Notes to the financial statements for the year ended 31 December 2012

1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements

Basis of preparation

These financial statements are prepared on the going concern basis, under the historical cost convention, and in accordance with the Companies Act 2006 and applicable accounting standards in the United Kingdom. The principal accounting policies which have been applied consistently throughout the year are set out below

Cash flow statement and related party disclosures

The company is exempt from preparing a cash flow statement under Financial Reporting Standard 1 (revised 1996) as it is a wholly owned subsidiary of an entity which prepares consolidated financial statements which are publicly available. The consolidated financial statements of AllianceBernstein L.P., within which the company is included, can be obtained from the address given in Note 13

The company is also exempt from the requirements of Financial Reporting Standard 8 to disclose related party transactions or balances with entities which form part of the group (or investees of the group qualifying as related parties)

Consolidation Exemption

The financial statements contain information about AllianceBernstein Holdings Limited as an individual company and do not contain consolidated financial information as the parent of a group. The company is exempt under the Companies Act 2006 from the requirement to prepare consolidated financial statements as it and its subsidiary undertaking are included by full consolidation in the consolidated financial statements of its parent, AllianceBernstein L.P.

Fixed asset investments

Fixed asset investments are stated at cost less provision for impairment. Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying values of these assets exceed their recoverable amount. The recoverable amount is the greater of net realisable value and value in use, and is determined based on management's assumptions and estimates

Taxation

The charge for taxation is based on the results for the year ended 31 December 2012 and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes. Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date

A net deferred tax asset is recognised as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits against which to recover carried forward tax losses and from which the future reversal of underlying timing differences can be deducted

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on an undiscounted basis

Notes to the financial statements for the year ended 31 December 2012 (continued)

1 Accounting policies (continued)

Financial Assets

The company recognises financial assets initially at fair value, and continues to recognise them through the profit and loss account until the rights to receive cash flows have expired or the company has transferred substantially all the risks and rewards of ownership

Impairment of financial assets

Indicators of impairment are reviewed for all financial assets at each reporting date. Such indicators include significant financial difficulties or losses in subsidiary undertakings, or significant decline in net assets of subsidiary undertakings. An impairment loss is recognised in the profit and loss account when there is objective evidence that an asset is impaired.

Financial Liabilities

The company recognises financial liabilities at fair value and continues to recognise them until the liability has been settled, extinguished or has expired.
