NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 DECEMBER 2014

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.2 Compliance with accounting standards

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated).

1.3 Turnover

The turnover shown in the profit and loss account represents the value of all goods and services sold during the year, less returns received, at selling price exclusive of Value Added Tax. Sales are recognised at the point at which the company has fulfilled its contractual obligations and the risks and rewards attaching to the product, have been transferred to the customer.

1.4 Goodwill

Goodwill arising on the acquisition of the trade and assets of ABC Fire and Security represents the excess of the cost of acquisition (being the cash paid and the fair value of other consideration given) over the fair value of the separable net assets acquired. The fair value of the acquired assets and liabilities are assessed in the year of acquisition and the subsequent year, which may impact on the goodwill recognised. Goodwill is capitalised and written off on a straight line basis over its useful economic life, which is 10 years.

Provision is made for any impairment in its value. The useful economic life is the expected period over which the company expects to derive an economic benefit, and is reviewed on an annual basis.

1.5 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Plant and machinery 15% reducing balance
Office equipment 33% straight line
Fixtures, fittings & equipment 25% reducing balance
Motor vehicles 25% reducing balance

1.6 Deferred taxation

Deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more tax, or a right to pay less tax, or a right to receive repayments of tax.

Deferred tax is measured on a non-discounted basis at the average tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates abd laws enacted or substabtively enacted at the balance sheet date.
