NOTES TO THE ABBREVIATED ACCOUNTS

FOR THE YEAR ENDED 31 DECEMBER 2013

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

At the year end the company had net current liabilities of £480,649 (2012 - £540,450) and continuation of its activities is dependent on the continued financial support of a related undertaking. The related undertaking has undertaken not to withdraw its support and accordingly the accounts have been prepared on a going concern basis.

1.2 Compliance with accounting standards

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated).

1.3 Turnover

Turnover represents rental income receivable.

1.4 Goodwill

Acquired goodwill is written off in equal annual instalments over its estimated useful economic life of three years.

1.5 Tangible fixed assets and depreciation

All fixed assets are initially recorded at cost.

Investment properties are shown at their open market value. The surplus or deficit arising from the annual revaluation is transferred to the investment revaluation reserve unless a deficit, or its reversal, on an individual investment property is expected to be permanent, in which case it is recognised in the profit and loss account for the year.

This is in accordance with the FRSSE which, unlike the Companies Act, does not require depreciation of investment properties. Investment properties are held for their investment potential and not for use by the company and so their current value is of prime importance. The departure from the provisions of the Act is required in order to give a true and fair view.
