Approved by the Board on 17 June 2014

And signed on their behalf by:

M.J.Abbott, Director

Notes to the Abbreviated Accounts for the period ended 30 September 2013

1 Accounting Policies

Basis of measurement and preparation of accounts

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy

Turnover comprises the invoiced value of goods and services supplied by the company,net of Vlaue Added Tax and trade discounts.

Tangible assets depreciation policy

Tangible fixed assets are stated at cost less depreciation

Depreciation is provided at rates calculated to write off cost or valuation of fixed assets,less their estimated residual value, over their expected useful lives on the following basis:

Plant and machinery - 20% p.a. reducing balance basis Fixtures and Fittings - 20% p.a. reducing balance basis Motor Vehicles - 30% p.a reducing balance basis

Other accounting policies

Stocks

Stocks and work in progress are valued at the lower of cost and net realisable value after making due allowance for obsolete and slow moving stocks. Cost includes all direct costs and appropriate proportion of fixed and variable overheads.

Deferred taxation

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferrred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of underlying timing differences can be deducted. Deferred taxation is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which the timing differences reverse, based on tax rates and the law enacted or substantially enacted at the balance sheet date.

Leasing

Assets obtained under hire purchase contracts and finance leases are capitaised as tangible fixed assets and depreciated over the lease term and their useful lives. Finance leases are those where substantially all the benefits and risks of ownership are assumed by the company. Obligations under such agreements are included in creditors net of finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

2 Tangible fixed assets
