1 Accounting policies

Basis of accounting

The financial statements have been prepared under the historical cost accounting rules and the Financial Reporting Standard for Smaller Entities (effective April 2008)

Tangible fixed assets

Tangible fixed assets are stated at cost or valuation less depreciation and any provision for impairment. Depreciation is provided at rates calculated to write off the cost or valuation of fixed assets, less their estimated residual value, over their expected useful lives on the following basis

Plant and machinery	10% reducing balance
---------------------	----------------------

Operating leases

Rentals payable under operating leases are charged against income on a straight line basis over the lease term

Stocks

Stocks and work in progress are valued at the lower of cost and net realisable value on a first-in first-out basis. Work in progress includes relevant production overheads

Deferred taxation

Deferred taxation arises when items are charged or credited in accounts in different periods to those in which they are included in the company's tax computations

Deferred tax is provided in full on timing differences that result in an obligation to pay more (or less) tax at a future date. Deferred tax is calculated at the average rates that are expected to apply when the timing differences reverse, based on current tax rates and laws. The resulting deferred tax asset or liability is not discounted.

Turnover

Turnover represents the amount derived from the provision of goods and services which fall due within the company's ordinary activities stated net of Value Added Tax
