3. ACCOUNTING POLICIES

(a) Basis of preparation

The financial statements have been prepared on the historical cost basis. The financial statements are prepared in sterling, which is the functional currency of the entity.

(b) Going concern

In March 2020 the UK was impacted by the outbreak of Covid-19. The Government imposed significant restrictions at that time in an effort to manage the spread of the virus which resulted in the company having to review and change its working practices to ensure compliance with these restrictions. At the date of signing these financial statements, the directors have considered the effect of the Coronavirus pandemic on the company with the information available to it and do not believe that it will affect the ability of the company to continue to trade for the foreseeable future. On this basis, the directors have prepared these financial statements on a going concern basis.

(c) Revenue recognition

Turnover is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods supplied and services rendered, stated net of discounts and of Value Added Tax.

(d) Current & deferred tax

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, tax is recognised in other comprehensive income or directly in equity, respectively. Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised in respect of all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.

(e) Tangible assets

Tangible assets are initially recorded at cost, and subsequently stated at cost less any accumulated depreciation.
