Notes to the Financial Statements
for the Year Ended 31st December 2019

1. STATUTORY INFORMATION

Bute Capital Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Turnover

Lease finance income:-

Equipment leasing income is recognised on a systematic and rational basis and is calculated as a constant periodic return on the lessor's net investment.

Loan finance income:-

Loans advanced are included within debtors. Loan repayments are apportioned between the financial element, which is charged to the profit and loss account, and the capital element, which reduces the outstanding obligation for future instalments, so as to give a constant rate of charge on the outstanding obligation.

Domain registration costs

Amortisation is provided to write off the domain registration costs over their expected useful life of 10 years.

Website and branding costs

Amortisation is provided to write off the website and branding costs over their expected useful life of 3 years.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Furniture & Equipment	- 20% on reducing balance
Computer equipment	- 33% on cost

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Statement of Income and Retained Earnings, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.
