### **Notes to the Financial Statements - continued for the Year Ended 31 December 2022**

#### **1. ACCOUNTING POLICIES - continued**

##### **c) Going concern**

The financial statements have been prepared on a going concern basis. The Company is a member of the Slater and Gordon Consolidated Group (the "Group") whose ultimate parent entity is Slater and Gordon UK Holdings Limited. The Company is under common management of the Group and benefits from Group support when needed. For details of where a copy of the Group financial statements can be obtained which includes a detailed assessment of the going concern of the Group by the directors, see note 9.

##### **d) Significant accounting estimates and judgements**

The preparation of financial statements in conformity with FRS 101 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. During the current and prior year there were no areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements.

##### **e) Taxation**

###### *Income tax*

The tax expense for the year comprises of current and deferred tax and is recognised in the statement of comprehensive income. Under certain circumstances, tax is recognised either in other comprehensive income or directly in equity, depending on the item that the tax relates to.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the statement of financial position date in the UK where the Company operates and generates taxable income.

Deferred tax assets and liabilities are recognised on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Company's financial statements. However, deferred tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction, other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax assets and liabilities are determined using the current income tax charge defined above and is shown net in the statement of financial position. Deferred tax assets are recognised to the extent that it is highly probable that future taxable profits will be available against which the temporary differences can be utilised and is shown net in the statement of financial position. The deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

###### *Value Added Tax ("VAT")*

Revenue, expenses and assets are recognised net of the amount of VAT, except where the VAT incurred is not recoverable from Her Majesty's Revenue and Customs ("HMRC") and is therefore recognised as part of the asset's cost or as part of the expense item. Receivables and payables are stated inclusive of VAT. The net amount of VAT payable to HMRC is included as part of current payables in the statement of financial position.

##### **f) Investment in subsidiaries**

Investments in subsidiaries are stated at cost. Impairment reviews are carried out if there is an indication that the carrying value of the investments may have been impaired. Any impairment loss is charged to the statement of comprehensive income during the reporting period in which the loss is incurred.

##### **g) Trade and other receivables**

Collectability of intercompany and related party balances is reviewed at each reporting period. Management considers whether an impairment is required based upon recoverability. Debts that are known to be uncorrectable are written off when identified.

#### 3. TAXATION

##### Analysis of tax expense

No liability to UK corporation tax arose for the year ended 31 December 2022 nor for the year ended 31 December 2021.

##### Factors affecting the tax expense

The tax assessed for the year is higher (2021 - higher) than the standard rate of corporation tax in the UK. The difference is explained below:

|   | 2022<br>£ | 2021<br>£ |
|---|-----------|-----------|
| Loss before income tax  | (30)      | (91)      |
| Loss multiplied by the standard rate of corporation tax in the UK of 19% (2021 - 19%) | (6)       | (17)      |
| Effects of:<br>Group relief surrendered   | 6         | 17        |
| Tax expense   | -         | -         |

Following the Budget announcement on 3 March 2021 the UK Corporation Tax rate (from 1 April 2023) will be 25% (for companies with profits over £250,000) and continue to be 19% (for companies with profits of £50,000 or less). Companies with profits between £50,000 and £250,000 will pay tax at the main rate reduced by a marginal relief providing a gradual increase in the effective Corporation Tax rate. The tax rate change was enacted in Finance Act 2021 on 24 May 2021.
