**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 JULY 2019**

1. STATUTORY INFORMATION

A & P Investments Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets.

Turnover

Turnover represents rental income for the year.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Profit and loss account, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Going concern

The balance sheet at the end of the year recorded net current liabilities. However, the director believes sufficient financial resources are available to the company to enable it to continue trading into the foreseeable future. Therefore, the financial statements have been prepared on a going concern basis.

Investment properties

Investment property is shown at most recent valuation. Any aggregate surplus or deficit arising from changes in market value is transferred to a revaluation reserve.

In accordance with the Financial Reporting Standard for Smaller Entities, no depreciation is provided in respect of freehold or long leasehold investment properties. This is a departure from the Companies Act 2006, which requires all properties to be depreciated. Such properties are not held for consumption, but for investment, and the directors consider that to depreciate them would not give a true and fair view. The directors consider that this policy results in the accounts giving a true and fair view.

3. EMPLOYEES AND DIRECTORS

The average number of employees during the year was NIL (2018 - 3).
