The relevant information for Finance Wales Investments (10) Limited is set out within the Directors' report.

Finance Wales plc's ultimate parent, the Welsh Ministers, acting through the Welsh Government, has indicated in a letter of support that it will continue to provide both revenue and capital support at a level sufficient to enable Finance Wales to continue as a going concern, until at least 30 September 2015.

Cash flow statement

The company has taken advantage of the exemption not to prepare a cash flow statement under FRS 1 as a consolidated cash flow statement is produced in the ultimate parent company's financial statements.

1. ACCOUNTING POLICIES (continued)

Related party transactions

In accordance with the exemption conferred by paragraph 17 of FRS 8 "Related party disclosures" the company has not disclosed transactions with other group companies where 100% of the voting rights are controlled by the group

Taxation

Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted at the balance sheet date

Deferred tax is provided in full on timing differences that result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the financial statements

Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted

Public equity

The Welsh Ministers, acting through the Welsh Government, have this period provided funds for investment purposes. Some of this Welsh Government funding was made as Public Dividend Capital (PDC) whilst the remainder was classified as Grant in Aid or Core Funding for Investment purposes

The funding was to invest in the long-term sustainability of Finance Wales and within the Welsh Government's own accounting arrangements the funds are regarded as being an investment. Finance Wales treats the funds as "Public Equity". This is in line with the treatment adopted by other publicly owned bodies

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences residual interest in the assets of the company after deducting all of its liabilities. Equity instruments issued by the company are recorded at the proceeds received, net of direct issue costs
