The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

The company was dormant throughout the current year and previous period.

**Deferred tax**

Full provision is made at the tax rates that are expected to apply in the periods in which the timing differences are expected to reverse based on the tax rates and laws that have been enacted or substantially enacted at the balance sheet date in respect of all timing differences which have arisen but not reversed at the balance sheet date. Timing differences are differences between the company's taxable profits and its results as stated in the accounts. Deferred tax is measured on a non-discounted basis. Deferred tax assets are only recognised where they arise from timing differences and their recoverability in the short term is regarded as more likely than not.
