The financial statements have been prepared under the historical cost convention.

Revenue recognition

Turnover is recognised at the fair value of the consideration received or receivable for goods and services provided in the normal course of business, and is shown net of value added tax and other sales related taxes. The fair value of consideration takes into account trade discounts, settlement discounts and volume rebates. For sales of goods, the turnover is shown net of distribution and carriage charges.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.
