Directors' Report

Year ended 31 December 2014

The directors present their report and the unaudited financial statements of the company for the year ended 31 December 2014

Principal activities and business review

The principal activity of the company during the year was, and will continue to be that of a leasing company. The company entered into a 10 year headlease agreement over certain network fixed assets of ntl Cablecomms Wirral in 2012. Subsequently ntl Cablecomms Wirral entered into a 5 year sublease agreement over the same assets with the company.

The company is a wholly owned subsidiary undertaking of Virgin Media Inc (Virgin Media) which is itself a wholly owned subsidiary of Liberty Global plc (Liberty Global).

The Virgin Media Inc consolidated group (the group) operates under the Virgin Media brand in the United Kingdom (U K).

The group provides digital cable, broadband internet, fixed-line telephony and mobile services in the U K to both residential and business-to-business (B2B) customers. The group is one of the U K's largest providers of residential digital cable, broadband internet and fixed-line telephony services in terms of the number of customers. The group believes its advanced, deep-fibre cable access network enables us to offer faster and higher quality broadband services than our digital subscriber line, or DSL, competitors. As a result, it provides our customers with a leading, next-generation broadband service and one of the most advanced interactive TV services available in the U K market.

The group provides mobile services to our customers using a third-party network through an MVNO arrangement.

In addition, through the Virgin Media Business brand, the group offers a broad portfolio of B2B voice, data, internet, broadband and managed services solutions to small businesses, medium and large enterprises and public sector organisations in the U K.

At 31 December 2014, the group provided services to approximately 5.0 million residential cable customers on its network. The group is also one of the largest mobile virtual network operators by number of customers, providing mobile telephony services to 2.1 million contract mobile customers and 1.0 million prepaid mobile customers over third party networks. At 31 December 2014, 84% of residential customers on the group's cable network received multiple services and 66% were "triple-play" customers, receiving broadband internet, digital cable and fixed-line telephony services from the group.

Liberty Global is the largest international cable company with operations in 14 countries. At 31 December 2014, Liberty Global's market-leading triple-play services are provided through next-generation networks and innovative technology platforms that connected 27 million customers subscribing to 56 million television, broadband internet and telephony services. In addition, Liberty Global served 5 million mobile subscribers across nine countries at 31 December 2014.

Future outlook

The directors will continue to review management policies in light of changing trading and market conditions. Further detail of the future outlook of the group is provided in Virgin Media Inc's financial statements and annual report for 2014, which are available from the company secretary at Virgin Media, Bartley Wood Business Park, Hook, Hampshire, RG27 9UP.

Notes to the Financial Statements

Year ended 31 December 2014

1. Accounting policies

A summary of the principal accounting policies is set out below. All accounting policies have been applied consistently, unless noted below.

Basis of accounting

The financial statements have been prepared under the historical cost convention in accordance with the Companies Act 2006, and applicable UK accounting standards.

Cash flow statement

The company is exempt from publishing a cash flow statement as permitted by FRS 1 "Cash flow statements (revised 1996)", as it is a wholly owned subsidiary of its ultimate parent company.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions:

- provision is made for deferred tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned. However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold.

- deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Trade and other debtors

Trade and other debtors are stated at their recoverable amount. Provision is made when the amount receivable is not considered recoverable and the amount is fully written off when the probability for recovery of a balance is assessed as being remote.

Finance leases

Where the company enters into a lease under which it takes substantially all the risks and rewards of ownership of an asset, the lease is treated as a finance lease.

The assets are recorded in the balance sheet as a tangible fixed asset and are depreciated over their useful economic lives. Finance lease debtors are recorded in the balance sheet, and future instalments payable under finance leases are included within creditors, net of finance charges. Rentals receivable and payable under these finance lease arrangements are apportioned, the finance elements are recorded in the profit and loss account on a reducing balance basis and the capital elements reduce the outstanding liability or asset in accordance with the terms of the contract.

Future accounting pronouncements

From 1 January 2015 the company will be required to adopt FRS 101 or FRS 102.
