Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of the transaction. Exchange differences are taken into account in arriving at the operating profit.

Financial instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities.

2. GOING CONCERN

The financial statements have been prepared on a going concern basis as the directors believe that the Company's operations will pick up in the foreseeable future which will increase the Company's turnover. In the short term, the Company continues to be reliant on the other companies within the group for its income and as well as for support for cash flow purposes.

The directors of the company are of the opinion that the support of the parent company will continue for at least another 12 month from the date of signing the accounts and that this therefore make it appropriate to prepare the financial statement on a going concern basis.
