PART 1 - GENERAL DESCRIPTION OF THE COMPANY'S ACTIVITIES AND IMPACT

In the space provided below, please insert a general account of the company's activities in the financial year to which the report relates, including a fair and accurate description of how they have benefited the community, or section of the community, which the company is intended to serve.

During the year the company has continued to provide science activities for children of school and pre school age who live in the East Midlands area of England. In a time when the importance of science and technological knowledge is seen as key to the future of the country, this has benefited the community by encouraging children to develop an interest in science and technology. The company has used graduates and post graduates from local universities to run science based courses in local schools by direct interaction with the school pupils. The company has provided 10 full time and a number of part time positions for the graduates and post graduates to enable them to further their interests in working with children. This leads them to consider careers in science education boosting the pool of science teachers in the country. The company has continued to attempt to raise funds to enable children to attend subsidised activities.
