## **Notes to the financial statements for the year ended 31 October 2013**

### **1. Accounting policies**

#### **1.1. Accounting convention**

The financial statements are prepared under the historical cost convention and comply with financial reporting standards of the Accounting Standards Board.

The company has taken advantage of the exemption in FRS1 from the requirement to produce a cashflow statement because it is a small company.

#### **1.2. Turnover**

Turnover represents the value of services under contracts to the extent that there is a right to consideration and is recorded at the value of the consideration due. Where a contract has only been partially completed at the balance sheet date, turnover represents the value of the service provided to date based on a proportion of the total expected consideration at completion.

#### **1.3. Tangible fixed assets and depreciation**

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Fixtures, fittings and equipment	- 25% reducing balance p.a.
-------------------------------------	-----------------------------

#### **1.4. Deferred taxation**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax.

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

#### **1.5. Foreign currencies**

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at the rates of exchange prevailing at the accounting date. Transactions in foreign currencies are recorded at the date of the transactions. All differences are taken to the profit and loss account.
