NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 31 MARCH 2013

1 ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Turnover

The turnover shown in the profit and loss account represents the value of work done in the year, including estimates of amounts not yet invoiced and excluding value added tax. Turnover in respect of long-term contracts and contracts for on-going services is recognised by reference to the stage of completion.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery - 10% on reducing balance

Deferred tax

Provision is made in full for all taxation deferred in respect of timing differences that have originated but not reversed by the balance sheet date except for timing differences arising on revaluations of fixed assets which are not intended to be sold and gains on disposals of fixed assets which will be rolled over into replacement assets. No provision is made for taxation on permanent differences. Deferred tax assets are recognised to the extent that it is more likely than not that they will be recovered. Deferred tax is measured using the rate of tax that is expected to apply in the periods in which the timing differences are expected to reverse.

Provisions

Provisions are set up only where it is probable that a present obligation exists as a result of an event prior to the balance sheet date and that a payment will be required in settlement that can be estimated reliably. Where material, provisions are calculated on a discounted basis.

Financial instruments

Financial instruments are classified, and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
