Notes to the Abbreviated Accounts
for the period ended 30 April 2010

1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Turnover

Turnover represents the value, net of value added tax and discounts, of goods provided to customers and work carried out in respect of services provided to customers

Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives. Fixed assets are stated at their cost prices, less accumulated depreciation and less amounts recognised in respect of impairment

Plant and machinery	25% reducing balance
---------------------	----------------------

Deferred taxation

Full provision is made for deferred taxation resulting from timing differences between the recognition of gains and losses in the accounts and their recognition for tax purposes. Deferred taxation is calculated on an un-discounted basis at the tax rates which are expected to apply in the periods when the timing differences will reverse

Financial Instruments

Financial instruments are classified and accounted for according to the substance of the contractual arrangement, as either financial assets, liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company, after deducting all liabilities
