## **Notes to the Abridged Financial Statements**

**Year ended 31 March 2018**

### **1. General information**

The company is a private company limited by shares, registered in England and Wales. The address of the registered office is Stirling House, Carriers Fold, Church Road, Wombourne, Wolverhampton, WV5 9DJ, West Midlands.

### **2. Statement of compliance**

These abridged financial statements have been prepared in compliance with Section 1A of FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland'.

### **3. Accounting policies**

#### **Basis of preparation**

The abridged financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities and investment properties measured at fair value through profit or loss.

The abridged financial statements are prepared in sterling, which is the functional currency of the entity.

#### **Judgements and key sources of estimation uncertainty**

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported. These estimates and judgements are continually reviewed and are based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

#### **Revenue recognition**

Turnover is measured at the fair value of the consideration received or receivable for goods supplied and services rendered, net of discounts and Value Added Tax. Revenue from the sale of goods is recognised when the significant risks and rewards of ownership have transferred to the buyer (usually on despatch of the goods); the amount of revenue can be measured reliably; it is probable that the associated economic benefits will flow to the entity; and the costs incurred or to be incurred in respect of the transactions can be measured reliably.

#### **Income tax**

The charge for taxation takes into account, where material, taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred taxation is measured on a non-discounted basis at the average tax rates that would apply when the timing differences are expected to reverse, based on tax laws that have been enacted by the balance sheet date.

## **Tangible assets**

Tangible assets are initially recorded at cost, and subsequently stated at cost less any accumulated depreciation and impairment losses. Any tangible assets carried at revalued amounts are recorded at the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. An increase in the carrying amount of an asset as a result of a revaluation, is recognised in other comprehensive income and accumulated in equity, except to the extent it reverses a revaluation decrease of the same asset previously recognised in profit or loss. A decrease in the carrying amount of an asset as a result of revaluation, is recognised in other comprehensive income to the extent of any previously recognised revaluation increase accumulated in equity in respect of that asset. Where a revaluation decrease exceeds the accumulated revaluation gains accumulated in equity in respect of that asset, the excess shall be recognised in profit or loss.

### **Depreciation**

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Leasehold property	-	20% straight line
Fixtures & fittings	-	20% reducing balance
Office equipment	-	15% reducing balance

### **Impairment of fixed assets**

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date. For the purposes of impairment testing, when it is not possible to estimate the recoverable amount of an individual asset, an estimate is made of the recoverable amount of the cash-generating unit to which the asset belongs. The cash-generating unit is the smallest identifiable group of assets that includes the asset and generates cash inflows that largely independent of the cash inflows from other assets or groups of assets. For impairment testing of goodwill, the goodwill acquired in a business combination is, from the acquisition date, allocated to each of the cash-generating units that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the company are assigned to those units.

## Financial instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities. Where the contractual obligations of financial instruments (including share capital) are equivalent to a similar debt instrument, those financial instruments are classed as financial liabilities. Financial liabilities are presented as such in the balance sheet. Finance costs and gains or losses relating to financial liabilities are included in the profit and loss account. Finance costs are calculated so as to produce a constant rate of return on the outstanding liability. Where the contractual terms of share capital do not have any terms meeting the definition of a financial liability then this is classed as an equity instrument. Dividends and distributions relating to equity instruments are debited direct to equity.

## Defined contribution plans

Contributions to defined contribution plans are recognised as an expense in the period in which the related service is provided. Prepaid contributions are recognised as an asset to the extent that the prepayment will lead to a reduction in future payments or a cash refund. When contributions are not expected to be settled wholly within 12 months of the end of the reporting date in which the employees render the related service, the liability is measured on a discounted present value basis. The unwinding of the discount is recognised as a finance cost in profit or loss in the period in which it arises.

## 4. Employee numbers

The average number of persons employed by the company during the year amounted to 16 (2017: 15 ).

## 5. Tangible assets

	£
<b>Cost</b>	
<b>At 1 April 2017 and 31 March 2018</b>	<b>17,400</b>
	-----
<b>Depreciation</b>	
At 1 April 2017	11,625
Charge for the year	887
	-----
<b>At 31 March 2018</b>	<b>12,512</b>
	-----
<b>Carrying amount</b>	
<b>At 31 March 2018</b>	<b>4,888</b>
	-----
At 31 March 2017	5,775
	-----

## **6. Director's advances, credits and guarantees**

A director's loan account balance remains at the year end in the sum of £1,699 owing to the director. This loan is interest free and repayable on demand.
