NOTES TO THE ABBREVIATED ACCOUNTS
Year ended 30 November 2010

1. Accounting policies

(i) Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

(ii) Turnover

The turnover shown in the profit and loss account represents amounts derived from the provision of goods and services to customers during the year, exclusive of value added tax

(iii) Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows

Improvements to leasehold property - straight line over the life of the lease

(iv) Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items

(v) Operating lease agreements

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease

(vi) Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date
