2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

In preparing the accounts, the directors have considered whether when applying the accounting policies required by FRS 102, restatements of comparative items was required. No such items have been identified that require restatement.

Turnover

Turnover represents income derived from ordinary activities. The company accounts for VAT under the flat-rate scheme and therefore turnover is shown gross of the standard rate of VAT, less the percentage adjustment required under the flat rate scheme.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.
Plant and machinery etc - 25% on reducing balance

Tangible assets are initially recorded at cost, and subsequently stated at cost less any accumulated depreciation and impairment losses.

Financial instruments

Basic financial instruments are initially measured at the transaction price, unless the arrangement constitutes a financing transaction, when it is measured at the present value of the future repayments discounted at a market rate of interest for a similar debt instrument. Debt instruments are subsequently measured at amortised cost.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.
