3. DETAILS OF APPOINTMENT OF LIQUIDATORS

Date winding up commenced: 25 April 2019

Date of Liquidators' appointment: 25 April 2019

Changes in Liquidator: None

4. PROGRESS SINCE APPOINTMENT

Introduction

This is our Final Report and account of the liquidation and should be read in conjunction with our earlier Progress Reports to creditors dated 22 June 2020 and 14 June 2021

Attached (at Appendix 1) is our abstract of receipts and payments for the period from 25 April 2019 to 13 December 2021

What work has been done in the period of this report, why was that work necessary and what has been the financial benefit (if any) to creditors?

Details of the types of work that generally fall into the headings mentioned below are available on our firm's website – http://www.begbies-traynorgroup.com/work-details

Under the following headings, we have explained the specific work that has been undertaken on this particular case – not every piece of work has been described, but we have sought to give a proportionate overview that provides sufficient detail to allow creditors to understand what has been done, why it was necessary and what financial benefit (if any) the work has provided to creditors.

The costs incurred in relation to each heading are set out in the attached Time Costs Analysis – there is an analysis for the period since our last Progress Report, and also an analysis of time spent on the case since the date of our appointment as Joint Liquidators.

Please note that the details below only relate to the work undertaken since our last Progress Report – our previous Progress Reports contain details of the work undertaken since our appointment.

General case administration and planning

It is necessary to develop and review the strategy in respect of certain key elements, such as asset realisations and investigations, dependent upon the specific circumstances of a case.

Periodic reviews have therefore been carried out, in order to ensure that asset realisations and investigations are progressing satisfactorily, and that statutory requirements of the relevant legislation are complied with.

Generally, it is also necessary to maintain records to demonstrate how the case was administered, and to document the reasons for any decisions that materially affect the case.

Whilst this work has not financially benefitted creditors, it was still a necessary part of the general control of the case.

Compliance with the Insolvency Act, Rules and best practice

The Insolvency Act 1986 and the Insolvency Rules 1986, together with subsequent amendments, require insolvency practitioners holding office as Liquidators to ensure that the case is adequately bonded (an insurance to protect the interests of unsecured creditors in the potential asset realisations on a case)

They are also required to produce a Progress Report within two months after the anniversary of the date of when the company entered Liquidation, which is issued / made available to all creditors and members.

As this matter is now ready for conclusion, we have produced this Final Report, which is issued / made available to all creditors and members.

In addition to the above they will also file their Progress Reports and (in due course) their Final Report with the Registrar of Companies.

This category also includes cashiering duties, such as banking funds, maintaining accounting records and invoicing in respect of remuneration and disbursements, which is undertaken by support staff throughout the duration of the case.

Although this work has not benefitted creditors financially, it was still necessary in accordance with insolvency legislation.

Investigations

A small amount of time has been incurred in concluding our statutory investigations.

Although this work has not financially benefitted creditors, it was still necessary in accordance with insolvency legislation.

Realisation of assets

As indicated in our previous Progress Reports, the sum of £10,000 plus VAT is due from Metcalfe Developments Limited (a company under the control of shareholders) with regards to the preappointment sale of the Company's business & assets.

Despite the instruction of solicitors, and numerous promises of repayment from the purchaser, we have only been able to recover the sum of £5,000 – given the low amount involved, it was not deemed economically viable to instigate proceedings to collect the remaining balance.

Creditors will also recall (from the Director's Report) that it was estimated the sum of £26,000 would be recoverable from the Company's outstanding sales ledger.

Debt recovery specialist were instructed to assist in the collection activities, but were unable to recover any amounts due, mainly as a result of lack of supporting evidence.

Given the passage of time (and large balance of professional costs already incurred) steps have therefore been taken to conclude this matter.

This work has not financially benefited unsecured creditors (as there is no prospect of a return to them) but was still needed to be undertaken as part of our duties as Liquidators.

Other matters which includes seeking decisions from creditors (via Deemed Consent Procedure and/or Decision Procedures, tax, litigation, pensions and travel

This category includes cashiering duties, such as banking funds, maintaining accounting records and invoicing in respect of remuneration and disbursements, which is undertaken by support staff throughout the duration of the case.

Although this work has not benefitted creditors financially, it was still necessary in accordance with insolvency legislation.

5. OUTCOME FOR CREDITORS

Preferential creditors

As far as we are aware, there are no preferential creditors in this matter.

Prescribed Part for unsecured creditors pursuant to Section 176A of the Act

Section 176A of the Act provides that, where the company has created a floating charge on or after 15 September 2003, the Liquidator must make a prescribed part of the Company's net property available for the unsecured creditors and not distribute it to the floating charge holder except in so far as it exceeds the amount required for the satisfaction of unsecured debts. Net property means the amount which would, were it not for this provision, be available to floating charge holders out of floating charge assets (i.e. after accounting for preferential debts and the costs of realising the floating charge assets).

The prescribed part of the Company's net property is calculated by reference to a sliding scale as follows:

	50% of the first £10,000 of net property;
0	20% of net property thereafter;
-	Up to a maximum amount to be made available of £600,000
A Liqu	uidator will not be required to set aside the prescribed part of net property if:
	the net property is less than £10,000 <u>and</u> the Liquidator thinks that the cost of distributing the prescribed part would be disproportionate to the benefit; (Section 176A(3)) or
	the Liquidator applies to the court for an order on the grounds that the cost of distributing the prescribed part would be disproportionate to the benefit and the court orders that the provision shall not apply (Section 176A(5)).

The Company's current net property is estimated at less than £10,000 and (as Liquidators) we consider that the cost of distributing the prescribed part would be disproportionate to the benefit.

We are not therefore required to set aside the prescribed part of net property.

Secured creditors

The Company's assets are subject to a floating charge granted in favour of The Trustees of The Unique Resins Pension Scheme.

No dividend is available for secured creditors, as the funds realised have already been used for defraying the expenses of the Liquidation.

Unsecured creditors

Unsecured creditors were estimated at £495,923 and we have received claims in the total sum of £243,503

As we have previously advised by letter dated 13 December 2021, we confirm that no dividend is available for unsecured creditors as the funds realised have already been used or allocated for defraying the expenses of the liquidation. Consequently we have not taken steps to formally agree the claims of unsecured creditors.

REMUNERATION & DISBURSEMENTS

Pre-appointment costs (i.e. the Statement of Affairs fee)

The costs relating to work undertaken prior to our appointment – in summoning, advertising and holding the creditors' meeting and assisting the directors in preparing the Statement of Affairs – were approved by the creditors at the Section 98 meeting at £5,000 plus VAT

For information only the time costs incurred during the period since our latest Progress Report (i.e. from 25 April 2021 to 13 December 2021) amount to £4,105 which represents 12.8 hours at an average rate of £321 per hour.

Our time costs for the duration of the Liquidation amount to £31,756 against no amount has been drawn on account of our remuneration.

OTHER RELEVANT INFORMATION

Investigations and reporting on directors conduct

A Liquidator has a duty to enquire into the affairs of an insolvent company, to determine its property and liabilities, and to identify any actions which could lead to the recovery of funds.

In addition, a Liquidator is also required to consider the conduct of the Company's directors and to make an appropriate submission to the Department for Business Energy and Industrial Strategy.

We can confirm that we have discharged our duties in these respects.

Investigations carried out to date

We have undertaken an initial assessment of the manner in which the business was conducted prior to the Liquidation of the Company, and have considered any potential recoveries for the estate in this respect.

Connected party transactions

Other than mentioned in this Final Report (or the Directors Report / my earlier Progress Reports) we have not been made aware of any sales of the Company's assets to connected parties.

Use of personal information

10. CONCLUSION

Unless creditors object, by giving notice in writing within eight weeks of the delivery of the notice of our final account, we will have our release from liability at the same time as vacating office. We will vacate office upon our delivering to the Registrar of Companies our final account.

Should you require further explanation of any matters contained within this report, you should contact our office and speak to the Case Manager (Jonathan Todd) in the first instance, who will be pleased to assist.

INTRODUCTION

This note applies where a licensed insolvency practitioner in the firm is acting as an office holder of an insolvent estate and seeks creditor approval to draw remuneration on the basis of the time properly spent in dealing with the case. It also applies where further information is to be provided to creditors regarding the office holder's fees following the passing of a resolution for the office holder to be remunerated on a time cost basis. Best practice guidance¹ requires that such information should be disclosed to those who are responsible for approving remuneration.

In addition, this note applies where creditor approval is sought to make a separate charge by way of expenses or disbursements to recover the cost of facilities provided by the firm. It also applies where payments are to be made to parties other than the firm, but in relation to which the office holder, the firm or any associate has an interest. Best practice guidance² indicates that such charges should be disclosed to those who are responsible for approving the office holder's remuneration, together with an explanation of how those charges are calculated.

OFFICE HOLDER'S FEES IN RESPECT OF THE ADMINISTRATION OF SOLVENT ESTATES

The office holder has overall responsibility for the administration of the estate. He/she will delegate tasks to members of staff. Such delegation assists the office holder as it allows him/her to deal with the more complex aspects of the case and ensures that work is being carried out at the appropriate level. There are various levels of staff that are employed by the office holder and these appear below.

The firm operates a time recording system which allows staff working on the case along with the office holder to allocate their time to the case. The time is recorded at the individual's hourly rate in force at that time which is detailed below.

EXPENSES INCURRED BY OFFICE HOLDERS IN RESPECT OF THE ADMINISTRATION OF SOLVENT ESTATES

Best practice guidance classifies expenses into two broad categories:

- Category 1 disbursements (approval not required) specific expenditure that is directly related to the case and referable to an independent external supplier's invoice. All such items are charged to the case as they are incurred.
- Category 2 disbursements (approval required) items of expenditure that are directly related to the case which include an element of shared or allocated cost and are based on a reasonable method of calculation, but which are not payable to an independent third party.
 - (A) The following items of expenditure are charged to the case (subject to approval):
 - Car mileage is charged at the rate of 45 pence per mile;

Expenses which should be treated as Category 2 disbursements (approval required) – in addition to the two categories referred to above, best practice guidance indicates that where payments are to be made to outside parties in which the office holder or his firm or any associate has an interest, these should be treated as Category 2 disbursements.
