, the group has considered whether any adjustments are required to reported amounts in the financial statements.

As at the 29 February 2020 balance sheet date, no global pandemic had been declared, large global share price falls had not yet occurred, and larger-scale outbreaks were only apparent in areas of China, Republic of Korea, Iran and northern Italy, none of which had a significant impact on the business's ability to trade as at the balance sheet date. The full ramifications of COVID-19, and the extent of government interventions in response, were not apparent.

As noted in the Directors' Report, the WHO did not announce a pandemic, leading to significant government measures in relation to COVID-19 until March. The group has therefore concluded that the impact of COVID-19 on the group only became apparent after the balance sheet date and therefore that any financial consequences arising as a result of the pandemic and resultant government interventions represent non-adjusting post balance sheet events.

Operating lease commitments

The group enters into multiple commercial property leases, where as a lessee it obtains the use of property. The classification of each lease as either an operating or finance lease requires the group to determine, based on evaluation of the terms and conditions of the arrangements, whether it retains or acquires the significant risks and rewards of ownership of these assets, and accordingly whether the lease requires an asset and liability to be recognised in the balance sheet. The key factor considered is the length of the lease term, compared to the expected useful life of the underlying asset. Where the asset life is considerably longer than the lease term, the significant risks and rewards are not deemed to be transferred to the group, and the lease is consequently accounted for as an operating lease.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and the other key sources of estimation uncertainty at the end of the reporting period that have a risk of causing material adjustments to the carrying amounts of assets and liabilities within the next financial year:

Specsavers UK Holdings Limited

Notes to the financial statements for the year ended 29 February 2020 (continued)

2 Accounting policies (continued)

Impairment of non-financial fixed assets

Where there are indicators of impairment of individual assets, the group performs impairment tests based on fair value less costs to sell or a value in use calculation. The fair value less costs to sell calculation is based on available data from binding sales transactions in an arm's length transaction on similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the group is not yet committed to or significant future investments that will enhance the performance of the cash generating unit being tested. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash flows and the growth rate used for extrapolation purposes.

Deferred revenue

Deferred revenue arises when cash is received in advance of revenue being earned, either in the form of deposits received for spectacles which have not been collected, or direct debit payments received for contact lenses in advance of delivery of the lenses to the customer. Deferred revenue is a liability on the balance sheet until it is earned. Customer data is used to estimate the value of uncollected spectacle sales which should be deferred at the year-end. Deferred revenue for contact lens sales purchased by direct debit is estimated using system reports which allow a calculation of where each customer is in their payment cycle, and therefore how much has been paid in advance of delivery of goods. Deferred revenue in respect of bundled sales of hearing aids and four years' batteries is calculated using the underlying cost prices of the elements in the bundle, management deem this to be the best estimation of the fair value split.

Taxation

The group establishes provisions based on reasonable estimates, for possible consequences of audits by the tax authorities. The amount of such provisions is based upon various factors, such as experience with previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Management estimation is required to determine the amount of deferred tax assets that can be recognised, based upon likely timing and level of future taxable profits together with an assessment of the effect of future tax planning strategies.

Goodwill and intangibles

The group establishes a reliable estimate of the useful life of goodwill and intangible assets arising on business combinations. This estimate is based on a variety of factors such as the expected use of the acquired asset, the expected usual life of the cash generating units to which the goodwill is attributed, any legal, regulatory or contractual provisions that can limit useful life and assumptions that market participants would consider in respect of similar businesses.

Revenue recognition

Revenue is recognised to the extent that the group obtains the right to consideration in exchange for its performance. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates, VAT and other sales taxes or duty. The following criteria must also be met before revenue is recognised:

Revenue from the sale of optical and hearing products and services is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually on despatch of the goods, or when services are provided and the amount of revenue can be measured reliably, it is probable that the economic benefits associated with the transaction will flow to the group and the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Specsavers UK Holdings Limited

Notes to the financial statements for the year ended 29 February 2020 (continued)

2 Accounting policies (continued)

Tax

Current tax is provided at amounts expected to be paid (or recovered) using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised in respect of all timing differences which are differences between taxable profits and total comprehensive income that arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements, except that unrelieved tax losses and other deferred tax assets are recognised only to the extent that the directors consider that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Tangible fixed assets

Tangible assets are stated in the balance sheet at cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

The cost of tangible assets includes directly attributable incremental costs incurred in their acquisition and installation.

Depreciation

Depreciation is provided on a straight line basis at the following rates in order to write off the cost less estimated residual value of each asset over its estimated useful life (or if held under a finance lease, over the lease term, whichever is the shorter):

| Asset class | Depreciation rate |
|-------------------------------------|-------------------|
| Motor vehicles | 25% |
| Fixtures and fittings | 14%-25% |
| Other property, plant and equipment | 14%-33% |

Goodwill

Positive goodwill acquired is capitalised, classified as an asset on the balance sheet and amortised on a straight line basis over its useful life. Goodwill acquired is, from the acquisition date, allocated to each cash generating unit that is expected to benefit from the synergies of the acquisition. If a business is subsequently sold or discontinued, any goodwill arising on acquisition that has not been amortised through the consolidated profit and loss account is taken into account in the profit or loss on sale or discontinuance.

Amortisation

Amortisation is provided on intangible assets so as to write off the cost, less any estimated residual value, over their useful life as follows:

| Asset class | Amortisation rate |
|-------------|--------------------------|
| Goodwill | 0-10 years straight line |

Specsavers UK Holdings Limited

Notes to the financial statements for the year ended 29 February 2020 (continued)

2 Accounting policies (continued)

Investments

Investments, including investments held as current assets, are recognised initially at fair value which is normally the transaction price (but excludes any transaction costs, where the investment is subsequently measured at fair value through profit and loss). Subsequently, they are measured at fair value through profit or loss except for those equity investments that are not publicly traded and whose fair value cannot otherwise be measured reliably which are recognised at cost less impairment until a reliable measure of fair value becomes available. Investments in subsidiaries are therefore generally recognised at cost less impairment. If a reliable measure of fair value is no longer available, the equity instrument's fair value on the last date the instrument was reliably measurable is treated as the cost of the instrument.

Stock

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost is determined using the weighted average method.

The cost of finished goods and work in progress comprises direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the stocks to their present location and condition. At each reporting date, stocks are assessed for impairment. If stocks are impaired, the carrying amount is reduced to its selling price less costs to complete and sell; the impairment loss is recognised immediately in profit or loss.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value. The directors have included the balances owed to and from Specsavers Finance (Guernsey) Limited, the group treasury company within cash equivalents.

Short term debtors and creditors

Debtors and creditors with no stated interest rate and receivable or payable within one year are recorded at transaction price. Any losses arising from impairment are recognised in the consolidated profit and loss account in administrative expenses.

Borrowings

All interest-bearing loans and borrowings which are basic financial instruments are initially recorded at the present value of cash payable to the bank (including interest). After initial recognition, they are measured at amortised cost using the effective interest rate method. The effective interest rate amortisation is included in interest payable in the consolidated profit and loss account.

Provisions

A provision is recognised when the group has a legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation.

Specsavers UK Holdings Limited

Notes to the financial statements for the year ended 29 February 2020 (continued)

2 Accounting policies (continued)

Leases

Leases in which substantially all the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to profit or loss on a straight-line basis over the period of the lease. Lease incentives are recognised over the lease term on a straight-line basis.

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee.

Assets held under finance leases and hire purchase contracts are capitalised in the balance sheet and are depreciated over the shorter of the useful life of the asset and the lease term. A corresponding liability is recognised for the lower of the fair value of the leased asset and the present value of the minimum lease payments in the balance sheet. Lease payments are apportioned between the reduction of the lease liability and finance charges in the profit and loss account so as to achieve a constant rate of interest on the remaining balance of the liability.

Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred, the initial measurement is on a present value basis.

Dividends

Final dividends are recognised as an appropriation of equity when approved by the company's shareholders. Interim dividends are recognised when paid.

Defined contribution pension obligation

A defined contribution plan is a pension plan under which fixed contributions are paid into a pension fund and the group has no legal or constructive obligation to pay further contributions even if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

Contributions to defined contribution plans are recognised as employee benefit expense when they are due. If contribution payments exceed the contribution due for service, the excess is recognised as a prepayment.

Retained earnings

Retained earnings represents cumulative profits and losses, net of dividends paid and also transactions which result in changes in ownership of A shares in subsidiary undertakings without a change in control.

Non-controlling interests reserve

The non-controlling interests reserve is the share of the group's reserves not owned by the company. Non-controlling interests are valued at the proportionate share of third parties in the net value of the assets and liabilities of subsidiary undertakings, determined in accordance with the company's measurement principles.

Capital contribution reserve

The capital contribution reserve relates to equity contributions received from the company's parent, in its capacity as a shareholder. When these are realised they are moved into retained earnings.

Specsavers UK Holdings Limited

Notes to the financial statements for the year ended 29 February 2020 (continued)

3 Turnover

The analysis of the group's turnover for the year from continuing operations is as follows:

| | 2020 £ 000 | 2019 £ 000 |
|-----------------------|------------------|------------------|
| Retail sales | 1,272,846 | 1,203,168 |
| Rendering of services | 256,771 | 232,239 |
| Other revenue | 195 | 191 |
| | <u>1,529,812</u> | <u>1,435,598</u> |

The analysis of the group's turnover for the year by market is as follows:

| | 2020 £ 000 | 2019 £ 000 |
|----|------------------|------------------|
| UK | <u>1,529,812</u> | <u>1,435,598</u> |

4 Operating profit

Arrived at after charging/(crediting):

| | 2020 £ 000 | 2019 £ 000 |
|---|---------------|---------------|
| Depreciation expense | 35,563 | 29,336 |
| Amortisation expense | 44 | 127 |
| Operating lease expense - property | 40,031 | 38,209 |
| Operating lease expense - plant and machinery | 365 | 461 |
| Profit on disposal of property, plant and equipment | <u>(341)</u> | <u>(795)</u> |

5 Interest receivable and similar income

| | 2020 £ 000 | 2019 £ 000 |
|---|---------------|---------------|
| Interest receivable from Group Treasury Company | 121 | 99 |
| Interest income on financial assets | <u>1</u> | <u>-</u> |
| | <u>122</u> | <u>99</u> |

Specsavers UK Holdings Limited

Notes to the financial statements for the year ended 29 February 2020 (continued)

6 Interest payable and similar expenses

| | Note | 2020 £ 000 | 2019 £ 000 |
|--|------|---------------|---------------|
| Interest payable to Group Treasury Company | 25 | 3,449 | 2,624 |
| Interest on obligations under finance leases and hire purchase contracts | | 376 | 421 |
| Interest expense on other finance liabilities | | 25 | 30 |
| | | <u>3,850</u> | <u>3,075</u> |

7 Staff costs

The aggregate payroll costs (including directors' remuneration) were as follows:

| | 2020 £ 000 | 2019 £ 000 |
|--|----------------|----------------|
| Wages and salaries | 444,122 | 424,961 |
| Social security costs | 26,866 | 25,988 |
| Pension costs, defined contribution scheme | 15,582 | 9,309 |
| Other employee expense | 31,339 | 29,478 |
| | <u>517,909</u> | <u>489,736</u> |

Other employee expenses consist primarily of training costs £13.6m (2019: £13.1m), other costs £5.2m (2019: £4.4m) and travel and entertainment costs £5.1m (2019: £4.4m).

The company has no employees and as a consequence no staff costs have been incurred. Directors are remunerated through a parent company.

The average number of persons employed by the group (including directors) during the year, analysed by category was as follows:

| | 2020 No. | 2019 No. |
|-------------------|---------------|---------------|
| Retail operations | <u>22,569</u> | <u>21,677</u> |

There were pension contributions outstanding at the year end of £2,156,168 (2019: £1,542,722).

8 Directors' remuneration

During the current and prior year, none of the directors received remuneration for their service as a director.

Specsavers UK Holdings Limited

Notes to the financial statements for the year ended 29 February 2020 (continued)

9 Auditors' remuneration

| | 2020 | 2019 |
|------------|--------------|--------------|
| | £ 000 | £ 000 |
| Audit fees | <u>330</u> | <u>151</u> |

Specsavers UK Holdings Limited

Notes to the financial statements for the year ended 29 February 2020 (continued)

10 Taxation

Tax charged/(credited) in the income statement

| | 2020 £ 000 | 2019 £ 000 |
|--|---------------|---------------|
| Current taxation | | |
| UK corporation tax | 22,481 | 17,506 |
| UK corporation tax adjustment to prior periods | (256) | (97) |
| Total current taxation | <u>22,225</u> | <u>17,409</u> |
| Deferred taxation | | |
| Arising from origination and reversal of timing differences | (670) | (659) |
| Arising from previously unrecognised tax loss, tax credit or temporary difference of prior periods | 707 | 268 |
| Total deferred taxation | <u>37</u> | <u>(391)</u> |
| Tax expense on profit on ordinary activities | <u>22,262</u> | <u>17,018</u> |

The tax on profit on ordinary activities for the year differs from the standard rate of corporation tax in the UK of 19% (2019: 19%).

The differences are reconciled below:

| | 2020 £ 000 | 2019 £ 000 |
|--|---------------|---------------|
| Profit before tax | <u>98,401</u> | <u>77,299</u> |
| Corporation tax at standard rate | 18,696 | 14,687 |
| Effect of expense not deductible for tax purposes / income not taxable | 1,973 | 1,122 |
| Prior year adjustment - corporation tax | (256) | (97) |
| Prior year adjustment - deferred tax | 708 | 268 |
| Movement in unrecognised deferred tax losses | 951 | 873 |
| Impact of future changes in tax rates on deferred tax | 190 | 165 |
| Total tax charge | <u>22,262</u> | <u>17,018</u> |

Specsavers UK Holdings Limited

Notes to the financial statements for the year ended 29 February 2020 (continued)

10 Taxation (continued)

Deferred tax

Group

The deferred tax recognised in the balance sheet is as follows:

| | Note | 2020 £ 000 | 2019 £ 000 |
|-------------------------------------|------|---------------|---------------|
| Short term timing differences | | 347 | 255 |
| Tax losses carried forward/utilised | | 86 | 74 |
| Fixed asset timing differences | | <u>4,831</u> | <u>4,989</u> |
| | 15 | <u>5,264</u> | <u>5,318</u> |
| | | | |
| | | 2020 £ 000 | 2019 £ 000 |
| 1 March | | 5,318 | 4,933 |
| Movement in the year | | 669 | 660 |
| Adjustment in respect of prior year | | (708) | (268) |
| On subsidiaries purchased | | <u>(15)</u> | <u>(7)</u> |
| 29 February | | <u>5,264</u> | <u>5,318</u> |

A deferred tax asset is regarded as recoverable, and therefore recognised, only to the extent that, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. The estimated value of the deferred tax asset not recognised, measured at standard rates is £4,661,054 (2019: £4,484,514) in respect of store operations.

The amount of the net reversal of deferred tax assets and liabilities expected to occur next year is £1,018,145 (2019: £1,063,172) relating to the reversal of existing timing differences between qualifying depreciation and capital allowance claims.

13 Investments

Company

| | 2020 | 2019 |
|-----------------------------|---------------|---------------|
| | £ 000 | £ 000 |
| Investments in subsidiaries | <u>17,082</u> | <u>18,470</u> |

Details of investments in which the parent company has a controlling interest in the ordinary share capital. Where A and B ordinary shares exist, the company holds 100% of the B ordinary shares and various percentage holdings of the A ordinary shares. In accordance with Articles of Association of the subsidiary entities, the right to participate in the profits of the company is exclusive to "A" shares and no dividend is payable on the ordinary "B" shares. All subsidiaries are registered in England and Wales.

Unless noted in the table below, all subsidiaries' registered address is Forum 6, Parkway, Solent Business Park, Whiteley, Fareham, Hampshire, PO15 7PA, England.

All subsidiaries share the same accounting period end as the parent company, being 29 February 2020.
