The performance of the group, which includes the company, is discussed in the group's annual report which does not form part of this report.

Principal risks and uncertainties

This company is part of a large property investment group. As such, the fundamental underlying risks for this company are those of the property group as discussed below

The group generates returns to shareholders through long-term investment decisions requiring the evaluation of opportunities arising in the following areas:

- demand for space from occupiers against available supply,
- identification and execution of investment and development strategies which are value enhancing,
- availability of financing or refinancing at an acceptable cost;
- economic cycles, including their impact on tenant covenant quality, interest rates, inflation and property values,
- legislative changes, including planning consents and taxation,
- engagement of development contractors with strong covenants,
- key staff changes, and
- environmental and health and safety policies

These opportunities also represent risks, the most significant being change to the value of the property portfolio. This risk has high visibility to directors and is considered and managed on a continuous basis. Directors use their knowledge and experience to knowingly accept a measured degree of market risk.

The group's preference for prime assets and their secure long term contracted rental income, primarily with upward only rent review clauses, presents lower risks than many other property portfolios

**NOTES TO THE ACCOUNTS
for the year ended 31 March 2017**

1. Accounting policies

The principal accounting policies adopted by the directors are summarised below. They have all been applied consistently throughout the current year and previous year.

Basis of preparation

The company is incorporated and domiciled in the United Kingdom under the Companies Act 2006. The address of the registered office is York House, 45 Seymour Street, London, W1H 7LX.

These financial statements were prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework ("FRS 101").

In preparing these financial statements, the company applies the recognition, measurement and disclosure requirements of International Financial Reporting Standards as adopted by the EU ("Adopted IFRSs"), but makes amendments where necessary in order to comply with Companies Act 2006 and has set out below where advantage of the FRS 101 disclosure exemptions has been taken.

The financial statements have been prepared under the historical cost convention. Historical cost is generally based on the fair value of the consideration given in exchange for the assets.

These financial statements are separate financial statements. The company is exempt from the preparation of consolidated financial statements, because it is included in the group accounts of The British Land Company PLC.

The company has taken advantage of the following disclosure exemptions under FRS 101:

- (a) The requirements of IAS 1 to provide a Balance Sheet at the beginning of the year in the event of a prior year adjustment;
- (b) The requirements of IAS 1 to provide a Statement of Cash flows for the year;
- (c) The requirements of IAS 1 to provide a statement of compliance with IFRS;
- (d) The requirements of IAS 1 to disclose information on the management of capital;
- (e) The requirements of paragraphs 30 and 31 of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors to disclose new IFRSs that have been issued but are not yet effective;
- (f) The requirements in IAS 24 Related Party Disclosures to disclose related party transactions entered into between two or more members of a group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member;
- (g) The requirements of paragraph 17 of IAS 24 Related Party Disclosures to disclose key management personnel compensation;
- (h) The requirements of IFRS 7 to disclose financial instruments; and
- (i) The requirements of paragraphs 91-99 of IFRS 13 Fair Value Measurement to disclose information of fair value valuation techniques and inputs.

Disclosure exemptions for subsidiaries are permitted where the relevant disclosure requirements are met in the consolidated financial statements. Where required, equivalent disclosures are given in the group accounts of The British Land Company PLC. The group accounts of The British Land Company PLC are available to the public and can be obtained as set out in note 12.

Going concern

The Balance Sheet shows that the company has net current liabilities. However, the principal creditor is the ultimate parent company and the terms of the borrowing include the right of the subsidiary to request that the amount of the loan equal to any deficit be eliminated by converting the loan into share capital.

As a consequence of this the directors feel that the company can continue to trade for the foreseeable future and is well placed to manage its business risks successfully in the current economic climate. Accordingly, they believe the going concern basis is an appropriate one.

**NOTES TO THE ACCOUNTS (CONTINUED)
for the year ended 31 March 2017**

1. Accounting policies (continued)

Significant judgements and sources of estimation uncertainty

The key source of estimation uncertainty relates to the valuation of the property portfolio and investments, where an external valuation is obtained. In accounting for net rental income, the group is required to judge the recoverability of any income accrued and provides against the credit risk on these amounts. The potential for management to make judgements or estimates relating to those items which would have a significant impact on the financial statements is considered, by the nature of the group's business, to be limited.

Investments

Fixed asset investments are stated at the lower of cost and the underlying net asset value of the investments.

Taxation

Current tax is based on taxable profit for the year and is calculated using tax rates that have been enacted or substantively enacted. Taxable profit differs from net profit as reported in the Profit and Loss Account because it excludes items of income or expense that are not taxable (or tax deductible).

Deferred tax is provided on items that may become taxable at a later date, on the difference between the Balance Sheet value and tax base value, on an undiscounted basis.

Shares in group undertakings

Shares in group undertakings, including dividends received from group subsidiaries, are recognised in the Profit and Loss Account in the period to which they relate.

2. Profit on ordinary activities before taxation

Auditors' remuneration

No non-audit fees (2016: £nil) were paid to the group auditors during the year, in respect of this company.

3. Staff numbers and costs

No director received any remuneration for services to the company in either year. The remuneration of the directors was borne by another company within the group, for which no apportionment or recharges were made.

Average number of employees, excluding directors, of the company during the year was nil (2016: nil).
