2. PROGRESS REPORT

This section of the report provides creditors with an update on the progress made in the Liquidation during the Period and an explanation of the work done by the Liquidator and his staff.

A copy of the receipts and payments account in relation to the conduct of the Liquidation for the Period is attached at Appendix 1 This compares the asset realisations to the estimates contained in the initial Director's Statement of Affairs.

ADMINISTRATION

An office holder must comply with certain statutory obligations under the Insolvency Act 1986 and other related legislation.

Where the costs of the statutory compliance work or reporting to creditors exceeds the initial estimate, it will usually be because the duration of the case has taken longer than anticipated, possibly due to protracted asset realisations, which have in turned placed a further statutory reporting requirement on the Liquidator.

This work will not necessarily bring any financial benefit to creditors but is required on every case by statute.

Plant and Equipment

The Company owned a small amount of used tools & equipment with minimal value, the former director wished to keep these and offered to purchase them for £6,000 plus VAT. The Liquidator accepted the offer as it was significantly higher than any value that could be obtained if the items went to auction. In the Period the former director paid £3,750 against this value and the Liquidator is pursuing the balance.

Book Debts

The Company had a number of invoices outstanding at the point of the Liquidation however most of these balances were disputed. The Liquidator is in the process of trying to recover these balances and an update will be provided in his next report.

Bank Interest Gross

In the Period minimal bank interest of £5.86 has been received.

INVESTIGATION

Some of the work that required to be undertaken is to comply with legislation such as the Company Directors' Disqualification Act 1986 (CDDA 1986) and Statement of Insolvency Practice 2 – Investigations by Office Holders in Administration and Insolvent Liquidations and may not necessarily bring any financial benefit to creditors, unless these investigations reveal potential asset recoveries that can be pursued for the benefit of creditors.

The Liquidator can confirm that a report on the conduct of the Director of the Company has been sent to the Department for Business, Energy & Industrial Strategy under the CDDA 1986 in a previous period. As this is a confidential report, its contents cannot be disclosed.

In the Period no issues have come to light that require further reporting or any further potential recoveries which could be pursued for the benefit of creditors.

MATTERS STILL TO BE DEALT WITH

As detailed above, the Liquidator is continuing to pursue the book debts and balance due with regard the Company plant and equipment.

3. CREDITORS

The Liquidator is not only required to deal with correspondence and claims from unsecured creditors (which may include retention of title claims), but also those of any secured and preferential creditors of the Company. This may involve separate reporting to any secured creditor and dealing with distributions from asset realisations caught under their security, most typically a debenture.

Claims from preferential creditors typically involve employee claims and payments made on behalf of the Company by the Redundancy Payments Service ("RPS") following dismissal.

The above work will not necessarily bring any financial benefit to creditors generally, however required by statute to undertake this work. Similarly, if a distribution is to be paid to any class of creditor, work will be required to agree those claims and process the dividend payments to each relevant class of creditor. The more creditors a company has, the more time and cost will be involved by the Liquidator in dealing with those claims.

The position in respect of the creditors can be summarised as follows:

Preferential Creditors

The Company has no preferential creditors.

Secured Creditors

There are no creditors that hold security over the Company.

Prescribed Part

The Company did not grant any floating charges to a secured creditor. Accordingly, there is no requirement to create a fund out of the Company's net floating charge property for unsecured creditors, which only applies to charges created after 15 September 2003.

Unsecured Creditors

During the course of the Liquidation the Liquidator has received trade and expense creditor claims amounting to £68,600.91. To date HMRC have submitted no claim into the Liquidation.

The Liquidator will not be formally agreeing the claims of the creditors at this time as the prospect of a distribution to this class of creditor is currently uncertain.

4. LIQUIDATOR'S FEES AND DISBURSEMENTS

Pre Appointment Fees

In the Period the Liquidator called a decision procedure by correspondence for creditors to agree his remuneration. The relevant decisions were passed and the pre-appointment Statement of Affairs Fee was agreed at £5,000 plus VAT plus disbursements.

No fees have been drawn to date.

Liquidator's Fees

The general approach to resourcing our assignments is to allocate staff with the skills and experience to meet the specific requirements of the case.

The constitution of the case team will usually consist of an Insolvency Practitioner, a Manager, and an Administrator or Assistant. The exact constitution of the case team will depend on the anticipated size and complexity of the assignment and the experience requirements of the assignment.

Creditors will also recall that a resolution was passed that the Liquidator would be remunerated based on a fixed fee of £7,500 (plus VAT). As will be noted no fees have been drawn due to date.

This concludes this report. Please note that the Liquidator is required to provide a further report on the progress of the Liquidation within two months of the end of the next anniversary of the Liquidation, unless matters have concluded prior to this, in which case creditors will be provided with the final progress report.
