1. Accounting policies

Basis of preparation of financial statements

These financial statements have been prepared under the historic cost convention in accordance with the accounting policies set out below and with section 1A of FRS 102, the Financial Reporting Standard applicable in the UK and Republic of Ireland, and the Companies Act 2006. The presentation currency is sterling.

Changes in accounting standards, policies and estimates

The transition to a new accounting standard has resulted to some changes in the accounting policies. The nature of these changes, and any impact on the values displayed for the comparative period, are explained in the notes below where applicable.

Going concern basis

The accounts have been prepared on the assumption that the company is able to carry on business as a going concern for the foreseeable future.

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances. Revenue from the sale of goods is recognised when goods are delivered and legal title has passed.

Tangible fixed assets depreciation policy

Tangible fixed assets are stated at cost less accumulated depreciation and impairment losses. Depreciation is provided, after taking account of any grants receivable, at rates calculated to write off the cost of fixed assets, less the estimated residual value, over their estimated useful lives.
