DIRECTORS' REPORT 31 MARCH 2012

The directors present the Annual Report and Financial Statements for Auburn Entertainment 1 plc ("the Company") for the year ended 31 March 2012

Principal activity

The Company is a member of Auburn Entertainment LLP ("the Partnership"), a limited liability partnership formed to operate in the media and entertainment sectors engaging in a number of commercial media projects including

- working with leading content creators to produce and exploit original entertainment content such as television programmes and feature films, and
- the promotion of premium entertainment content through marketing and distribution services

In assessing which projects to pursue, the Partnership endeavours to work with the most successful content creators and highest quality promoters to carry out its media projects. The Partnership also benefits from its relationship with Ingenious Media Holdings plc and its subsidiaries ("the Ingenious Group") to identify, source and undertake media projects that have the potential to generate additional returns.

Review of the year

After taking into account the running costs of the Company and its share of the Partnership's results, the Company made a net profit of £47,641 (2011: £9,007) during the year.

The net assets of the Company at 31 March 2012 were £1,887,248 (2011: £1,839,607).

The directors consider the Company's performance to be satisfactory given the risk profile of the activities engaged in and the current stage of the Company's development. The directors will continue to monitor the returns being generated on the funds employed in the Partnership and the performance of Ingenious Media Investments Limited ("the Operator").

Directors

The directors who served throughout the year were as follows

J L Boyton
M T Bugden
J H M Clayton

D M Reid
S J Speight

Payment of suppliers

The Company agrees payment terms as part of the commercial arrangements negotiated with suppliers. Payments are made on these terms provided the supplier meets its obligations.

The trade creditor days for the year were Nil (2011 Nil).

Financial risk management objectives and procedures

As the Company's key activity is investment into the Partnership the directors have deemed it appropriate to consider the key risks to which the Partnership is exposed. Due to the nature of the Partnership's business and the assets and liabilities contained within its balance sheet, the key financial risks the directors consider relevant are credit risk and production risk. These risks are mitigated by the Partnership's credit control policies and greenlighting procedure. **NOTES TO THE FINANCIAL STATEMENTS
YEAR ENDED 31 MARCH 2012**

1. Accounting policies

Basis of accounting

The financial statements have been prepared under the historical cost convention

Compliance with accounting standards

The financial statements have been prepared in accordance with applicable United Kingdom Accounting Standards. The significant accounting policies adopted are summarised below. These policies have been consistently applied in the current year.

Investment in associated partnership

The investment in the associated Partnership is stated at cost less provision for any permanent diminution in value and is accounted for using the equity method. The Profit and Loss Account includes the Company's share of the Partnership's profits less losses while the Company's share of the net assets of the Partnership is shown in the Balance Sheet.

Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred taxation is provided in full on timing differences that result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the financial statements. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.

Financial instruments

The Company's principal financial instruments are its bank balance and receivables. The main purpose of these instruments is to provide funding for the Company's operations and to ensure the Company can meet its liabilities as they fall due.

Due to the nature of the financial instruments used by the Company, there is no exposure to price risk. Credit risk of receivables is closely monitored.
