Balance Sheet as at 31 March 2018

For the financial year ending 31 March 2018 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

#### Directors' responsibilities:

- The members have not required the company to obtain an audit of its accounts for the year in question in accordance with section 476; and
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These financial statements have been prepared and delivered in accordance with the special provisions relating to companies subject to the small companies regime within Part 15 of the Companies Act 2006. The option not to file the profit and loss account and directors' report has been taken.

Approved and authorised by the Board on 24 December 2018 and signed on its behalf by:

M R Everatt Director

## Notes to the Financial Statements for the Year Ended 31 March 2018

#### 1 General information

The company is a private company limited by share capital, incorporated in England.

The address of its registered office is: Mary Street House Mary Street Taunton Somerset TA1 3NW

#### 2 Accounting policies

### Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### Statement of compliance

These financial statements have been prepared in accordance with Financial Reporting Standard 102 Section 1A - 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006.

#### Basis of preparation

These financial statements have been prepared using the historical cost convention except that as disclosed in the accounting policies certain items are shown at fair value.

These financial statements are presented in Sterling (£).

### Going concern

At the balance sheet date the company had net liabilities of £1,470,359. Included in current liabilities are loans from the directors of £2,326,178. The directors have confirmed that they will continue to support the company and as such consider the preparation of the financial statements on the going concern basis to be appropriate.

#### **Turnover recognition**

Turnover comprises the fair value of the consideration received or receivable for the provision of contracting and haulage services. Turnover is shown net of VAT and is recognised when services are provided to customers.

## Notes to the Financial Statements for the Year Ended 31 March 2018

#### Tangible assets

Tangible assets are stated at cost, less accumulated depreciation and accumulated impairment losses.

The cost of tangible assets includes directly attributable incremental costs incurred in their acquisition and installation.

#### Depreciation of tangible assets

Depreciation is charged so as to write off the cost of assets, other than land and properties under construction over their estimated useful lives, as follows:

Asset class
Plant and machinery

Lorries and tractors

## Depreciation method and rate

15% reducing balance basis15% reducing balance basis

### **Biological current assets**

Biological assets not held for continuing use within the business are classified as current assets. Such assets are measured at cost less accumulated impairment. Assets within this classification comprise of tillages.

#### **Basic Payment Scheme**

Basic payment scheme (BPS) entitlements are measured at cost less accumulated amortisation and impairment losses.

#### **Amortisation**

Amortisation is provided on intangible assets so as to write off the cost, less any estimated residual value, over their useful life as follows:

#### **Asset class**

### Amortisation method and rate

Basic Payment Scheme entitlements

16.67% straight line

#### Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

### **Debtors**

Trade debtors are amounts due from customers for merchandise sold or services performed in the ordinary course of business.

Trade debtors are recognised initially at the transaction price. They are subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for the impairment of trade debtors is established when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of the receivables.

#### Stocks

Stocks comprising deadstock such as fuel, fertiliser and sprays are stated at the lower of cost and estimated selling price less costs to complete and sell.

## Notes to the Financial Statements for the Year Ended 31 March 2018

#### Creditors

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if the company does not have an unconditional right, at the end of the reporting period, to defer settlement of the creditor for at least twelve months after the reporting date. If there is an unconditional right to defer settlement for at least twelve months after the reporting date, they are presented as non-current liabilities.

Trade creditors are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest method.

### **Borrowings**

Interest-bearing borrowings are initially recorded at fair value, net of transaction costs. Interest-bearing borrowings are subsequently carried at amortised cost, with the difference between the proceeds, net of transaction costs, and the amount due on redemption being recognised as a charge to the Profit and Loss Account over the period of the relevant borrowing.

Interest expense is recognised on the basis of the effective interest method and is included in interest payable and similar charges.

Borrowings are classified as current liabilities unless the company has an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

#### Leases

Leases in which substantially all the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to profit or loss on a straight-line basis over the period of the lease. Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee.

Assets held under finance leases are recognised at the lower of their fair value at inception of the lease and the present value of the minimum lease payments. These assets are depreciated on a straight-line basis over the shorter of the useful life of the asset and the lease term. The corresponding liability to the lessor is included in the Balance Sheet as a finance lease obligation.

Lease payments are apportioned between finance costs in the Profit and Loss Account and reduction of the lease obligation so as to achieve a constant periodic rate of interest on the remaining balance of the liability.

### Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

#### 3 Staff numbers

The average number of persons employed by the company (including directors) during the year was 15 (2017 - 10).

## Notes to the Financial Statements for the Year Ended 31 March 2018

#### 4 Exceptional items

The company purchased the trade and assets of a partnership in which all of the directors were partners of, on 17 November 2017 for a value of £1,920,855. As part of the purchase £274,560 was presented within the profit and loss account as cost of sales and related to current biological assets transferred from the partnership in the year ended 31 March 2018.

### 5 Intangible assets

	Basic payment scheme entitlements	Total £
Cost or valuation		
Additions	228,934	228,934
At 31 March 2018	228,934	228,934
Amortisation		
Amortisation charge	38,156	38,156
At 31 March 2018	38,156	38,156
Carrying amount		
At 31 March 2018	190,778	190,778

## **Basic Payment Scheme Entitlements**

The amortisation charge for the year is recognised within depreciation in the profit and loss. Deferred income has been released to the profit and loss and is recognised as other operating income. The net effect in the profit and loss for the year is £Nil.
