4 Going Concern

The balance sheet as at 31 March 2010 shows that the company's liabilities exceed its assets by £18514. Current liabilities at that date include £30,000 due to a company under the control of the director against which they do not intend to make any significant withdrawals. The future trading of the company and the going concern basis on which the financial statements are prepared depend on the continuing support of the director. The director therefore considers it appropriate to prepare the financial statements on the going concern basis. The accounts do not include any adjustments that would result in the withdrawal of the support referred to above.
