1 Accounting policies

Basis of preparation

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (Effective January 2015).

Turnover

Turnover represents amounts chargeable, net of value added tax, in respect of the sale of goods and services to customers.

Depreciation

Depreciation is provided on tangible fixed assets so as to write off the cost or valuation, less any estimated residual value, over their expected useful economic life as follows:

Asset class	Depreciation method and rate
Office equipment	33% straight line

Foreign currency

Transactions in foreign currencies are recorded at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the closing rates at the balance sheet date. All exchange differences are included in the profit and loss account.

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities. Where shares are issued, any component that creates a financial liability of the company is presented as a liability in the balance sheet. The corresponding dividends relating to the liability component are charged as interest expense in the profit and loss account.

Pensions

The company operates a defined contribution pension scheme. Contributions are recognised in the profit and loss account in the period in which they become payable in accordance with the rules of the scheme.
